

A collage of various summer sports equipment scattered on a green lawn. In the top right, a red beach ball is partially visible. Below it, a large red beach umbrella is partially open. In the center, a white baseball with red stitching lies on the grass. To its left, three colorful hula hoops (green, yellow, and red) are tangled together. In the bottom left, there are three badminton rackets: one pink, one blue, and one yellow. In the bottom right, a large white and black soccer ball is prominent. A blue tennis racket is also visible, lying horizontally across the bottom. Small purple and pink flowers are scattered throughout the grass.

**Programs and Plans of the National Center for Education Statistics** National Center for Education Statistics, 2003 *Skiing*, 1984 **Children, Schools, And Inequality** Doris R Entwisle, 2018-03-05 Educational sociologists have paid relatively little attention to children in middle childhood ages 6 to 12 whereas developmental psychologists have emphasized factors internal to the child much more than the social contexts in explaining children s development Children Schools and Inequality redresses that imbalance It examines elementary school outcomes e g test scores grades retention rates in light of the socioeconomic variation in schools and neighborhoods the organizational patterns across elementary schools and the ways in which family structure intersects with children s school performance Adding data from the Baltimore Beginning School Study to information culled from the fields of sociology child development and education this book suggests why the gap between the school achievement of poor

children and those who are better off has been so difficult to close Doris Entwistle Karl Alexander and Linda Olson show why the first grade transition how children negotiate entry into full time schooling is a crucial period They also show that events over that time have repercussions that echo throughout children s entire school careers Currently the only study of this life transition to cover a comprehensive sample and to suggest straightforward remedies for urban schools Children Schools and Inequality can inform educators practitioners and policymakers as well as researchers in the sociology of education and child development Thesaurus of ERIC Descriptors ,1975 *The Educator's Handbook for Understanding and Closing Achievement Gaps* Joseph Murphy,2010 Beginning with a remarkably comprehensive and accessible analysis of the gap s causes the book offers a refreshingly balanced evidence based state of the art outline of productive solutions that should inform the work of all educational stakeholders Ken Leithwood Professor OISE University of Toronto No one is better positioned than Joseph Murphy to provide lessons for education leaders on this important topic Andrew Porter George and Diane Weiss Professor of Education University of Pennsylvania For too long the achievement gap has been proclaimed discussed and then dismissed as a subject of despair Seldom has it been systematically defined placed in historical perspective or positively addressed Through thorough scholarship comprehensive knowledge and creativity this book fills that void James W Guthrie Patricia and Rodes Hart Professor of Educational Leadership and Public Policy Vanderbilt University While offering no simple pathway to progress this book reminds us how much more we can do to close achievement gaps Michael S Knapp Director Center for the Study of Teaching Policy University of Washington Distinguished researcher Joseph F Murphy has gathered and analyzed the most up to date research and data to help headteachers understand what the achievement gap is why it persists and what teachers can do about it This comprehensive handbook Examines external factors that contribute to achievement gaps such as socioeconomic status family environment racism and individual differences Covers internal factors such as instruction school culture and school support Provides strategies for addressing both internal and external factors to make an impact The Kirghiz and Wakhi of Afghanistan M. Nazif Shahrani,2002 With a new Preface and Epilogue written by the author after the fall of the Taliban explaining the extraordinary changes that have taken place since this book was first published in 1979 this ethnographic study describes the cultural and ecological adaptation of the nomadic Kirghiz and their agriculturalist neighbors the Wakhi to high altitudes and a frigid climate in Afghanistan **The Jewish Center** ,1928 **Shaping Summertime Experiences** National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Summertime Experiences and Child and Adolescent Education, Health, and Safety,2019-12-30 For children and youth summertime presents a unique break from the traditional structure resources and support systems that exist during the school year For some students this time involves opportunities to engage in fun and enriching activities and programs while others face additional challenges as they lose a variety of supports including healthy

meals medical care supervision and structured programs that enhance development Children that are limited by their social economic or physical environments during the summer months are at higher risk for worse academic health social and emotional and safety outcomes In contrast structured summertime activities and programs support basic developmental needs and positive outcomes for children and youth who can access and afford these programs These discrepancies in summertime experiences exacerbate pre existing academic inequities While further research is needed regarding the impact of summertime on developmental domains outside of the academic setting extensive literature exists regarding the impact of summertime on academic development trajectories However this knowledge is not sufficiently applied to policy and practice and it is important to address these inequalities Shaping Summertime Experiences examines the impact of summertime experiences on the developmental trajectories of school age children and youth across four areas of well being including academic learning social and emotional development physical and mental health and health promoting and safety behaviors It also reviews the state of science and available literature regarding the impact of summertime experiences In addition this report provides recommendations to improve the experiences of children over the summertime regarding planning access and equity and opportunities for further research and data collection
