The British Army In Germany An Organizational History 1947-2004:

The British Army in Germany Graham Watson, Richard A. Rinaldi, 2005-08 This work is a study of the British Army's permanent presence on the continent of Europe. Each section begins with an overview and continues with one or more detailed orders of battle for the period. *The British Army in Germany (BAOR and After)* Graham E. Watson, 2005

British Army of the Rhine Paul Chrystal, 2018-09-30 The nervous geopolitical tension between East and West the Cold War emerged before the end of the Second World War and lasted until 1991 with the collapse of the Soviet Union. The British Army of the Rhine was born in 1945 out of the British Liberation Army at the close of the war as the military government of the British zone of occupied Germany. As the Soviet threat increased so BAOR became less of an occupational army and assumed the role of defender of Western Europe and as a major contributor to NATO after 1949. This book traces and examines the changing role of BAOR from 1945 to its demise in the 1990s. Options for Change defence cuts. It looks at the part it played in the defence of West Germany its effectiveness as a Cold War deterrent the garrisons and capabilities logistics and infrastructure its arms and armour the nuclear option and the lives of the thousands of families living on the front line.

The British Army of the Rhine Peter Speiser, 2016-05-30 Between 1945 and 1957 West Germany made a dizzying pivot from Nazi bastion to Britain's Cold War ally against the Soviet Union. Successive London governments though often faced with bitter public and military opposition tasked the British Army of the Rhine BAOR to serve as a protecting force while strengthening West German integration into the Western defense structure. Peter Speiser charts the BAOR's fraught transformation from occupier to ally by looking at the charged nexus where British troops and their families interacted with Germany's civilian population. Examining the relationship on many levels Speiser ranges from how British mass media representations of Germany influenced BAOR troops to initiatives taken by the Army to improve relations. He also weighs German perceptions surveying clashes between soldiers and civilians and comparing the popularity of the British services with that of the other occupying powers. As Speiser shows the BAOR's presence did not improve the relationship between British servicemen and the German populace but it did prevent further deterioration during a crucial and dangerous period of the early Cold War. An incisive look at an under-researched episode. The British Army of the Rhine sheds new light on Anglo-German diplomatic political and social relations after 1945 and evaluates their impact on the wider context of European integration in the postwar era. *Orchestrating Warfighting* Tim Bean, Edward Flint, James E. Kitchen, Paul

Latawski, 2024-09-10 *Orchestrating Warfighting* provides a detailed and wide-ranging examination of the employment of corps and divisions from the First World War through to the early twenty-first century. Division and corps formations have been at the forefront of the British Army's prosecution of war since 1914. They constituted the major command and organisational elements that underpinned the conduct of large-scale warfighting on land. Divisions and corps were of central importance to the conduct of the First and Second World Wars the maintenance of a conventional deterrence posture during

the Cold War and were also employed in major confrontations since 1945 including the Korean War and two Gulf Wars The British Army of the early twenty first century still retains two divisional formations alongside the British led Allied Rapid Reaction Corps within NATO Orchestrating Warfighting examines British Dominion and imperial corps and divisions taking part in the total wars of the first half of the twentieth century and smaller scale conflicts since 1945 It throws new light on questions of command generalship and the management of battles and campaigns across a diverse range of theatres Orchestrating Warfighting is of interest to historians of the British Army operational military history and modern war

House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that

affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe
