Delius and His Music Martin Lee-Browne, Paul Guinery, 2014 There are many biographies and articles about the life of Frederick Delius 1862 1934 but there has never been a comprehensive book about his music until now He was an extraordinarily versatile composer equally at home with orchestral instrumental and chamber works as with choral works and songs and Delius and his Music covers his entire output Everything he published from his earliest compositions and trifles to the mighty ninety minute A Mass of Life is analysed here in nontechnical language The history and background of each work and its critical reception are also examined set within a biography and against a backdrop of the English musical scene and some of its personalities during the seventy years of Delius's life There are numerous musical examples and many quotations from contemporary newspapers and journals as well as a complete list of Delius's works with catalogue numbers and a select bibliography This book will appeal not only to students and Delian scholars but also to everyone who already has an interest in Delius's unique music or who would like to discover it for the first time Jaquette
