The Metal Gear Solid Series Steven Kielich, Chris Hall, 2025-01-23 This collection arriving in the wake of the 25th anniversary of 1998's *Metal Gear Solid* provides scholars and fans alike with a wide ranging selection of critical essays on the franchise from diverse disciplinary and thematic perspectives With the conclusion of Hideo Kojima's *Metal Gear Solid* video game series only recently behind us it is now both possible and essential to study this critically commercially and culturally resonant series as a whole The essays contained in this volume which are all new contributions from both established and emerging scholars take up this crucial opportunity to consider and reconsider the cultural historical political philosophical and aesthetic impact of the *Metal Gear Solid* games in analyses spanning the series canonical entries adding to the understanding of both well studied installments and under examined ones These contributions connect themes that emerge from the games such as sexuality and queerness rhetoric and ethics and subjectivity and embodiment while also demonstrating how the series opens up broader questions about ecology race gender militarization pedagogy and game design that demand continued analysis and application Each essay develops new avenues for theoretical rhetorical and political exploration of the *Metal Gear Solid* series for Game Studies and for the study of Popular Culture writ large As the first collection of critical inquiries into the *Metal Gear Solid* series this volume serves as crucial exegesis of and critical companion to any future study of the series by celebrating critiquing and

critically interrogating its entries rich cultural and disciplinary import The Book of Snakes Mark O'Shea,2024-05-31 Updated to reflect the most recent species classifications a second edition of the beautifully illustrated and beloved guide to 600 members of the suborder Serpentes For millennia humans have regarded snakes with an exceptional combination of fascination and revulsion Some people recoil in fear at the very suggestion of these creatures while others happily keep them as pets Snakes can convey both beauty and menace in a single tongue flick and so these creatures have held a special place in our cultures Yet for as many meanings as we attribute to snakes from fertility and birth to sin and death the real life species represent an even wider array of wonders Now in a new edition reflecting the most recent species classifications The Book of Snakes presents 600 species of snakes from around the world covering roughly one in seven of all snake species It will bring greater understanding of a group of reptiles that have existed for more than 160 million years and that now inhabit every continent except Antarctica as well as two of the great oceans This volume pairs spectacular photos with easy to digest text It is the first book on these creatures that combines a broad worldwide sample with full color life size accounts Entries include close ups of the snake s head and a section of the snake at actual size The detailed images allow readers to examine the intricate scale patterns and rainbow of colors as well as special features like a cobra s hood or a rattlesnake s rattle The text is written for laypeople and includes a glossary of frequently used terms Herpetologists and herpetoculturists alike will delight in this collection and even those with a more cautious stance on snakes will find themselves drawn in by the wild diversity of the suborder Serpentes Metal Gear Solid 3 - Snake Eater Klaus Dieter Hartwig,2005 *Arthur's Home Magazine* ,1873 Hideo Kojima Bryan Hikari Hartzheim,2023-08-24 An exploration of the influential work of Hideo Kojima creator of cinematic titles such as the blockbuster Metal Gear Solid franchise which has moved over 50 million units globally as well as Snatcher Policenauts and Death Stranding As the architect of the Metal Gear Solid franchise Kojima is synonymous with the stealth game genre where tension and excitement is created from players avoiding enemies rather than confronting them Through the franchise Kojima also helped to bridge the gap between games and other forms of media arguing that games could be deep experiences that unearthed complex emotions from players on the same level as films or novels Drawing on archives of interviews in English and Japanese with Kojima and his team as well as academic discourses of social political games and cinematic narrative world building this book examines Kojima s progressive game design as it applies to four key areas socially relevant narratives cinematic aesthetics thematically connected systems and reflexive spaces

Elsevier's Dictionary of Reptiles Murray Wrobel,2004-12-04 This dictionary gives an overview of the English German French and Italian names of reptiles The basic table contains the scientific names of families genera species and some sub species with their identified names which are given in the singular for species and sub specis and in the plural for other terms **The Dangerous Snakes of Africa** Steve Spawls,Bill Branch,2020-04-16 The definitive reference guide to all of Africa s venomous snakes written by two internationally acclaimed herpetologists Africa is a true hotspot for snake diversity

with several hundred species Unfortunately a scared snake or one that is trodden on may bite and some species have venom that can prove fatal The Dangerous Snakes of Africa is an indispensable guide to these reptiles It covers all 137 dangerous snake species in Africa along with another 70 species that are easily confused with them All are described with each account looking in detail at their identification habitat and distribution behaviour and venom as well as how to treat bites and a selection of photographs accompanied by an accurate range map Introductory sections cover the major snake groups their venom characteristics how to avoid snake bites and first aid advice This comprehensive book is an essential tool for all naturalists conservationists educators field workers and medical personnel throughout Africa **Galaxy Worth Fighting**

For Joseph Loturco, 2002 Continuing the adventure as humans and tiliranen s travel and fight From earth to the outer arm of this galaxy Meet aliens and learn of trade Learn how to fight in space the real way Become an admiral of a battleship and go in to major battles **Snakes of Central and Western Africa** Jean-Philippe Chippaux, Kate Jackson, 2019-06-18 The first

and only authoritative guide to the snakes of Central and Western Africa Nobody knows exactly how many snake species live in the biodiversity hotspots of Western and Central Africa While field guides abound that make mammals birds and even insects identifiable for residents travelers and scientists half a continent s herpetological richness has remained shrouded in mystery In a region where nearly 30 000 people die from snake bites every year even dire medical necessity has been an insufficient inducement for researchers to take on the daunting task of assembling an authoritative list of extant species let alone a full descriptive record to aid in identification the essential first step to administering an effective antivenin The reptiles of Central Africa particularly are the most poorly studied in the world despite their crucial role in the survival of threatened ecosystems With Snakes of Central and Western Africa Jean Philippe Chippaux and Kate Jackson have created a game changer The result of years of field research and systematic study in the world s leading museums this book compiles for the first time a comprehensive guide to the region s snakes Covering a vast swath of the continent ranging from Mauritania in the northwest to Rwanda in the east and Angola in the south Chippaux and Jackson provide detailed accounts for the more than 200 species of snakes that inhabit the region The first part of the book is devoted to the taxonomic characters used for identifying snakes The authors deal with the evolution and biogeography of African snakes as well as epidemiological and clinical aspects of snakebite The remaining chapters are organized phylogenetically following the latest consensus on evolutionary patterns of major snake lineages in sub Saharan Africa Species identification is facilitated by simple and accessible dichotomous keys and detailed descriptions of morphological characteristics complemented by numerous drawings photos and distribution maps Invaluable information on taxonomy and natural history is also included The book concludes with a comprehensive index and a list of nearly 600 references Snakes of Central and Western Africa illuminates a previously little known part of the natural world provides vital information that could save many lives and will make an excellent addition to any herpetology library **The Knickerbacker** ,1835 *The Knickerbocker* Charles Fenno
