Clark,2008-10-09 Depression and Narrative examines stories of depression in the context of recent scholarship on illness and narrative which up to this point has largely focused on physical illness and disability Contributors from a number of disciplinary perspectives address these narrative accounts of depression by both sufferers and those who treat them as they appear in memoirs diaries novels poems oral interviews fact sheets blogs films and television shows Together they explore the stories we tell about depression its contested causes its gendering the transformations in identity that it entails and the problems it presents for communication associated as it is with stigma and shame Unlike certain physical illnesses such as cancer depression is stigmatized sometimes as a nonproblem the sufferer should snap out of it and sometimes as the slippery slope to madness Thus depression narratives have their work cut out for them This book highlights the work these stories do including bringing meaning to sufferers explaining depression justifying therapies and treatments and reducing the burden of shame accounting for a suffering that is in the end unaccountable *Feminism and a Vital Politics of Depression and Recovery* Simone Fullagar,Wendy O'Brien,Adele Pavlidis,2019-08-13

Drawing upon insights from feminist new materialism the book traces the complex material discursive processes through which women s recovery from depression is enacted within a gendered biopolitics Within the biomedical assemblage that connects mental health policy service provision research and everyday life the gendered context of recovery remains little understood despite the recurrence and pervasiveness of depression Rather than reducing experience to discrete biological psychological or sociological categories feminist thinking moves with the biopsychosocialities implicated in both distress and lively modes of becoming well Using a post qualitative approach the book creatively re presents how women do recovery within and beyond the normalising imperatives of biomedical and psychotherapeutic practices By pursuing the affective movement of self through depression this inquiry goes beyond individualised models to explore the enactment of multiple self world relations Reconfiguring depression and recovery as bodymind matters opens up a relational ontology concerned with the entanglement of gender inequities and mental ill health **The Vulnerable Empowered Woman** Tasha N. Dubriwny,2012-11-14 The feminist women s health movement of the 1960s and 1970s is credited with creating significant changes in the healthcare industry and bringing

women's health issues to public attention. Decades later, women's health issues are more visible than ever before, but that visibility is made possible by a process of depoliticization. *The Vulnerable Empowered Woman* assesses the state of women's healthcare today by analyzing popular media representations: television, print newspapers, websites, advertisements, blogs, and memoirs, in order to understand the ways in which breast cancer, postpartum depression, and cervical cancer are discussed in American public life. From narratives about prophylactic mastectomies to young girls receiving a vaccine for sexually transmitted disease, the representations of women's health today form a single, restrictive identity: the vulnerable empowered woman. This identity defuses feminist notions of collective empowerment and social change by drawing from both postfeminist and neoliberal ideologies. The woman is vulnerable because of her very femininity and is empowered not to change the world but to choose from among a limited set of medical treatments. The media's depiction of the vulnerable empowered woman's relationship with biomedicine promotes traditional gender roles and affirms women's unquestioning reliance on medical science for empowerment. The book concludes with a call to repoliticize women's health through narratives that can help us imagine women and their relationship to medicine differently.

Behind the Mask of the Strong Black Woman Tamara Beauboeuf-Lafontant, 2009-06-26. Explores the restrictive myth of the strong black woman through interviews revealing the emotional and physical toll this performance can have.
