Social Bond An Investigation Into The Bases Of Law Abidingness Volume Iii:

The Construction of Social Bonds Ahrne, Göran, 2021-11-05 This engaging and timely book demonstrates how a deeper understanding of theories about organizations are necessary for the development of a relational sociology and provides an in depth explanation of globalization and social change It also examines how social bonds are constructed through combinations of different forms of communication and investigates the bonds of intimate relationships and partially organized relationships such as street gangs brotherhoods and social movements

The Paradox of Social Order , This volume focuses on strengthening the foundations of the social sciences with hypotheses that challenge commonly held rational choice theories drawn from economics In contrast to the rational choice theories of Becker Hayek Popper and others Moessinger argues that the stability of social structures ultimately results from a linkage of non rational individual conduct interpersonal imbalances confusion of minds etc with social order and hence that a larger role for psychology is essential for the study of the social sciences This work is an attempt at cross fertilization of disciplines Both of these fields are now limited fragmented and scattered In the social sciences we often have to be content with a few pieces hypotheses theories of a provisional construction pieces that will be quickly modified or replaced In this precarious situation for the social sciences what we can do better what we must try to do better is to differentiate and generalize our hypotheses and integrate them into the best established network of knowledge in order to ensure that they continue to develop In other words we have to articulate and systematize the social sciences in particular to reunite sociology and psychology Social order emerges from non rational individual behavior which social order in turn upholds To express it positively social order and individual non rationality together make up a whole The author holds that metaphors such as machine or organism are no longer adequate Social order can no longer be conceived in terms of a dualistic framework Social order is not some magical equilibrium that is justified by the satisfactions it produces to all to the most capable or only to those in power depending upon the justification Nor can social order be considered either the product of either an invisible hand or of an omnipresent secretary who balances everyone s account This work is an effort to move beyond the polarities and dualities that limit the theory and research of social science as a whole Pierre Moessinger is professor in the Department of Sociology at the University of Geneva Switzerland and the Department of Psychology at the University of Fribourg He has published in English language journals in several fields and is the editor of New Ideas in Psychology

In Search of Community Eileen B. Leonard, Hermann Strasser, Kenneth Westhues, 1993 In Search of Community is a collection of thirteen essays by former students of Dr Werner Stark influential historian of social thought The work opens with an introduction succinctly relating an outline of Stark s life s work encompassing the historical framework that influences him and the personal events that shape his outlook and scholarship The essayists address the entire range of central subjects of the sociological discipline by focusing on four areas of scientific debate the epistemic Sociology of Knowledge the theoretical Social Thought the societal

Social Bond and the religious Sociology of Religion Those four areas were also of substantive concern to Werner Stark and his extraordinary range and depth of knowledge is reflected in this collection of essays **Law Books in Print: Subjects**

Robert L. Buckwalter,1982 The Cult of the Market Lee Boldeman,2007-10-01 The Cult of the Market Economic Fundamentalism and its Discontents disputes the practical value of the shallow all encompassing dogmatic economic fundamentalism espoused by policy elites in recent public policy debates along with their gross simplifications and sacred rules Economics cannot provide a convincing overarching theory of government action or of social action more generally Furthermore mainstream economics fails to get to grips with the economic system as it actually operates It advocates a more overtly experimental eclectic and pragmatic approach to policy development which takes more seriously the complex interdependent evolving nature of society and the economy Importantly it is an outlook that recognises the pervasive influence of asymmetries of wealth power and information on bargaining power and prospects throughout society The book advocates a major reform of the teaching of economics Provided by publisher Law Books in Print: Publishers' listing Nicholas Triffin,1987 *The Sacred and Its Scholars* Thomas A. Idinopulos,Edward A. Yonan,1996 This volume of essays is devoted to a careful examination of the importance of methodology in the study of primary religious data The essays focus on the Sacred as an ultimate object of descriptive analysis and critical scrutiny on the part of a select number of North American and European methodologists in the study and teaching of the history of religions and its allied disciplines The central question to which the contributors respond are these What is the Sacred Is it a being or a concept of a being is it a mental state or an objective reality or something else entirely Can the Sacred be described as an empirical fact or as a formal rule for religious inquiry If the Sacred is a valid category in the study and teaching of religion then what can be said about the antithesis of the sacred namely the profane or the secular This volume probes these questions with great care in order to justify a number of ways the Sacred can be construed as an indispensable notion for the study and teaching of religion

Law Books in Print: Subjects Nicholas Triffin,1987 *The Disabled Child* Amanda Apgar,2023-01-10 When children are born with disabilities or become disabled in childhood parents often experience bewilderment they find themselves unexpectedly in another world without a roadmap without community and without narratives to make sense of their experiences The Disabled Child Memoirs of a Normal Future tracks the narratives that have emerged from the community of parent memoirists who since the 1980s have written in resistance of their children s exclusion from culture Though the disabilities represented in the genre are diverse the memoirs share a number of remarkable similarities they are generally written by white heterosexual middle or upper middle class ablebodied parents and they depict narratives in which the disabled child overcomes barriers to a normal childhood and adulthood Apgar demonstrates that in the process of telling these stories which recuperate their children as productive members of society parental memoirists write their children into dominant cultural narratives about gender race and class By reinforcing and buying into these norms Apgar argues special

needs parental memoirs reinforce ableism at the same time that they re writing against it **Ibss: Political Science: 1987**

readings of a wide variety of accounts debates and representations Encounters with Wild Children explores the many
different meanings these children were given and the varied responses they elicited Adriana Benzaqu n explains why wild
children continue to haunt and fascinate Western scientists and shows how the knowledge they have generated in different
disciplines including anthropology psychology psychiatry pedagogy linguistics and sociology has contributed to the shaping
and reshaping of the modern understanding of the child and affected the social and institutional practices directed at all
children in schools welfare mental health and the law Emotional Lives E. Doyle McCarthy,2017-05-04 Emotional Lives
explores the changes in emotional cultures that have taken place during the last half century and continue to affect people s
identities today These changes are driven by the culture of consumerism in contemporary post industrial society and by the
emergence of new ideas about public and private life in a time when media culture generates new forms of social
relationships and deep personal attachments to celebrity figures McCarthy shows that people are drawn to public life not
only for entertainment and pleasure but also for its dramas for memorializing events like disasters acts of violence and
victimhood McCarthy s cultural sociological approach provides new insights about emotions as social things and reveals how
today s mass media is an important force for cultural change including changes in people s relationships identities and
emotions **Emotional Lives , History of a Jewish Burial Society** Mareleyn Schneider,1991 This work considers two
