Social Change in Modern France Henri Mendras, Alistair Cole, 1991-03-14 Social Change in Modern France is a concise and lucid account of the profound transformations that have reshaped French society over the past thirty years. The authors show how the characteristic institutions of the Third Republic have been weakened, destroyed or severely altered in the face of a late and rapid industrialization. The church, the army, the trade unions, the schools, even the French communist party, all have lost their capacity to excite major conflict and tension and in their stead a series of local institutions, voluntary associations and family ties have arisen serving as the basic network for social relations and social life. Traditional French *joie de vivre* has assumed new forms and the authors maintain a very sturdy and cohesive society has arisen based on widespread consensus.

**Women in Contemporary Russia** Vitalina Koval, 1995 The position of Russia has always been difficult. In spite of the Revolution in 1917, the legal, economic, social and political inequalities between men and women have remained severe. For more than seventy years, the official propaganda of the Soviet system deliberately concealed from the public in the West as well as the East the actual position of women, presenting it in rose-colored hues and proclaiming that under socialism the issue of the position of women in society had been resolved once and for all. However, the opposite was true: women increasingly suffered from overt and covert discrimination. In fact, the discrepancy between the official and actual positioning of working women became so acute that it led to serious social problems. The democratic reforms of the mid 1980s brought some positive changes at last; for the first time, the women's issue was recognized as an urgent socio-political problem requiring serious investigation and practical measures. The authors of this collection of original essays, most of whom are social scientists at the Moscow Academy of Science, examine those aspects of life of women in Russia today which are most pressing, not least those arising from the multi-ethnic composition of the Russian Federation that comprises more than one hundred different nationalities and in which women constitute fifty-three per cent of the population.

International Books in Print, 1995 Barbara Hopkinson,[Anonymus AC01401231],1995     *Weber, Habermas and Transformations of the European State* John P. McCormick,2007-04-16 This book critically engages Jürgen Habermas's comprehensive vision of constitutional democracy in the European Union John P McCormick draws on the writings of Max Weber and Habermas's own critique of them to confront the difficulty of theorizing progressive politics during moments of radical state transformation Both theorists employ normative and empirical categories drawn from earlier historical epochs to analyze contemporary structural transformations Weber evaluated the emergence of the Sozialstaat with antedated categories derived from nineteenth century and premodern historical examples while Habermas understands the EU almost exclusively in terms of the liberal Rechtsstaat and welfare state Sozialstaat paradigms Largely forsaking the focus on structural transformation that characterized his early work Habermas conceptualizes the EU as a territorially expanded nation state McCormick demonstrates the deficiencies of such an approach and outlines a more appropriate normative empirical model the supranational Sektoralstaat for evaluating prospects for constitutional and social democracy in the EU
