The Human Face Of Poverty A Chronicle Of Urban America:

The Human Face of Poverty Vincent Fanelli, 1990 This book provides descriptive reports about people living in poverty in New York City New York in the period from 1964 to 1979 as a beginning to solving the problems of persistent poverty Analyses of the problems of poverty have rarely been undertaken from the point of view of the poor themselves It is argued that society will never be able to grapple with the contradictions of poverty until it comes to understand the poor as real people not as statistical abstractions or faceless objects of pity or contempt These reports are not sociological studies but they are informal case studies that reveal the lives of residents in a poor largely Puerto Rican neighborhood in Manhattan New York assisted by volunteers from the Fourth World Movement The International Fourth World Movement is a volunteer corps of people from various nationalities and walks of life who are committed to forming partnerships with the persistently poor in order to work for social justice Education is one of the areas of concentration of the movement in its endeavors to make the poor partners for progress A global perspective of the Fourth World Movement and the very poor is appended SLD

American Poverty Woody Klein, 2013-01-01 Analyzes efforts to eliminate poverty during each U S president s administration from George Washington to Barack Obama looking at why no president has been able to end poverty and challenges each has faced in his quest to do so Why America Lost the War on Poverty--And How to Win It Frank Stricker, 2011-02-01 In a provocative assessment of American poverty and policy from 1950 to the present Frank Stricker examines an era that has seen serious discussion about the causes of poverty and unemployment Analyzing the War on Poverty theories of the culture of poverty and the underclass the effects of Reaganomics and the 1996 welfare reform Stricker demonstrates that most antipoverty approaches are futile without the presence or creation of good jobs Stricker notes that since the 1970s U S poverty levels have remained at or above 11% despite training programs and periods of economic growth The creation of jobs has continued to lag behind the need for them Stricker argues that a serious public debate is needed about the job situation social programs must be redesigned a national health care program must be developed and economic inequality must be addressed He urges all sides to be honest if we don t want to eliminate poverty then we should say so But if we do want to reduce poverty significantly he says we must expand decent jobs and government income programs redirecting national resources away from the rich and toward those with low incomes *Why America Lost the War on Poverty And How to Win It* is sure to prompt much needed debate on how to move forward *Why America Lost the War on Poverty - and How to Win It* , Handbook of Applied Developmental Science Richard M.
