

The Horsemen

Johann Peter Lange, Philip Schaff

The Horsemen:

The Horsemen's Gambit David B. Coe, 2009-01-20 David B Coe created a richly textured unique world in his *Winds of the Forelands* and topped himself with *The Sorcerer's Plague* his first novel set in the Southlands of the same world Divided by clan rivalries and ancient feuds suspicious of magics wielded by longtime enemies the folk of the South have lived in a state of truce for generations But peace is shattered when a woman looses a deadly plague on the magical Qirsi people While some people seek to prevent the spread of the plague others see in this disaster a unique opportunity With the magical folk weakened by the decimation of the plague their unmagical enemies might be able to defeat them and take back lands lost in an ancient war Haunted by the specter of what would be a tragic and devastating new war the Southlands are aflame with rumors of violence pestilence and treachery Coe weaves together engagingly complex characters unique unusual magic political intrigue and a compelling unpredictable story into a captivating epic that will enthrall fantasy readers A potent brew conjured by a masterful storyteller
