## **The Human War:**

**The Human War** Noah Cicero, 2003 Fiction A terse polemical and often violent book that follows Mark a disaffected American everyman through the trailer parks bedrooms dive bars and strip joints of humdrum Youngstown Ohio during the final two hours leading up to the dawn of America's supposed War on Terror America's finest literary pariah You bet Dazed Confused This alarmingly well written book is a new voice that has rankled more than enough people back home in America This vitriolic stance against Bush God and War is just the book we should be reading in today's climate Scarecrow

**The Future of Post-Human War and Peace** Peter Baofu, 2010-04-16 Is peace really so precious that it is popularly viewed in irenology peace studies of our time as natural and a prime force in human behavior whereas war its opposite is instead condemned as sinful and not natural In fact there is even the prestigious Nobel peace prize to be awarded to those who contribute to world peace but not an equivalent Nobel war prize to those who do the contrary This euphoric view of peace is by no means a constant conventional wisdom in human history as it can be sharply contrasted with an equally seductive view of war in polemology war studies For instance only several decades ago the well known writer Thomas Mann once approvingly asked about war Is not peace an element of civil corruption and war a purification a liberation an enormous hope WK 2009a This fickleness of conventional wisdom on war and peace has blinded us from the dark sides of both war and peace with the consequence of impoverishing our understanding of the human condition and its future Contrary to the two opposing sides of this conventional wisdom in its fickle history war and peace are neither possible nor desirable to the extent that their respective ideologues would like us to believe In addition war and peace cannot exist with each other Of course this is not to suggest that irenology peace studies and polemology war studies are worthless or that other fields of study related to war studies and peace studies like political science economics psychology sociology international relations history anthropology religious studies gender studies as well as a variety of others should be ignored WK 2009 Needless to say neither of these two extreme views is reasonable either Instead this book accepts the challenging task to provide an alternative better way to understand the nature of war and peace especially in relation to aggression and pacificity while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other Thus this book offers a new theory to transcend the existing approaches in the literature on war and peace in a way not conceived before If successful this seminal project is to fundamentally change the way that we think about war and peace from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate

Beyond War: The Human Potential for Peace Douglas P. Fry, 2007-02-16 Beyond War shows how anthropology can provide unique insights into the nature of war and the potential for peace Challenging the traditional view that humans are by nature primarily violent and warlike Fry argues that humans also possess a strong ability to resolve conflicts without violence *The Human Tradition in*

*the Civil War and Reconstruction* Steven E. Woodworth, 2000 Woodworth compiles and presents brief biographies of individuals important to the Civil War and Reconstruction era relying on biographical detail and historical correspondence to give a humanistic perspective to the age

**War on the Human** Konstantinos Blatanis, Theodora Tsimpouki, 2017-05-11 The essays in this collection explore the question of the human both as a contested concept and as it relates to and functions within the wider global conjuncture The authors explore the theoretical underpinnings of the term human inviting the reader to reflect upon the contemporary human condition to identify opportunities and threats in the changes ahead and to determine what aspects of our species we should abandon or strive to maintain The volume approaches these ideas from a myriad of perspectives but the authors are united in their abstention from rejecting humanism outright or indeed fully endorsing posthumanism's teleological narrative of accelerated progress and perfectability Instead the authors argue that the term human itself is better understood as a concept perpetually undergoing revision and is necessarily subject to scrutiny The contributors here are thus concerned with investigating the following questions What does it mean to be human or to have a self What is the current place or status of the human in the contemporary world As technology is increasingly used to modify our bodies and minds to what extent should we alter and how can we improve our very understanding of human nature The authors contend that literature is the art form best placed to answer these questions In its dynamism and discursiveness literature has the capacity to both reflect dominant discourses and ideologies as well as to generate and even anticipate social change to critique and refine conventional ideas and existing cultural modes and to envision new possibilities for the future The human and its literary representation in other words are inherently intertwined

**The Human Face of War** Jim Storr, 2009-05-25 Warfare is hugely important The fates of nations and even continents often rests on the outcome of war and thus on how its practitioners consider war The Human Face of War is a new exploration of military thought It starts with the observation that much military thought is poorly developed often incoherent and riddled with paradox The author contends that what is missing from British and American writing on warfare is any underpinning mental approach or philosophy Why are some tank commanders snipers fighter pilots or submarine commanders far more effective than others Why are many generals sacked at the outbreak of war The Human Face of War examines such phenomena and seeks to explain them The author argues that military thought should be based on an approach which reflects the nature of combat Combat fighting is primarily a human phenomenon dominated by human behaviour The book explores some of those human issues and their practical consequences The Human Face of War calls for and suggests a new way of considering war and warfare

