Social And Political History Of The German 1848 Revolution

Asa Briggs, Patricia Clavin

Social And Political History Of The German 1848 Revolution:

Social and Political History of the German 1848 Revolution Rudolf Stadelmann, 1975 **The Revolutions in Europe, 1848-1849** Hartmut Pogge von Strandmann, Robert John Weston Evans, 2000 These essays arose out of lectures given in Oxford to commemorate the 150th anniversary of the 1848 revolutions in Europe Authoritative yet readable and colourful they comprise judicious summaries of the existing state of knowledge as well as new insights and unfamiliar information The book also seeks to place the revolutionary events in their wider context apart from chapters covering the main centres of disturbance in France Germany Italy and the Habsburg lands there are discussions of the situation in Britain and Russia which were affected but not convulsed by the disorders elsewhere of reactions in the United States of America of the symbolism of 1848 for the later democratic radical and socialist movements 1848 marked the first breakdown of traditional authority across much of the continent and as such is of profound significance in the development of modern European politics as a whole *Social and political history of the German 1848 revolution. Transl. by J.G. Chastain*, 1975 The Routledge Companion to Modern European History since 1763 Chris Cook, John Stevenson, 2004-11-10 The Routledge Companion to Modern European History since 1763 is a compact and highly accessible work of reference covering the broad sweep of events from the last days of the ancient regime to the ending of the Cold War and from the reshaping of Eastern Europe to the radical expansion of the European Union in 2004 Within the broad coverage of this outstanding volume particular attention is given to subjects such as the era of the Enlightened Despots the Revolutionary and Napoleonic era in France and the revolutions of 1848 nationalism and imperialism and the retreat from Empire the First World War the rise of the European dictators the coming of the Second World War the Holocaust and the post war development of Europe the Cold War the Soviet Union and its break up the protest and upheavals of the 1960s as well as social issues such as the rise of the welfare state and the changing place of women in society throughout the period With a fully comprehensive glossary a biographical section a thorough bibliography and informative maps this volume is the indispensable companion for all those who study modern European history *The Routledge Companion to European History Since 1763* Chris Cook, John Stevenson, 2005 The Routledge Companion to European History since 1763 is a compact and highly accessible work of reference with a fully comprehensive glossary a biographical section a thorough bibliography and informative maps Themes in Modern European History 1830-1890 Bruce Waller, 2002-09-11 Providing a series of lively essays which reflect the skills that historians have to master when challenged by problems of evidence interpretation and presentation this important new text covers the topics of France Germany Italy Austria and Russia as well as analyzing the themes of political thought cultural trends the economy and warfare international relations and imperialism Six distinguished scholars all of whom are regularly involved in student teaching provide an authoritative student guide to the main contours of nineteenth century European history when the continent's standing was at its highest and its influence spanned the globe

Revolutionary Movements in World History James DeFronzo, 2006-07-20 This groundbreaking three volume encyclopedia is the first to focus exclusively on the revolutionary movements that have changed the course of history from the American and French Revolutions to the present ABC CLIO is proud to present an encyclopedia that reaches around the globe to explore the most momentous and impactful political revolutions of the last two and a half centuries exploring their origins courses consequences and influences on subsequent individuals and groups seeking to change their own governments and societies In three volumes *Revolutionary Movements in World History* covers 79 revolutions from the American and French uprisings of the late 18th century to the rise of communism Nazism and fascism from Ho Chi Minh and Fidel Castro to the Ayatollah al Qaeda and the fall of the Berlin wall Written by leading experts from a number of nations this insightful cutting edge work combines detailed portrayals of specific revolutions with essays on important overarching themes Full of revealing insights compelling personalities and some of the most remarkable moments in the world s human drama *Revolutionary Movements in World History* offers a new way of looking at how societies reinvent themselves

