**Sumner-Gearing-Class Destroyers** Robert F. Sumrall, Paul Bender, Michael Doyle, 1995 The US Navy's Sumner Gearing class destroyers served as a standard for post World War II destroyer design and development Their evolution over the course of nearly 40 years and three wars is fully covered in this illustrated book *Sumner-Gearing-class Destroyers* Robert F. Sumrall, 1995 The US Navy's Sumner Gearing class destroyers served as a standard for post WWII destroyer design and development In this outstandingly illustrated work bandwidth throughout with a 16 page color center spread Sumrall traces the origins and evolution of these destroyers over nearly forty years and through three wars showing the advances made in ordnance fire control and steam engineering Annotation copyright by Book News Inc Portland OR [US Destroyers 1942-45](#) Dave McComb, 2011-03-15 Few if any 20th century warships were more justly acclaimed than the destroyers of the US Navy's Fletcher class Admired as they were for their advanced and rakish design it was their record as workhorses of the Pacific War that placed them among the most battle tested and successful fighting ships of all time This title describes the Fletchers and their Allen M Sumner and Gearing class derivatives their machinery armament and construction with a listing of all 343 ships by hull number and builder It features an operational history of the 287 ships commissioned during World War II which traces the evolution of night surface action tactics in the Solomon Islands and the parallel development of the Combat Information Center the drive across the Pacific and liberation of the Philippines with tables showing the rapid introduction of new squadrons and the radar pickets climactic stand against kamikaze aircraft at Okinawa With summaries of losses and decorations and specially commissioned artwork this is a definitive book on the wartime US destroyer classes

*US Destroyers 1934-45* Dave McComb, 2011-12-20 Since the beginning of the 20th century destroyers have been all purpose ships indispensable in roles large and small from delivering the mail at sea to screening other vessels and where larger ships were not present forming the front line in battle This title details the 169 ships of ten classes introduced in the 1930s early 1 500 tonners and 1 850 ton destroyer leaders designed to conform to the 1930 London Naval Treaty plus the successor 1 570 ton Sims class and 1 620 and 1 630 ton Benson and Gleaves classes In wartime most 1 500 tonners and leaders initially saw front line duty in the Pacific but were relegated to secondary assignments as newer vessels arrived while the later 1 620 and 1 630 tonners became the standard destroyers of the Atlantic War This volume reveals the fascinating design story behind these pioneering classes from the constraints of peacetime treaties to advances in propulsion engineering and wartime modifications With an operational overview of their service and tables listing all ships by class builder and initial squadron this is the definitive guide to the pre war US destroyer classes *Kamikazes, Corsairs, and Picket Ships* Robin L. Rielly, 2020-01-10 The untold story of ferocious air and naval combat during the WWII Battle of Okinawa drawn from primary sources and survivor interviews This is the story of an overlooked yet significant aerial and naval battle during the American assault on Okinawa in the spring of 1945 While losses to America's main fleet are well

recorded less well known is the terrific battle waged on the radar picket line the fleet's outer defense against Japanese marauders Weaving together the experiences of the ships and their crews drawn from ship and aircraft action reports ship logs and personal interviews historian Robin L Reilly recounts one of the most ferocious air and naval battles in history The US fleet and its accompanying airpower was so massive that the Japanese could only rely on suicide attacks to inflict critical damage Of the 206 ships that served on radar picket duty twenty nine percent were sunk or damaged by Japanese air attacks making theirs the most hazardous naval surface duty in World War II The great losses were largely due to relentless kamikaze attacks but also resulted from the improper use of support gunboats failure to establish land based radar at the earliest possible time the assignment of ships ill equipped for picket duty and as time went on crew fatigue US air cover during the battle is also described in full as squadrons dashed from their carriers and land bases to intercept the Japanese swarms resulting in constant melees over the fleet

*American Naval History in 50 Ships* James M. Caiella,2025-08-01 The course of American naval history has not been set only by the relatively few famous ships whose stories have been told and retold This volume spotlights 50 less recognized vessels each significant in its own way from the Continental Navy to the first supercarriers while touching on many others with which their stories are interwoven Attention is given not only to the design and conceptual changes the vessels embodied but also the crews whose toil and heroism gave them life and sometimes notoriety One captain tried to sell his warship in the midst of the Civil War Each ship is detailed chronologically in chapters that often dispel timeworn misconceptions Some were trailblazers others were misdirected in their inspiration design or execution indeed two could not float and one was dampened only by rain Yet each helped shape America's seafaring history
