Siqueiros Del Paraíso A La Utopía:

Siqueiros, del paraíso a la utopía Irene Herner de Larrea, 2004 **Siqueiros** Irene Herner, Irene Herner de Larrea, David Alfaro Siqueiros, 2010 **Siqueiros Humanista** Maricarmen Ramos, 2016-08-24 David Alfaro Siqueiros es conocido en México y en el mundo como uno de los tres grandes exponentes del muralismo mexicano La triada Rivera Orozco y Siqueiros de inmediato nos remite a magnos murales que teniendo como trasfondo la historia e identidad mexicanas denuncian las injusticias sociales cometidas contra las clases más desprotegidas del país como son los obreros y campesinos En el presente libro Siqueiros Humanista La Marcha de la Humanidad Maricarmen Ramos explora una faceta poco conocida de Siqueiros en tanto ferviente convencido de la dialéctica marxista como una vía hacia un humanismo universal Para tal efecto se apoya en el mural La Marcha de la Humanidad pintado en 1964 y que viene a ser la génesis estilística de la obra monumental más grande que existió en su tiempo nos referimos por supuesto al mural La Marcha de la Humanidad en la Tierra y hacia el Cosmos del Centro Cultural Polyforum Siqueiros culminado en diciembre de 1971 Más allá del análisis interpretativo que la iconografía y la iconología de La Marcha de la Humanidad pueda mostrar la autora se esfuerza en mostrarnos a un pintor lleno de pasión por la vida y el arte se trata de la síntesis de un virtuoso y sus valores sociales y artísticos que a través de su pensamiento filosófico nos comunica la trascendencia del ser humano en el tiempo y el espacio

Cosmopolitanism in Mexican Visual Culture María Fernández, 2014-01-06 Since the colonial era Mexican art has emerged from an ongoing process of negotiation between the local and the global which frequently involves invention synthesis and transformation of diverse discursive and artistic traditions In this pathfinding book María Fernández uses the concept of cosmopolitanism to explore this important aspect of Mexican art in which visual culture and power relations unite the local and the global the national and the international the universal and the particular She argues that in Mexico as in other colonized regions colonization constructed power dynamics and forms of violence that persisted in the independent nation state Accordingly Fernández presents not only the visual qualities of objects but also the discourses ideas desires and practices that are fundamental to the very existence of visual objects Fernández organizes episodes in the history of Mexican art and architecture ranging from the seventeenth century to the end of the twentieth century around the consistent but unacknowledged historical theme of cosmopolitanism allowing readers to discern relationships among various historical periods and works that are new and yet simultaneously dependent on their predecessors She uses case studies of art and architecture produced in response to government commissions to demonstrate that established visual forms and meanings in Mexican art reflect and inform desires expectations memories and ways of being in the world in short that visual culture and cosmopolitanism are fundamental to processes of subjectification and identity **Imperialism and the Wider Atlantic** Tania Gentic, Francisco LaRubia-Prado, 2017-10-28 The essays in this volume broaden previous approaches to Atlantic literature and culture by comparatively studying the politics and textualities of Southern Europe North America and Latin

America across languages cultures and periods Historically grounded while offering new theoretical approaches the volume encourages debate on whether the critical lens of imperialism often invoked to explain transatlantic studies may be challenged by the diagonal translinguistic relationships that comprise what the editors term the wider Atlantic The essays explore how instances of inverse coloniality global networks of circulation and linguistic conceptualizations of nation and identity question dominant structures of power from the nineteenth century to today

Historical Narratives of Global Modern Art Irina D. Costache, Clare Kunny, 2023-07-31 Diversifying the current art historical scholarship this edited volume presents the untold story of modern art by exposing global voices and perspectives excluded from the privileged and uncontested narrative of isms This volume tells a worldwide story of art with expanded historical narratives of modernism The chapters reflect on a wide range of issues topics and themes that have been marginalized or outright excluded from the canon of modern art The goal of this book is to be a starting point for understanding modern art as a broad and inclusive field of study The topics examine diverse formal expressions innovative conceptual approaches and various media used by artists around the world and forcefully acknowledge the connections between art historical circumstances political environments and social issues such as gender race and social justice The book will be of interest to scholars working in art history imperial and colonial history modernism and globalization

Hotel Mexico George F. Flaherty, 2016-08-16 In 1968 Mexico prepared to host the Olympic games amid growing civil unrest The spectacular sports facilities and urban redevelopment projects built by the government in Mexico City mirrored the country's rapid but uneven modernization In the same year a street savvy democratization movement led by students emerged in the city Throughout the summer the 68 Movement staged protests underscoring a widespread sense of political disenfranchisement Just ten days before the Olympics began nearly three hundred student protestors were massacred by the military in a plaza at the core of a new public housing complex In spite of institutional denial and censorship the 1968 massacre remains a touchstone in contemporary Mexican culture thanks to the public memory work of survivors and Mexico's leftist intelligentsia In this highly original study of the afterlives of the 68 Movement George F. Flaherty explores how urban spaces material but also literary photographic and cinematic became an archive of 1968 providing a framework for de facto modes of justice for years to come

Mexican muralist, international Marxist Curtis Swope, 2024-10-29 David Alfaro Siqueiros was perhaps the most important communist painter of the twentieth century This book the first sustained engagement with Siqueiros's work in the English language focuses on the artist's late murals which are both aesthetically innovative and politically provocative It places Siqueiros in an international context revealing that the dogmatism he has been charged with was in reality a complex phenomenon It provided a foundation for rather than an obstacle to his efforts to create an art embedded in the day to day concerns and theoretical debates of the world wide mass movement he saw himself as a part of

El muralismo mexicano Eduardo Subirats, 2018-05-04 Sirvi ndose de un acercamiento al muralismo mexicano en concreto a la obra de Rivera Orozco y Siqueiros Subirats explora las

interpretaciones estadounidenses y europeas del arte que obviamente son hegemónicas y sitúan en una posición disminuida de desventaja al muralismo mexicano al intentar entenderlo y estudiarlo según criterios ajenos a nuestra cultura lo cual anula su particularidad histórica ante la ausencia de un horizonte teórico rico autónomo específico y propio además de la inexistencia de una conciencia crítica Asimismo y en contrapeso con lo anterior expone el fundamento mitológico metafísico sociológico y político de toda verdadera obra de arte todo esto por supuesto en una elegante prosa literaria y desde una postura crítica original

Movements After Revolution Miles V. Rodríguez, 2022 *Movements After Revolution* is a history of the people's movements in the aftermath of the Mexican Revolution of 1910-20 that brought together industrial workers and rural communities to fight for a vast array of demands and diverse forms of justice