Revolution and Rebellion in the Early Modern World Jack A. Goldstone, 2016-12-19 What can the great crises of the past teach us about contemporary revolutions Jack Goldstone shows the important role of population changes youth bulges urbanization elite divisions and fiscal crises in creating major political crises Goldstone shows how state breakdowns in both western monarchies and Asian empires followed the same patterns triggered when inflexible political economic and social institutions were overwhelmed by cumulative changes in population structure that collided with popular aspirations and state elite relations Examining the great revolutions of Europe the English and French Revolutions and the great rebellions of Asia which shattered dynasties in Ottoman Turkey China and Japan he shows how long cycles of revolutionary crises and stability similarly shaped politics in Europe and Asia but led to different outcomes In this 25th anniversary edition Goldstone reflects on the history of revolutions in the last twenty five years from the Philippines and other color revolutions to the Arab Uprisings and the rise of the Islamic State In a new introduction he re examines his pioneering look at the role of population changes such as rising youth cohorts urbanization shifting elite mobility as continuing causal factors of revolutions and rebellions The new concluding chapter updates his major theory and looks to the future of revolutions in the Middle East Asia and Africa

[Germany: 1789-1933](#) Heinrich August Winkler, 2006 Vivid succinct and highly accessible Heinrich Winkler s magisterial history of modern Germany offers the history of a nation and its people through two turbulent centuries It is the story of a country that while always culturally identified with the West long resisted the political trajectories of its neighbours This first volume of two begins with the origins and consequences of the medieval myth of the Reich which was to experience a fateful renaissance in the twentieth century and ends with the collapse of the first German democracy Winkler offers a brilliant synthesis of complex events and illuminates them with fresh insights He analyses the decisions that shaped the country s triumphs and catastrophes interweaving high politics with telling vignettes about the German people and their own self perception With a

forthcoming second volume to take the story up to reunification in 1990 Germany The Long Road West will be welcomed by scholars students and anyone wishing to understand this most complex and contradictory of countries from back cover

Events That Formed the Modern World Frank W. Thackeray, John E. Findling, 2012-05-31 This comprehensive five volume set contains readable essays that describe and interpret the most important global events since the European Renaissance some accompanied by related document excerpts and primary source materials What were the effects of the Age of Exploration on today's ethnic groups and social structure How did the development of moveable type pave the way for Facebook and Twitter Why is the Reformation so critical for understanding today's religious controversies This set will help readers answer these questions by exploring the most significant historical events of the modern world This five volume set covers times from the Renaissance to the present Each volume focuses on a specific historic period and examines 12 events within those time frames that changed the world Each entry provides an introduction that lays out factual material in a chronological manner an in depth essay interpreting the event's significance and an annotated bibliography of the most important current works on the topic Select entries are followed by primary sources pertaining to the event under consideration such as diary entries Targeted to both general readers as well as entry level university students this book also directly supports high school and undergraduate curricula allowing students to identify and contextualize events in order to think critically about their causes aftermath and legacy [A History of European Socialism](#) Albert S. Lindemann, 1983-01-01 This is a serious and accomplished synthesis Biographical vignettes enliven the presentation of ideas and references to studies of regional diversities give the narrative an uncommonly rich texture Lucid and illuminating It is the best book on the subject to put into the hands of our students Helmut Gruber International Labor and Working Class History A synthetic narrative by a young academic scholar who has independent ideas on an important subject This book is worth reading if for no other reason than its modest but nonpatronizing rehabilitation from generations of Marxist caricature of a host of deeply democratic European socialists James H Billington Washington Post Book World One asset of this book is its lack of the overbearing personal partisanship one finds in so many historical studies of socialism Lindeman incorporates some recent and inaccessible studies in social history written from the bottom up David D Arce World View As a whole Lindemann offers a more balanced treatment of the ideas and the movement of socialism than found in many extant histories A must for all college and university libraries Choice A competent and fair minded study of a controversial subject It presents much factual material and judicious interpretation in lucid prose L S Stavrianos Los Angeles Times Book Review **Origins of Liberal Dominance** Andrew C. Gould, 2010-06-02 How did liberal movements reshape the modern world Origins of Liberal Dominance offers a revealing account of how states churches and parties joined together in France Belgium Switzerland and Germany to produce fundamentally new forms of organization that have shaped contemporary politics Modern political life emerged when liberal movements sought to establish elections constitutions free markets and religious liberty Yet liberalism

even at its height faced strong and often successful opposition from conservatives What explains why liberals overcame their opponents in some countries but not in others This book compares successful and unsuccessful attempts to build liberal political parties and establish liberal regimes in France Belgium Switzerland and Germany from 1815 to World War I Andrew Gould argues that relations between states and churches set powerful conditions on any attempt at liberalization Liberal movements that enhanced religious authority while reforming the state won clerical support and successfully built liberal institutions of government Furthermore liberal movements that organized peasant backing around religious issues founded or sustained mass movements to support liberal regimes Origins of Liberal Dominance offers striking new insights into the emergence of modern states and regimes It will be of interest to political scientists sociologists comparative historians and those interested in comparative politics regime change and state building democratization religion and politics and European politics Andrew C Gould is Assistant Professor of Government and Kellogg Institute Fellow University of Notre Dame **Old**

