Thornton,2007-11-13 Once a colossus dominating the globe Europe today is a doddering convalescent Sluggish economic growth high unemployment an addiction to expensive social welfare entitlements a dwindling birth rate among native Europeans and most important an increasing Islamic immigrant population chronically underemployed yet demographically prolific all point to a future in which Europe will be transformed beyond recognition a shrinking museum culture riddled with ever expanding Islamist enclaves Decline and Fall tells the story of this decline by focusing on the larger cultural dysfunctions behind the statistics The abandonment of the Christian tradition that created the West s most cherished ideals a radical secularism evident in Europe s indifference to God and church created a vacuum of belief into which many pseudo religions have poured Scientism fascism communism environmentalism multiculturalism sheer hedonism all have attempted and failed sometimes bloodily to provide Europeans with an alternative to Christianity that can show them what is worth living and dying for Meanwhile a resurgent Islam feeding off the economic and cultural marginalization of European Muslims knows all too well not just what is worth dying for but what is worth killing for Crippled by fashionable self loathing and fantasies of multicultural inclusiveness Europeans have met this threat with capitulation instead of strength appeasement and apologies instead of the demand that immigrants assimilate As Decline and Fall shows Europe s solution to these ills a larger and more powerful European Union simply exacerbates the problems for the EU cannot address the absence of a unifying belief that can spur Europe even to defend itself let alone to recover its lost grandeur As these problems worsen Europe will face an unappetizing choice between two somber destinies a violent nationalistic or nativist reaction or more likely a long descent into cultural senescence and slow
