University study The nature of learning Assessment of learning Teaching and learning in lectures tutorials and labs Research training Aspects of community service Social and cultural aspects of the academic life

**Proceedings of the British Academy, Volume 117**, 2002 Volume 117 of the Proceedings of the British Academy contains 13 lectures delivered at the British Academy in 2001

**Academic Freedom in a Democratic South Africa** John Higgins, 2014-09-02 How do we understand academic freedom today Does it still have relevance in a global reconfiguring of higher education in the interests of the economy rather than the public good And locally is academic freedom no more than an inconvenient ideal paid lip service to South Africa's Constitution as an individual right but neglected in institutional practice This book argues that the core content of academic freedom the principle of supporting and extending open intellectual enquiry is essential to realizing the full public value of higher education John Higgins emphasizes the central role that the humanities and the particular forms of argument and analysis they embody bring to this task Each chapter embodies the particular force of a critical literacy in action one which brings into play the combined force of historical inquiry theoretical analysis and precise attention to the textual dynamics of all statement so as to challenge and confront the received ideas of the day These provocative analyses are complemented by probing interviews with three key figures from the Critical Humanities Terry Eagleton who discusses the deforming effects of managerialism in British universities Edward W Said who argues for increased recognition of the democratizing force of the humanities and Jakes Gerwel who presents some of the most recent challenges for the realization of a humanist politics in South Africa

**Mobilities of Knowledge** Heike Jöns, Peter Meusburger, Michael Heffernan, 2017-01-16 This collection of essays examines how spatial mobilities of people and practices technologies and objects knowledge and ideas have shaped the production circulation and transfer of knowledge in different historical and geographical contexts Targeting an interdisciplinary audience Mobilities of Knowledge combines detailed empirical analyses with innovative conceptual approaches The first part scrutinizes knowledge circulation transfer and adaption focussing on the interpersonal communication process early techniques of papermaking a geographical text indigenous knowledge in exploration the genealogy of spatial analysis and different disciplinary knowledges about the formation of cities states and agriculture The second part analyses the interplay of mediators networks and learning by studying academic careers travels and collaborations within the British Empire public internationalism in Geneva the global transfer of corporate knowledge through expatriation graduate mobility from the global south to the global north and the international mobility of degree programs in higher education This book is open access under a CC BY 4.0 license

**Empire of scholars** Tamson Pietsch, 2016-05-16 At the start of the twenty first century we are acutely conscious that universities operate within an entangled world of international scholarly connection Now available in paperback Empire of scholars examines the networks that linked academics across the colonial world in the age of Victorian globalization Stretching across the globe these networks helped map the boundaries of an expansive but exclusionary British academic world that extended beyond the

borders of the British Isles Drawing on extensive archival research conducted in the United Kingdom Canada Australia New Zealand and South Africa this book remaps the intellectual geographies of Britain and its empire In doing so it provides a new context for writing the history of ideas and offers a critical analysis of the connections that helped fashion the global world of universities today     Bourdieu: The Next Generation Jenny Thatcher,Nicola Ingram,Ciaran Burke,Jessie Abrahams,2015-12-22 This book will give unique insight into how a new generation of Bourdieusian researchers apply Bourdieu to contemporary issues It will provide a discussion of the working mechanisms of thinking through and or with Bourdieu when analysing data In each chapter individual authors discuss and reflect upon their own research and the ways in which they put Bourdieu to work The aim of this book is not to just to provide examples of the development of Bourdieusian research but for each author to reflect on the ways in which they came across Bourdieu s work why it speaks to them including a reflexive consideration of their own background and the way in which it is thus useful in their thinking Many of the authors were introduced to Bourdieu s works after his death The research problems which the individual authors tackle are contextualised in a different time and space to the one Bourdieu occupied when he was developing his conceptual framework This book will demonstrate how his concepts can be applied as thinking tools to understand contemporary social reality Throughout Bourdieu s career he argued that sociologists need to create an epistemological break to abandon our common sense or as much as we can and to formulate findings from our results In essence we are putting Bourdieu to work to provide a structural constructivist approach to social reality anchored through empirical reflexivity     **Proceedings of the British Academy** ,1916     *Proceedings of the British Academy, Volume 131, 2004 Lectures* ,2005-12-22 The topical issues debated in this volume include the patenting of AIDS drugs the future pensions crisis Britain s universities and Pan Islam There are studies of Shakespeare Pope Montaigne Robert Graves and William Faulkner And there are lectures on the Inquisition empires in history and the journey towards spiritual fulfilment