Hickory's Nephew Mark R. Cheatham, 2007-07-01 Though remembered largely by history as Andrew Jackson's nephew Andrew Jackson Donelson was himself a significant figure in nineteenth century America a politician planter diplomat newspaper editor and vice presidential candidate His relationship with his uncle and mentor defined his life as he struggled to find the political and personal success that he wanted and his uncle thought he deserved In *Old Hickory's Nephew* the first definitive biography of this enigmatic man Mark R Cheatham explores both Donelson's political contributions and his complex tumultuous and often overlooked relationship with Andrew Jackson Born in Sumner County Tennessee in 1799 Donelson lost his father only five years later Andrew Jackson soon became a force in his nephew's life seeing in his namesake his political protégé Jackson went so far as to predict that Donelson would one day become president After attending West Point Donelson helped establish the Jacksonian wing of the Democratic party and edited a national Democratic newspaper As a diplomat he helped bring about the annexation of Texas and following in his uncle's footsteps he became the owner of several plantations On the surface Donelson was a political and personal success But few lives are so straightforward The strong relationship between the uncle and nephew defined by the concept of honor that suffused the southern society in which they lived quickly frayed when Donelson and his wife defied his uncle during the infamous Peggy Eaton sex scandal of Jackson's first presidential administration This resulted Cheatham shows in a tense relationship full of distrust and suspicion between Donelson and Jackson that lasted until the Hero of New Orleans died in 1845 Donelson later left the Democratic party in a tiff and joined the American or Know Nothing party which selected him as Millard Fillmore's running mate in 1856 Though Donelson tried to establish himself as his uncle's political successor and legator his friends and foes alike accused him of trading on his uncle's name to gain political and financial success The life of Andrew Jackson Donelson illuminates the expectations placed upon young southern men of prominent families as well as the complexities and contradictions in their lives In this biography Cheatham awakens interest in a nearly forgotten but nonetheless intriguing figure in American history

Germany at War David T. Zabecki, 2014-10-28 Written by experts for use by nonexperts this monumental work probes Germany's Genius for War and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation's military history Despite having the best military forces in the world some of the most advanced weapons available and unparalleled tactical proficiency Germany still lost both World Wars This landmark four volume encyclopedia explores how and why that happened at the same time examining Germany as a military power from the start of the Thirty Years War in 1618 to the present day Coverage includes the Federal Republic of Germany its predecessor states and the kingdoms and principalities that combined to form Imperial Germany in 1871 The Seven Years War is discussed as are the Napoleonic Wars the Wars of German Unification including the Franco Prussian War World War I World War II and the Cold War In all more than 1 000 entries illuminate battles organizations leaders armies weapons and other aspects of war and military life The most comprehensive overview of German military history ever to appear in English this work will enable students and others interested in military history to better understand the sociopolitical history of Germany the complex role conflict has played in the nation throughout its history and why Germany continues to be an important player on the European continent

Barricades and Borders Robert Gildea, 2003-03-06 This is a comprehensive survey of European history from the coup d'etat of Napoleon Bonaparte in France to the assassination of the Archduke Ferdinand at Sarajevo which led to the First World War It concentrates on the twin themes of revolution and nationalism which often combined in the early part of the century but which increasingly became rival creeds Going beyond traditional political and diplomatic history the book incorporates the results of recent research on population movements the expansion of markets the accumulation of capital social mobility education changing patterns of leisure religious practices and intellectual and artistic developments The work falls into three chronological sections The first starting in 1800 rather than the more usual 1815 follows the build up of the revolutionary currents which were eventually going to erupt in the Year of Revolutions 1848 The second from 1850 to 1880 deals with the golden age of capitalism the successful culmination of struggles for national unification and the threat of anarchism The concluding chapters look at the social and political stresses caused by socialism and national minorities at new attempts by government to order society imperial rivalry and the descent into a war which was to mark the end of nineteenth century Europe For this third edition Dr Gildea has substantially revised the text and maps and completely updated the bibliography Newly added introductory sections guide the reader through the wealth of material in each chapter The new edition also includes for the first time a full Chronology of the period a list of leading state ministers and family trees for all the major dynasties

Radical Warrior David Dixon, 2023-08-18 An estimated 200 000 men of German birth enlisted in the Union Army during the Civil War far more than any other contemporary foreign born population One of these Prussian Army officer Johann August Ernst von Willich led a remarkable life of integrity commitment to a cause and interaction with leading lights of the nineteenth century After resigning from the Prussian Army due to his republican

beliefs Willich led armed insurrections during the revolutions of 1848-49 with Friedrich Engels as his aide de camp. Ever committed to the goal of universal human rights, he once dueled a disciple of Karl Marx whom he thought too conservative. Willich emigrated to the United States in 1853, eventually making his way to Cincinnati where he served as editor of the daily labor newspaper, the Cincinnati Republican. With exhaustive research in both English and German language sources, author David T. Dixon chronicles the life of this ingenious military leader, a man who could also be stubborn, impulsive, and even foolhardy, risking his life unnecessarily in the face of overwhelming odds. As soon as shots were fired at Fort Sumter, fifty-year-old Willich helped raise a regiment to fight for the Union. Though he had been a lieutenant in Europe, he enlisted as a private. He later commanded an all-German regiment, rose to the rank of brigadier general, and was later brevetted major general. Dixon's vivid narrative places the Civil War in a global context. For Willich and other so-called Forty-Eighters who emigrated after the European revolutions, the nature and implications of the conflict turned not on Lincoln's conservative goal of maintaining the national Union, but on issues of social justice, including slavery, free labor, and popular self-government. It was a war not simply to heal sectional divides but to restore the soul of the nation, and in Willich's own words, defend the rights of man.

Yankee Dutchman Stephen D. Engle, 2015-12-03. Lauded as a hero in his native land for his sensational but ultimately unsuccessful exploits during the 1848 German Revolution, Franz Sigel, who immigrated to the United States in 1852, is among the most misunderstood figures of the American Civil War. He was appointed by Abraham Lincoln as a political general in the Union army, a move that successfully galvanized northern support and provided a huge influx of German recruits who were eager to fight with Sigel. But Sigel proved an inept and ineffectual leader and unfortunately is most often remembered for his disappointing failure at the Battle of New Market and his subsequent loss of command. In his insightful biography, Stephen D. Engle provides the first complete portrait of this enigmatic leader and German standard bearer, showing Sigel to be a disciplined, self-sacrificing idealist who sparked more pride among his fellow migrants, aroused more controversy among Americans, and perhaps enjoyed more admiration despite his military shortcomings than any other Civil War figure.

Modern Europe, 1789-Present Asa Briggs, Patricia Clavin, 2014-06-06. Now covering the whole of Europe from the French Revolution to the present day, this major new edition has been completely revised and brought up to date. The approach embraces the whole continent from both national and regional perspectives and combines political survey with grass-roots people history. Bringing this history vividly to life, the authors use a very broad range of sources, including memoirs, archives, letters, songs, and newspapers. In particular, there is new treatment of the following themes: Religion and the modern Papacy; Immigration in Europe and relationships between minority and majority groups; UNESCO; The European Bill of Rights; The seeds of conflict in Bosnia and Croatia; Europe's relations with the wider world, with particular attention to the Middle East and Japan.

The Longman Handbook of Modern European History, 1763-1997 Chris Cook, John Stevenson, 1998. This 3rd edition of the Longman Handbook of Modern European History now includes full coverage of the

events of the mid 1990s after the former Soviet Union broke up into its constituent parts The Insurgent Barricade Mark Traugott, 2010 A case study in how techniques of protest originate and evolve this book tells how the French perfected a repertoire of revolution over three centuries and how students exiles and itinerant workers helped it spread across Europe

Social And Political History Of The German 1848 Revolution Book Review: Unveiling the Power of Words
