Teacher Proof Tom Bennett,2013-07-04 Tom Bennett is the voice of the modern teacher Stephen Drew Senior Vice Principal Passmores Academy UK featured on Channel 4 s Educating Essex Do the findings from educational science ever really improve the day to day practice of classroom teachers Education is awash with theories about how pupils best learn and teachers best teach most often propped up with the inevitable research that proves the case in point But what can teachers do to find the proof within the pudding and how can this actually help them on wet Wednesday afternoon

Drawing from a wide range of recent and popular education theories and strategies Tom Bennett highlights how much of what we think we know in schools hasn't been proven in any meaningful sense at all He inspires teachers to decide for themselves what good and bad education really is empowering them as professionals and raising their confidence in the classroom and the staffroom alike Readers are encouraged to question and reflect on issues such as the most common ideas in modern education and where these ideas were born the crisis in research right now how research is commissioned and used by the people who make policy in the UK and beyond the provenance of education research who instigates it who writes it and how to spot when a claim is based on evidence and when it isn't the different way that data can be analysed what happens to the research conclusions once they escape the laboratory Controversial erudite and yet unremittingly entertaining Tom includes practical suggestions for the classroom throughout This book will be an ally to every teacher who has been handed an instruction on a platter and been told the research proves it

On the Aesthetics of Beowulf and Other Old English Poems John M. Hill, 2010-01-01 What makes one Anglo Saxon poem better than another Why does Beowulf still have the power to move us after so many centuries What might have been aesthetically pleasing to Old English readers and writers of poetry While there is an apparent consensus by scholars on a core of poems considered to be exceptional literary achievements Beowulf Judith the Vercelli book there has been little systematic investigation of the basis for these appraisals With new essays on rhetoric wordplay meter structure irony form psychology ethos and reader response the contributors to this collection aim to find objective aesthetic qualities in Anglo Saxon poetry Posing questions of quality and beauty as discoverable in artefacts On the Aesthetics of Beowulf and Other Old English Poems significantly advances our understanding not only of aesthetics and Old English poetry but also of Old English attitudes towards literature as an art form

Information Technologies and Social Orders Carl J. Couch, 2017-09-08 According to Carl J Couch the history of human society is one of successive sometimes overlapping information technologies used to process the

various symbolic representations that inform social contexts Unlike earlier media theorists who ignored social context in order to concentrate on the information technologies themselves Couch implements a consistent theory of interpersonal and intergroup relations to describe the essential interface between information technologies and the social contexts in which they are used Couch emphasizes the formative capacities of information technologies across historical epochs and cultures and places them within the major institutional relations of various societies He views social orders as reflexively shaped by the information technologies that participants use and as susceptible to mass brutality and oppression due to oligarchic control though he hopes technology will remain humane The original edition of this manuscript was nearly complete at the time of Couch's death and was brought to completion by two of his closest associates Now after two decades during which its impact is indisputable it has been updated for a new generation of students and scholars Additions include discussions on books in the digital age social media mobile telephones recordings participatory culture and more
