So Help Me God Religion And The Presidency Wilson To Nixon:

So Help Me God: Religion and the Presidency, Wilson to Nixon Robert S. Alley, 1972 **So Help Me God** Forrest Church, 2008-09-08 The author of *The American Creed* tells the story of our nation's historical encounters with God and culture Peter J Gomes New York Times bestselling author Today's dispute over the line between church and state or the lack thereof is neither the first nor the fiercest in our history In a revelatory look at our nation's birth Forrest Church recreates our first great culture war a tumultuous nearly forgotten conflict that raged from George Washington's presidency to James Monroe's Religion was the most divisive issue in the nation's early presidential elections Battles raged over numerous issues while the bible and the Declaration of Independence competed for American affections The religious political wars reached a vicious peak during the War of 1812 the American victory drove New England's Christian right to withdraw from electoral politics thereby shaping our modern sense of church state separation No longer entangled both church and state flourished Forrest Church has written a rich page turning history a new vision of our earliest presidents beliefs that stands as a reminder and a warning for America today An illuminating study of the great tangle of our time If we look back to our early years we may well find a way forward Jon Meacham 1 New York Times bestselling author of *His Truth is Marching On* In this beautifully crafted and timely work the aptly named Church takes us through the complex thoughts and actions of the nation's founders in a way that will give pause to most readers This is an important work that delights and informs Publishers Weekly starred review **Religion, Race, and the American Presidency** Gastón Espinosa, 2008 The role that race and religion play in American presidential elections is attracting national attention like never before Many of the 2008 presidential candidates proactively courted racial and religious voting constituencies including African Americans Latinos Asian Americans Jews Muslims Catholics Evangelicals mainline Protestants women and seculars and the non religious Religion Race and the American Presidency examines some of the reasons why by focusing on the roles of these racial gender and religious groups in presidential politics over the last forty years and in elections from 1996 to 2004 in particular **BOOK JACKET Nixon's First Cover-up** H. Larry Ingle, 2015-07-07 Have you ever thought you completely knew a story inside and out only to see some new information that shatters what you had come to accept as unquestioned fact Well Richard Nixon is that story and Nixon's First Cover up is that new information With few exceptions the religious ideologies and backgrounds of U S presidents is a topic sorely lacking in analysis H Larry Ingle seeks to remedy this situation regarding Nixon one of the most controversial and intriguing of the presidents Ingle delves more deeply into Nixon's Quaker background than any previous scholar to observe the role Nixon's religion played in his political career Nixon's unique and personally tailored brand of evangelical Quakerism stayed hidden when he wanted it to but was on display whenever he felt it might help him advance his career in some way Ingle's unparalleled knowledge of Quakerism enables him to deftly point out how Nixon bent the traditional rules of the religion to suit his needs or in some cases simply ignored them entirely This

theme of the constant contradiction between Nixon's actions and his apparent religious beliefs makes Nixon's First Cover up truly a groundbreaking study both in the field of Nixon research as well as the field of the influence of religion on the U S presidency Forty years after Nixon's resignation from office Ingle's work proves there remains much about the thirty seventh president that the American public does not yet know Faith and the Presidency From George Washington to George W. Bush Gary Scott Smith,2006-10-12 Publisher description

The Religious Factor in the 1960 Presidential Election

Albert J. Menendez,2014-01-10 The candidacy of John F Kennedy provoked widespread discussion of issues relating to church and state and to the role of Catholics in American politics This text is the inside story of that dramatic campaign and is the first scholarly examination based on actual voting returns It includes a detailed analysis of the vote in every state revealing that religion affected the outcome of the election far more than previously thought Kennedy lost more votes than he gained due to his religious affiliation but by crafting a strong coalition he prevailed in one of the closest races in presidential history

The Conservative Tradition in America Charles W. Dunn,J. David Woodard,2003 This comprehensive account identifies different strands of conservative thought while it analyzes the current state and future prospects of conservatism