**The Human Tradition in the World War II Era** Malcolm Muir, 2001 This collection of brief biographical sketches presents the American experience in the World War II era by looking at the conflict through the ordeals of a broad array of men and women The stories of soldiers sailors airmen and marines who served in the European and Pacific theaters are included here Among the persons in uniform subjects include an aviation trainer and

combat commander an infantryman and a prisoner of war The critical homefront comes to life through such diverse figures as a Kansas farmer a famous Hollywood actor women workers in the Iron Range of Minnesota a Mennonite conscientious objector and a wartime congresswoman The varied experiences of a Japanese American couple a Jewish policymaker and black leader reveal the trials and accomplishments of minority groups during this tumultuous time By focusing on a wide variety of Americans The Human Tradition in the World War II Era gives readers a fuller understanding of the tremendous war effort mounted by the U S but also a deeper sense of its profound impact on American society at large and on the lives of individuals both in the field and on the homefront These compelling personal stories will capture the imagination of all those interested in military history American history and World War II

**Paying the Human Costs of War** Christopher Gelpi, Peter D. Feaver, Jason Reifler, 2009-03 The book finds that the most important consideration for the public is the expectation of success If the public believes that a mission will succeed the public will support it even if the costs are high When the public does not expect the mission to succeed even small costs will cause the withdrawal of support Providing a wealth of new evidence about American attitudes toward military conflict Paying the Human Costs of War offers insights into a controversial timely and ongoing national discussion

*Battle Scars: The Impact of War on the Human Soul* Pasquale De Marco, 2025-05-08 Battle Scars The Impact of War on the Human Soul is a profound exploration of the human experience of war Through a series of essays and reflections this book delves into the psychological emotional and spiritual scars that conflict inflicts Drawing from historical and contemporary examples the author examines the ways in which war dehumanizes and traumatizes but also the resilience and courage that can emerge in the face of adversity The book traces the ripple effects of war beyond the battlefield exploring its impact on civilians families and communities It considers the economic social and environmental devastation that war leaves in its wake as well as the long term challenges of rebuilding and reconciliation Battle Scars The Impact of War on the Human Soul also delves into the ethical and moral dilemmas that war poses examining the justifications and consequences of violence The author questions the role of politics and power in fueling conflict and considers the responsibility of individuals and nations to prevent and resolve it Ultimately this book is a testament to the indomitable spirit of humanity It is a reminder that even in the darkest of times hope and healing can prevail It is an invitation to reflect on the true cost of war and to work towards a future where peace and compassion triumph over violence and hatred Battle Scars The Impact of War on the Human Soul is an essential read for anyone who has been touched by war or who seeks a deeper understanding of its profound impact on the human soul It is a powerful and moving exploration of one of the most enduring and devastating aspects of the human experience If you like this book write a review on google books

**War, Peace, and Human Nature** Douglas P. Fry, 2015-02 The chapters in this book posit that humans clearly have the capacity to make war but since war is absent in some cultures it cannot be viewed as a human universal And counter to frequent presumption the actual archaeological record reveals the recent emergence of war It does not typify the

ancestral type of human society the nomadic forager band and contrary to widespread assumptions there is little support for the idea that war is ancient or an evolved adaptation Views of human nature as inherently warlike stem not from the facts but from cultural views embedded in Western thinking Amazon com Human Rights in the 'War on Terror' Richard Ashby Wilson,2005-10-03 This book asks whether human rights since the 9 11 attacks and the war on terror are a luxury we can no longer afford or rights that must always remain a fundamental part of democratic politics in order to determine the boundary between individual freedom and government tyranny This volume brings together leading international lawyers policy makers scholars and activists in the field of human rights to evaluate the impact of the war on terror on human rights as well as to develop a counter terror strategy which takes human rights seriously While some contributors argue that war is necessary in defense of liberal democracy others assert that it is time to move away from the war model towards a new paradigm based upon respect for human rights an internationally coordinated anti terror justice strategy and a long term political vision that can reduce the global tensions that generate a political constituency for terrorists Human War Young W (author),1901 *Kelly Miller's History of the World War for Human Rights* Kelly Miller,1919 The Human Interest Library: Our country in romance ,1921 **War, Peace, and the Future** Ellen Key,1916 **George Washington: The human being & the hero, 1732-1762** Rupert Hughes,1926 **War--what For?** George Ross Kirkpatrick,1910 **The War, Its History and Its Morals** Albert Frederick Pollard,1915 **The War for the World** Israel Zangwill,1917 Science and War Sir William Osler,1915
