CRISPIN SARTWELL

Six Names of Beauty

Beauty may be in the eye of the beholder, but it's also in the language we use and everywhere in the world around us. In this elegant, witty, and ultimately profound meditation on what is beautiful, Crispin Sartwell begins with six words from six different cultures — ancient Greek's "to kalon," the Japanese idea of "wabi-sabi," Hebrew's "yapha," the Navajo concept "hocho," Sanskrit's "sundara," and our own English-language "beauty."

Each word becomes a door onto another way of thinking about, and looking at, what is beautiful in the world, and in our lives. The earthy and the exalted, the imperfect and the ideal: things, spaces, high art, sounds, aromas, nothingness. Sartwell writes about scores of beautiful things—among them, a Japanese teapot and Diana Rigg as Mrs. Emma Peel, the pleasure in a well-used hammer and in pop music and in Vermeer's *Girl in a Red Hat*.

In Sartwell's hands these six names of beauty—and there could be thousands more—are revealed as simple and profound ideas about our world and our selves.

Beyond Beauty Federico Vercellone, 2017-07-31 The American abstract expressionist painter Barnett Newman famously declared in 1948 that the impulse of modern art is to destroy beauty Not long after that Andy Warhol was reconciling the world of art with the world of everyday life painting soup cans and soda bottles In this book Federico Vercellone provides an account of the decline of beauty as a Platonic ideal from early German Romanticism to the twentieth century He traces this intellectual trajectory from Goethe Dilthey and Nietzsche through modernism and the avant garde movement to the work of Adorno and Heidegger Rather than the death or destruction of beauty Vercellone argues instead that beauty in the twentieth century came back to live in reality and everyday life He suggests this is a new edition of the

classical ideal rather than an abandonment of it and further makes the case for the ecological significance of this orientation and outlook

The Revival of Beauty Catherine Wesselinoff, 2023-08-18 This book provides original descriptive accounts of two schools of thought in the philosophy of beauty the 20th century Anti Aesthetic movement and the 21st century Beauty Revival movement It also includes a positive defence of beauty as a lived experience extrapolated from Beauty Revival position Beauty was traditionally understood in the broadest sense as a notion that engages our sense perception and embraces everything evoked by that perception including mental products and affective states This book constructs and places in parallel with one another the Anti Aesthetic and Beauty Revival movements In the author s view Anti Aestheticism is devoted to a decisive negation of beauty denying its importance as a philosophical notion and its significance as a lived experience It suggests that beauty is a merely sensual experience which can be used at best as a distraction from justice and at worst as an instrument of evil Alternatively the Beauty Revival movement advances arguments for beauty as an experience that extends primarily to sensual experience but which also calls forth mental products and cognitive and affective states evoked by that experience After reconstructing these two positions the author elaborates on the notion of beauty as a lived experience through three key moments which occur in the process of our experiencing beautiful objects These moments are a the conditions that constitute an experience of beauty b the attitudinal features most likely to lead to the experience of beauty and c the results of the experience of beauty The Revival of Beauty will be of interest to scholars and advanced students working in aesthetics history of philosophy and art history
