Sex Fiends, Perverts, and Pedophiles Chrysanthi S. Leon, 2011 From Megan OCO's Law to Jessica OCO's Law almost every state in the nation has passed some law to punish sex offenders This popular tough on crime legislation is often written after highly publicized cases have made the gruesome rounds through the media and usually features harsh sentences lifetime GPS monitoring a dramatic expansion of the civil commitment procedures and severe restrictions on where released sex offenders may live In *Sex Fiends Perverts and Pedophiles* Chrysanthi Leon argues that while the singular notion of the sexual boogeyman has been used to justify these harsh policies not all sex offenders are the same and such one-size-fits-all OCO policies can unfairly punish other offenders of lesser crimes needlessly targeting sometimes ostracizing citizens from their own communities While many recognize that prison is not the right tool for every crime problem Leon compellingly argues that the U S maintains a one-size-fits-all approach to sexual offending which is undermining public safety Leon explains how we OCOve reached this point OCOwith a large incarcerated sex offender population many of whom will be released in the coming years with multiple barriers to their success in the community and without much expertise to guide them or to guide those who are charged to help them Leon argues that we cannot blame the public nor even the politicians except indirectly Instead we might blame the institutions we charge with making placement decisions and with the experts OCOboth those who have chosen to work in the field and those who have caused its marginalization Ultimately Leon shows that when policies intended for the worst offenders take over all of us suffer
