1861 Lincoln declared a blockade on Southern ports It was only a matter of time before the Union navy would pay a visit to the bustling Confederate harbor in Mobile Bay Engineers built elaborate obstructions and batteries and three rows of torpedoes were laid from Fort Morgan to Fort Gaines Then in August 1864 the inevitable came A navy fleet of fourteen wooden ships lashed two by two and four iron monitors entered the lower bay with the USS Tecumseh in the lead A torpedo poised to strike for two years found the Tecumseh and sank it in minutes taking ninety three crewmen with it Join author David Smithweck on an exploration of the ironclad that still lies upside down at the bottom of Mobile Bay [The Fight for the Yazoo, August 1862-July 1864](#) Myron J. Smith, Jr., 2014-01-10 Following the loss of the CSS Arkansas in early August 1862 Union and Confederate eyes turned to the Yazoo River which formed the developing northern flank for the South s fortress at Vicksburg Mississippi For much of the next year Federal efforts to capture the citadel focused on possession of that stream Huge battles and mighty expeditions were launched Chickasaw Bayou Yazoo Pass Steele s Bayou from that direction but the city guarded by stout defenses swamps and motivated defenders could not be turned Finally Union troops ran down the Mississippi and came up from the south and the river defenses and the bastion itself were taken from the east From July 1863 to August 1864 sporadic Confederate resistance necessitated continued Federal attention This book recounts the whole story **Naval Battles of the Civil War Coloring Book** Peter F. The Civil War on the Mississippi

Barbara Brooks Tomblin, 2016-06-14 Flowing from its source in northern Minnesota to the Gulf of Mexico the Mississippi River borders or passes through ten different states and serves as one of the most important transportation systems in the country During the Civil War both sides believed that whoever controlled the river would ultimately be victorious Cotton exports generated much needed revenue for the Confederacy and the Mississippi was also the main conduit for the delivery of materials and food Similarly the Union sought to maintain safe passage from St Louis Missouri to Cairo Illinois but also worked to bisect the South by seizing the river as part of the Anaconda Plan Drawing heavily on the diaries and letters of officers and common sailors Barbara Brooks Tomblin explores the years during which the Union navy fought to win control of the Mississippi Her approach provides fresh insight into major battles such as Memphis and Vicksburg but also offers fascinating perspectives on lesser known aspects of the conflict from ordinary sailors engaged in brown water warfare These men speak of going ashore in foraging parties assisting the surgeon in the amputation of a fellow crewman's arm and liberating supplies of whiskey from captured enemy vessels They also offer candid assessments of their commanding officers observations of the local people living along the river and their views on the war The Civil War on the Mississippi not only provides readers with a comprehensive and vivid account of the action on the western rivers it also offers an incredible synthesis of first person accounts from the front lines

Tinclads in the Civil War Myron J. Smith, Jr., 2010-01-13 Once the

Union Army gained control of the upper rivers of the Mississippi Valley during the first half of 1862 slow and heavy ironclads proved ineffective in patrolling the waters Hastily outfitted steamboats were covered with thin armor and pressed into duty These tinclads fought Confederate forces attacking from the riverbanks provided convoy for merchant steamers enforced revenue measures and offered tow dispatch and other fleet support services This history documents the service records and duties of these little known vessels of the Union fleet

Civil War Chronology, 1861-1865 United States. Navy

Department. Naval Operations Office,1966 Mr. Lincoln's Brown Water Navy Gary D. Joiner,2007 The Union inland navy that became the Mississippi Squadron is one of the greatest yet least studied aspects of the Civil War Without it however the war in the West may not have been won and the war in the East might have lasted much longer and perhaps ended differently The men who formed and commanded this large fighting force have with few exceptions not been as thoroughly studied as their army counterparts The vessels they created were highly specialized craft which operated in the narrow confines of the Western rivers in places that could not otherwise receive fire support Ironclads and gunboats protected army forces and convoyed much needed supplies to far flung Federal forces They patrolled thousands of miles of rivers and fought battles that were every bit as harrowing as land engagements yet inside iron monsters that created stifling heat with little ventilation This book is about the intrepid men who fought under these conditions and the highly improvised boats in which they fought The tactics their commanders developed were the basis for many later naval operations Of equal importance were lessons learned about what not to do The flag officers and admirals of the Mississippi Squadron wrote the rules for modern riverine warfare **Civil War Naval Chronology, 1861-1865** United States. Naval History Division,1961 **The Timberclads in the Civil War** Myron J. Smith, Jr.,2008-10-07 In the most detailed history ever of Union warships on the western waters of the Civil War the author recounts the exploits of the timberclad ships Lexington Tyler and Conestoga Converted to warships from commercial steamboats at the beginning of the conflict the three formed the core of the North s Western Flotilla later the Mississippi Squadron The book focuses on the activities of these wooden warriors while providing context for the greater war including accounts of their famous commanders their roles in both large and small battles ship to ship combat and support for the armies of Gen U S Grant and Gen William T Sherman Civil War Navies, 1855-1883 Paul H. Silverstone,2006 Civil War Navies 1855 1883 is the second in the five volume US Navy Warships encyclopedia set This valuable reference lists the ships of the U S Navy and Confederate Navy during the Civil War and the years immediately following a significant period in the evolution of warships the use of steam propulsion and the development of ordnance Civil War Navies provides a wealth and variety of material not found in other books on the subject and will save the reader the effort needed to track down information in multiple sources Each ship s size and time and place of construction are listed along with particulars of naval service The author provides historical details that include actions fought damage sustained prizes taken ships sunk and dates in and out of commission as well as information about when the ship left the Navy names used in other services and its ultimate fate 140 photographs including one of the Confederate cruiser Alabama recently uncovered by the author further contribute to this indispensable volume This definitive record of Civil War ships updates the author s previous work and will find a lasting place among naval reference works *Confederate Naval Forces on Western Waters* R. Thomas Campbell,2011-04-11 No body of water was more vital to the Confederacy s efforts in the Civil War than the Mississippi River and its tributaries Though the Confederate Congress declared the Mississippi free and open to all states

north and south the Union launched plans for an effective blockade of the 1700 miles of Southern coastline coupled with a strong naval and army thrust down the Mississippi Valley from Cairo Illinois to the Gulf of Mexico To defend the river and to prevent Union forces from advancing the South would require a strong naval force There was only one problem with the strategy The Confederacy had no navy On February 25 1861 Confederate president Jefferson Davis nominated Stephen R Mallory to be secretary of the newly formed Confederate States Navy Mallory faced significant obstacles no shipyards few skilled craftsmen and machinists and a lack of production facilities to process raw materials Mallory was able to overcome the many shortcomings to build a formidable navy but the efforts in the Mississippi theater were hamstrung by a disjointed command structure and interservice bickering Despite these problems the Confederate Navy contested the Union forces at every turn The history of Confederate naval forces on the western waters is a story of desperation intrigue ineptitude and humiliating defeats interspersed with moments of courage innovation resourcefulness and a few hard earned victories

Santoro, 2014 This book takes a critical look at the war itself and its leaders for the most part from a tactical perspective or how the battles were fought but also from a strategic perspective that is why the battles were fought Introduction *The Vicksburg Campaign,*

1863 Chris Mackowski, 2025-04-30 A fully illustrated account of the Vicksburg Campaign including modern color photography and covering the river war inland battles siege operations and more The 14 month campaign to regain the control of Mississippi River by capturing Vicksburg Mississippi stands as the prime example of how the Civil War would be fought and won The Federal government's policy of blockading the southern ports and controlling the inland waterways would only be successful with total control of the country's largest river Technological advances created by the war itself and used by progressive thinking Federal and Confederate commanders ensured that this vital Southern supply and logistics base would be the focal point of the war on the western waters Ulysses S Grant who had risen to fame as one of the North's prominent heroes early in the war boldly concluded that Vicksburg would be the next nut to crack in the Federal policy for control of the Mississippi River Understanding that only a strong relationship with US Navy could ensure the success of Vicksburg's surrender Grant found a man as bold and daring as himself in David Dixon Porter and his Mississippi Squadron of ironclad gunboats and fleet of vessels These two commanders and their trusted subordinates would frustrate John C Pemberton's attempts to defend Mississippi and eastern Louisiana for the Confederacy A lack of experience in commanding such an important assignment limited resources poor staffing and a Confederate government consumed with the war in the east ensured Pemberton's position would be insurmountable as the Confederacy's tenuous hold on the Mississippi River began to fall apart