Thomas Jefferson and the Wall of Separation Between Church and State Daniel Dreisbach,2003-10 No phrase in American letters than Thomas Jefferson's phrase wall of separation between church and state has had a more profound influence on church state law policy and discourse and few metaphors have provoked more passionate debate Introduced in an 1802 letter to the Danbury Connecticut Baptist Association Jefferson's wall is accepted by many Americans as a concise description of the U S Constitution's church state arrangement and conceived as a virtual rule of constitutional law

Dreisbach offers an in depth examination of the origins controversial uses and competing interpretations of this powerful metaphor in law and public policy from publisher information *Promised Land, Crusader State* Walter A. McDougall,1997 Promised Land Crusader State is a reinterpretation of the traditions that have shaped U S foreign policy from 1776 to the present Walter A McDougall is a Pulitzer Prize winning author *Upon the Altar of the Nation* Harry S. Stout,2007-03-27 A profound and timely examination of the moral underpinnings of the War Between the States The Civil War was not only a war of armies but also a war of ideas in which Union and Confederacy alike identified itself as a moral nation with God on its side

In this watershed book Harry S Stout measures the gap between those claims and the war's actual conduct Ranging from the home front to the trenches and drawing on a wealth of contemporary documents Stout explores the lethal mix of propaganda and ideology that came to justify slaughter on and off the battlefield At a time when our country is once again at war Upon the Altar of the Nation is a deeply necessary book *The Oxford Handbook of Religion and American Politics* Corwin

Smidt,Lyman Kellstedt,James Guth,2009-09-10 This handbook examines the considerable research that has been conducted into the study of religion and politics It reviews previous work explains the findings of that research and speculates about the bases of the various findings *Religion and the Life of the Nation* Rowland A. Sherrill,1990 **The God Strategy** David

Domke, Kevin Coe, 2007-12-07 This volume offers a timely and dynamic study of the rise of religion in American politics examining the public messages of political leaders over the past seventy five years The authors show that U S politics today is defined by a calculated deliberate and partisan use of faith that is unprecedented in modern politics Beginning with the election of Ronald Reagan in 1980 America has seen a no holds barred religious politics that seeks to attract voters identify and attack enemies and solidify power Domke and Coe identify a set of religious signals sent by both Republicans and Democrats in speeches party platforms proclamations visits to audiences of faith and even celebrations of Christmas The updated edition of this ground breaking book includes a new preface an updated analysis of the last Bush administration as well as a new final chapter on the Jeremiah Wright controversy the candidacies of Mike Huckabee and Sarah Palin and Barack Obama s victory

The Moral Rhetoric of American Presidents Colleen J. Shogan, 2007-09-17 Although sometimes decried by pundits George W Bush s use of moral and religious rhetoric is far from unique in the American presidency Throughout history and across party boundaries presidents have used such appeals with varying degrees of political success The Moral Rhetoric of American Presidents astutely analyzes the president s role as the nation s moral spokesman Armed with quantitative methods from political science and the qualitative case study approach prevalent in rhetorical studies Colleen J Shogan demonstrates that moral and religious rhetoric is not simply a reflection of individual character or an expression of American civil religion but a strategic tool presidents can use to enhance their constitutional authority To determine how the use of moral rhetoric has changed over time Shogan employs content analysis of the inaugural and annual addresses of all the presidents from George Washington through George W Bush This quantitative evidence shows that while presidents of both parties have used moral and religious arguments the frequency has fluctuated considerably and the language has become increasingly detached from relevant policy arguments Shogan explores the political effects of the rhetorical choices presidents make through nine historical cases Presidents Washington Jefferson Madison Buchanan Lincoln Theodore Roosevelt Kennedy Lyndon Johnson and Carter She shows that presidents who adapt their rhetoric to the political conditions at hand enhance their constitutional authority while presidents who ignore political constraints suffer adverse political consequences The case studies allow Shogan to highlight the specific political circumstances that encourage or discourage the use of moral rhetoric Shogan concludes with an analysis of several dilemmas of governance instigated by George W Bush s persistent devotion to moral and religious argumentation

