*Snapshots Middle Primary* Pearson Education Australia, 2005-05-01      *Live Stock Journal*, 1902      **Backpacker**, 2001-03 Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world's first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker's Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured      Never Tell Them You're Dying Barry Morgan, Kerry Morgan, 2006 Have you ever asked yourself how you would want to die Would you prefer to go in a blaze of glory saving thousands of people in the process having your name go down in history but without an opportunity to tell your loved ones goodbye Or would you prefer to have a long protracted death where you have every opportunity to tell folks how you feel My preference is the first scenario I have always wanted to go up in flames with half of the world thinking Man that S O B was something else He saved all of those people with little regard for the consequences of his actions That guy is really a hero I would choose the quick path My family knows how I feel about them and they know I love them They don't need goodbyes Besides lying around in pain and losing control of my bodily functions for months prior to my death is not my idea of a good way to go Unfortunately we don't always have a choice in these matters of life and death My life changed dramatically three years ago when I went to the doctor for a routine visit and received a diagnosis that I never thought I would hear I had a terminal illness and I was going to die from it No treatments No cure Just death Along with this little bit of good news also came the realization that this was not something that was going to happen overnight Estimates of the day of reckoning ranged anywhere from eighteen months to five years give or take a day or two My disease also becomes more debilitating as it goes along I will lose control of my bodily functions and I will embarrass myself and my family But I do have a chance to tell them goodbye And I have a chance to sit down and write a book that chronicles the trials and tribulations of my successful completion of the first fifteen months of life after my diagnosis This little terminal lung problem was the impetus behind *Never Tell Them You're Dying* a book written by Barry and Kerry Morgan A book that examines many of the problems one faces with a terminal illness A book that was written as a legacy for our children And hopefully a book that might help you if you are ever faced with a problem like mine Here is a bit of history about me that might clear a few things up in advance I have always had a sick sense of humor and I am a bit of a cynic actually a royal smart ass I also have been in sales a long long time which has honed my observation skills to another level This cryptic visual acuity allowed me to look at life with a terminal illness from a whole different angle The first part of the book examines life and the reality of terminal illness We terminally ill types go through several emotional stages when we are diagnosed Our loved ones go through various emotional stages as well Our friends go through emotional stages and people we don't like or even know also go through

emotional stages It seems the whole world goes through these emotional stages when they find out about the terminal illness Unfortunately we are all in different stages at different times and that really can make life difficult on everyone Since we all react differently there is no set of ground rules that apply Thats the beauty of this book You will get to see what I went through You will get to see what my wife Kerry went through You will get to see what my children went through You get to see what my parents my brothers my best friend my coworkers well you get the point No stone is left unturned and the raw stark reality of the situation is laid bare on the pages of this book for you to see and experience Not only do we look at the various emotional stages all of us experience at a time like this we also look at the insanity called the medical system that we blindly place our faith in Ill show you what I had to deal with when it came to my wonderful insurance company You will get to see just how the benefits or lack of benefits at your job apply in situations like this Ill tell you all about FMLA COBRA STD LTD 401K and SSDI and Ill do it in a manner that you can understand You wont get any HR speak here just facts on how all of this stuff works and doesnt work Ill give you tips on trips Ill even give you advice on the best places in the United States to retire and how to choose them You will be enlightened on the benefits of having a dog I will tell you why soft serve ice cream is good for the soul You may even learn the secret to a long and happy marriage I promise you a love story as well You will see this for what it really is This is a story about one mans love for his wife his daughters his family and friends and his life You will see how much I love everything about this crazy life we lead It is all good and that is the message Kerry and I are trying to get across Life truly is amazing Dont focus on the dying Just keep on living moment by moment because in the end that is all any of us will ever have just that moment You will thank me someday You probably dont want to hear this but you too are going to die As a matter of fact there are approximately 3 4 billion people on the face of this planet and each and every one of them was terminal at birth The only difference between them and me I have a little better idea of when I am going to end my journey While none of us has a choice in how all of this pans out I do know one thing Very few of us are ever going to end up going out in a blaze of glory Most of us are going to go the way of the dinosaur slowly and without much fanfare That isnt a bad thing The world only has room for a few heroes And that brings us back to the title of the book Since all of us were terminal at birth a definitive diagnosis shouldnt make any difference It isnt how you die that is important It is how you live your life that counts

Backpacker ,2000-03 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured
