**Guts and Glory** The Making of the American Military Image in Film is the definitive study of the symbiotic relationship between the film industry and the United States armed services. Since the first edition was published nearly two decades ago the nation has experienced several wars both on the battlefield and in movie theatres and living rooms at home. Now author Lawrence Suid has extensively revised and expanded his classic history of the mutual exploitation of the film industry and the military exploring how Hollywood has reflected and effected changes in America's image of its armed services. He offers in depth looks at such classic films as *Wings* *Thirty Seconds Over Tokyo* *The Longest Day* *Patton* *Top Gun* *An Officer and a Gentleman* and *Saving Private Ryan* as well as the controversial war movies *The Green Berets* *M.A.S.H.* *The Deer Hunter* *Apocalypse Now* *Platoon* *Full Metal Jacket* and *Born on the Fourth of July*. **The Naval Air War in Korea** Richard

Hallion, 2011-03-25 In *The Naval Air War in Korea* Dr. Hallion has captured the fact, feeling and fancy of a very important conflict in aviation history including the highly significant facets of the transition from piston to jet propelled combat aircraft. Norman Polmar, author of *Naval Institute Guide to the Ships and Aircraft of the U.S. Fleet* 18th Edition. William Holden

Michelangelo Capua, 2016-03-22 William Holden was a Hollywood star whose career spanned four decades more than 70 films and three Academy Award nominations. Golden Holden won an Oscar for his role in *Stalag 17* and after films like *Sunset Blvd.* he became one of Hollywood's most powerful stars in the late 1950s. His personal life included international adventures and romances with such stars as Audrey Hepburn and Grace Kelly yet he suffered from alcoholism and clinical depression. This biography covers his entire life and career from boyhood through his greatest successes, short decline, re-emergence in *The Wild Bunch* and his legacy of support for African wildlife. *Rethinking Cold War Culture* Peter J. Kuznick, James

Gilbert, 2013-04-09 This anthology of essays questions many widespread assumptions about the culture of postwar America. Illuminating the origins and development of the many threads that constituted American culture during the Cold War, the contributors challenge the existence of a monolithic culture during the 1950s and thereafter. They demonstrate instead that there was more to American society than conformity, political conservatism, consumerism and middle class values. By examining popular culture, politics, economics, gender relations and civil rights, the contributors contend that while there was

little fundamentally new about American culture in the Cold War era the Cold War shaped and distorted virtually every aspect of American life Interacting with long term historical trends related to demographics technological change and economic cycles four new elements dramatically influenced American politics and culture the threat of nuclear annihilation the use of surrogate and covert warfare the intensification of anticommunist ideology and the rise of a powerful military industrial complex This provocative dialogue by leading historians promises to reshape readers understanding of America during the Cold War revealing a complex interplay of historical norms and political influences
