*Pastimes* is the first book in English on Chinese jinshi or antiquarianism the pinnacle of traditional connoisseurship of ancient artifacts and inscriptions As a scholarly field jinshi was inaugurated in the Northern Song 960 1127 and remained popular until the early twentieth century Literally the study of inscriptions on bronze vessels and stone steles jinshi combined calligraphy and painting the collection of artifacts and philological and historical research For aficionados of Chinese art the practices of jinshi offer a fascinating glimpse into the lives of traditional Chinese scholars and artists who spent their days roaming the sometimes seamy world of the commercial art market before attending elegant antiquarian parties where they composed poetic tributes to their ancient objects of obsession And during times of political upheaval such as the nineteenth century the art and artifact studies of jinshi legitimized reform and contributed to a dynamic and progressive field of learning Indeed the paradox of jinshi is that it was nearly as venerable as the ancient artifacts themselves and yet it was also subject to continual change This was particularly true in the last decades of the Qing 1644 1911 and the first decades of the twentieth century when a diverse group of cosmopolitan and science minded scholars contributed to what was considered at the time to be a revolution in traditional linguistics These antiquarians transformed how historians used literary sources and material artifacts from the ancient past and set the stage for a new understanding of the longevity and cohesiveness of Chinese history The history of jinshi offers insights that are relevant to Chinese cultural and intellectual history art history and politics Scholars of the modern period will find the resiliency and continuing influence of jinshi to be an important counterpoint to received views on the trajectory of Chinese cultural and intellectual change We are accustomed to think that Chinese modernity originated in the great tumult of the turn of the century encounter with foreign learning The example of jinshi reveals the significance of local transformations that occurred much earlier in the nineteenth century Its combination of art and historiography reveals the full range of scholarly appreciation for the past and its artifacts and provides a unique perspective from which to define modern China and illuminate its indigenous origins *DBA Study Guide - OCP Prep Guide* Abdul, 2006
