Summer Mastitis:

Summer Mastitis G. Thomas, H.J. Over, U. Vecht, P. Nansen, 2012-12-06 This Community meeting has been organised since over the past 15 years in different countries of Western Europe including Scandinavia a lot of research has been directed to the summer mastitis problem Summer mastitis in cattle is a well known disease which because of its abruptness and the difficulties concerned in defining the predisposing factors and the pathogens involved is hard to control Moreover as it is anticipated that in the transmission of the bacteria one or more dipterans are involved the complexity in defining the disease and hence co ordinating our scientific knowledge in relation to practical control was stimulus enough for this workshop to be organised Our aims can be summarised in the following goals 1 Exchange of information in the practical technical and scientific field in order to stimulate a co ordinated research approach at a time in which the cattle husbandry sector is under great economical stress 2 Inform research workers from countries where the disease is or seems to be not endemic on aspects that might be of interest for them in the approach of comparable problems 3 To draw up conclusions and recommendations with regard to future research activities in order to avoid needless duplication of effort

Clinical Examination of Farm Animals Peter Jackson, Peter Cockcroft, 2008-04-15 Clinical examination is a fundamental part of the process of veterinary diagnosis Without a proficient clinical examination and an accurate diagnosis it is unlikely that the treatment control prognosis and welfare of animals will be optimised This book will assist veterinary students in their understanding of farm animal clinical examination and act as a quick reference for clinicians who are called upon to examine an unfamiliar species It will also provide a more detailed account for experienced clinicians in their continuing professional development The authors provide a simple explicit and reliable method of examining cattle sheep pigs and goats of all ages in the search for diagnostic information

Medical Entomology B.F. Eldridge, J.D.