The Publishers Weekly, 1972 *Politics as Religion* Emilio Gentile, 2020-09-01 Emilio Gentile an internationally renowned authority on fascism and totalitarianism argues that politics over the past two centuries has often taken on the features of religion claiming as its own the prerogative of defining the fundamental purpose and meaning of human life Secular political entities such as the nation the state race class and the party became the focus of myths rituals and commandments and gradually became objects of faith loyalty and reverence Gentile examines this sacralization of politics as he defines it both historically and theoretically seeking to identify

the different ways in which political regimes as diverse as fascism communism and liberal democracy have ultimately depended like religions on faith myths rites and symbols Gentile maintains that the sacralization of politics as a modern phenomenon is distinct from the politicization of religion that has arisen from militant religious fundamentalism Sacralized politics may be democratic in the form of a civil religion or it may be totalitarian in the form of a political religion Using this conceptual distinction and moving from America to Europe and from Africa to Asia Gentile presents a unique comparative history of civil and political religions from the American and French Revolutions through nationalism and socialism democracy and totalitarianism fascism and communism up to the present day It is also a fascinating book for understanding the sacralization of politics after 9 11

War and Religion Jeffrey M. Shaw Ph.D., Timothy J. Demy, 2017-03-27 This three volume reference provides a complete guide for readers investigating the crucial interplay between war and religion from ancient times until today enabling a deeper understanding of the role of religious wars across cultures Containing some 500 entries covering the interaction between war and religion from ancient times the three volume War and Religion An Encyclopedia of Faith and Conflict provides students with an invaluable reference source for examining two of the most important phenomena impacting society today This all inclusive reference work will serve readers researching specific religious traditions historical eras wars battles or influential individuals across all time periods The A Z entries document ancient events and movements such as the First Crusade that began at the end of the 10th century as well as modern day developments like ISIS and Al Qaeda Subtopics throughout the encyclopedia include religious and military leaders or other key people ideas and weapons and comprehensive examinations of each of the major religious traditions views on war and violence are presented The work also includes dozens of primary source documents each introduced by a headnote that enable readers to go directly to the source of information and better grasp its historical significance The in depth content of this set benefits high school and college students as well as scholars and general readers

Religion and Contemporary Politics Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and

among countries in a region The work also includes an introduction sidebars and a bibliography

From Civil to Political Religion Marcela Cristi, 2006-01-01 Prompted by the shattering of the bonds between religion and the political order brought about by the Enlightenment Jean Jacques Rousseau devised a new religion civil religion to be used by the state as a way of enforcing civic unity Emile Durkheim by contrast conceived civil religion to be a spontaneous phenomenon arising from society itself a non coercive force expressing the self identify or self definition of a people In 1967 the American sociologist Robert Bellah rediscovered the concept and applied it to American society in its Durkheimian form Ever since Bellah s publication most authors have sought to explain civil religion in terms of an alleged spontaneous integrative role for society They have emphasized the religious and cultural dimension of the concept but failed to give due consideration to its political ideological foundations Thus the coercive potential of civil religion has received little attention or has been wrongly relegated to Third World countries Cristi provides a critique of the civil religion thesis and identifies the most basic deficiencies of literature on this topic By contrasting Bellah s Durkheimian conception with Rousseau s original formulation the author discloses the dubious conceptual and empirical basis of the former She demonstrates the need to rethink Bellah s thesis in the light of a reinterpretation of Rousseau s and Durkheim s classical approaches and substantiates her critique with a brief comparative survey of state directed civil religions and with an informative case study of civil religion in Pinochet s Chile

Modern American Religion, Volume 3 Martin E. Marty, 1986 Vol 1 The Irony of it all 1893 1919 Vol 2 The Noise of conflict 1919 1941
