### **The Politics of Consumer Credit in the UK, 1938-1992**

Stuart Aveyard,Paul Corthorn,Sean O'Connell,2018-08-30 As early as the 1930s Britain had a highly innovative and profitable mortgage sector that promoted a major extension in home ownership These controversial and risky offerings had an equivalent in numerous hire purchase agreements with which new homes were furnished Such developments were forerunners of the easy credit regime more commonly associated with the 1980s Taking a long term perspective on this issue indicates that Britain's departure from European models of consumer credit markets was not simply a by product of neoliberalism's influence on the Thatcher administration and this book offers a much fuller explanation to the phenomenon It explores debates within and between the major political parties reveals the infighting amongst civil service departments over management of consumer demand charts the varying degrees of influence wielded by the Bank of England and finance capital as opposed to that of consumer durable manufacturers reviews the perspectives of consumers and their representatives and explains the role of contingency and path dependency in these historical events The central focus of this book is on consumer credit but this subject provides a case study through which to explore numerous other important areas of British history These include debates on the issues of post war consensus the impact of rising home ownership and its impact on consumer credit and personal finance markets the management of consumer society political responses to affluence the development of consumer protection policy and the influence of neoliberalism

### **The IMF Crisis of 1976 and British Politics**

Kevin Hickson,2005-02-25 The 1976 IMF crisis was a seminal event in modern British political and economic history The seeds of the crisis were sown by the huge OPEC oil price shocks of 1972-3 leading to the potential meltdown of Britain's already weakened economy and seemingly confirming Britain's headlong decline as a major political and economic power The government was seen as going cap in hand to the International Monetary Fund IMF to head off disaster an image which became a long lasting political icon Kevin Hickson has mined vital original source material including interviews with leading players to probe government economic thought and practice He questions much received wisdom especially that the crisis caused a basic shift to monetarist orthodoxy and right wing economic liberalism commonly known as Thatcherism and embraced by successive governments including New Labour

**The Management of the British Economy, 1945-2001** Nicholas Woodward,2004 Since 1945 British governments have played an active role in managing the economy in the interests of securing high employment economic growth and low inflation with their approach evolving in response to changing economic circumstances intellectual shifts and past policy failures This book provides an overview of economic management particularly financial management and addresses how it has changed and why it has not always been successful It examines the actual policies that were introduced the problems that various governments faced in implementing them and how the approach to policymaking changed It also examines the main phases of economic policymaking and the

conduct of policymaking as there is a widespread consensus that until recently short run economic management could have been more successful than it was *British Economic and Social History* R. C. Richardson, William Henry Chaloner, 1996

**The Cambridge Economic History of Modern Britain** Roderick Floud, Paul Johnson, 2003 Publisher Description **A History of the Peoples of the British Isles** Thomas Heyck, 2019-06-19 Volume III deals with the long twentieth century Its main themes are the contraction of British industrial power and the shift to a service based economy the decline of Victorianism and the rise of Modernism the climax of class society between the wars and the blurring of class lines after the 1960s the impact of two world wars the decline of British power and the empire the partition of Ireland the devolution of power to Wales and Scotland *The Cambridge Economic History of Modern Britain: Volume 2, Growth and Decline, 1870 to the Present* Roderick Floud, Jane Humphries, Paul Johnson, 2014-10-09 A new edition of the leading textbook on the economic history of Britain since industrialization Combining the expertise of more than thirty leading historians and economists Volume 2 tracks the development of the British economy from late nineteenth century global dominance to its early twenty first century position as a mid sized player in an integrated European economy Each chapter provides a clear guide to the major controversies in the field and students are shown how to connect historical evidence with economic theory and how to apply quantitative methods The chapters re examine issues of Britain s relative economic growth and decline over the long twentieth century setting the British experience within an international context and benchmark its performance against that of its European and global competitors Suggestions for further reading are also provided in each chapter to help students engage thoroughly with the topics being discussed **Making British Defence Policy** Robert Self, 2022-06-16 This book explores the process by which defence policy is made in contemporary Britain and the institutions actors and conflicting interests which interact in its inception and continuous reformulation Rather than dealing with the substance of defence policy this study focuses upon the institutional actors involved in this process This is a subject which has commanded far more interest from public Parliament government and the armed forces since the protracted bloody and ultimately unsuccessful British military involvement in Iraq and Afghanistan The work begins with a discussion of two contextual factors shaping policy The first relates to the impact of Britain s special relationship with the United States over defence and intelligence matters while the second considers the impact of Britain s relatively disappointing economic performance upon the funding of British defence since 1945 It then goes on to explore the role and impact of all the key policy actors from the Prime Minister Cabinet and core executive to the Ministry of Defence and its relations with the broader Whitehall village and the Foreign Office and Treasury in particular The work concludes by examining the increasing influence of external policy actors and forces such as Parliament the courts political parties pressure groups and public opinion This book will be of much interest to students of British defence policy security studies and contemporary military history **British Petroleum and Global Oil 1950-1975** James Bamberg, 2000-08-31 Dramatic narrative arresting analysis and original research are combined

in this book which addresses the history of one of the world's biggest oil businesses between 1950 and 1975. Assessing BP's comparative performance, the book focuses on how BP responded politically, economically, and culturally to the rise of new competitors, the decline of Britain's imperial power, and the determination of nation states to assert national sovereignty over the vital commodity oil. Climaxing with the OPEC crisis which shook the world in the 1970s, the book, authorised by BP with uniquely unrestricted access to its records, is of wide interest and relevance, especially for those interested in big business, globalisation, and nationalism.

**international affairs: OPEC, the Middle East and oil**     *A Companion to Contemporary Britain 1939 - 2000* Paul Addison, Harriet Jones, 2008-04-15

*A Companion to Contemporary Britain* covers the key themes and debates of 20th century history from the outbreak of the Second World War to the end of the century. It assesses the impact of the Second World War, looks at Britain's role in the wider world including the legacy of Empire, Britain's special relationship with the United States, and integration with continental Europe. It explores cultural issues such as class consciousness, immigration, and race relations, changing gender roles, and the impact of the mass media. It covers domestic politics and the economy, introduces the varied perspectives dominating historical writing on this period, and identifies the key issues which are likely to fuel future debate.

**Modern Britain** Sean Glynn, Alan Booth, 2020-08-17

*Modern Britain* focuses on two major periods of British history: the interwar period and postwar Britain. The authors compare and contrast developments in the two periods, dealing with the themes of growth and welfare, industry, labour, social policy, the economy, etc. Combining a narrative with a conceptual and analytic approach, *Modern Britain* provides an end-of-century review of progress and decline and an essential background to current polemics and major issues of concern. Clearly structured and written, this is an invaluable textbook for students of twentieth-century British history.

**The British Economy Since 1945** Sir Alec Cairncross, 1995     **Longman**

**Companion to Britain Since 1945** Chris Cook, John Stevenson, 2014-09-09

This timely new edition of the Longman Companion to Britain since 1945, compiled by the series editors themselves, provides a wide-ranging compendium of key facts and figures on British history from the start of the landmark Attlee government in 1945 to the final years of the 1990s. The book embraces all major aspects of British history: government and society, reflecting the massive social, political, and economic changes that have transformed the face of Britain since the end of the Second World War. Fully revised and updated, this new edition covers the advent of Tony Blair, the electoral victory of New Labour in 1997, and the major constitutional changes currently underway in Britain. This book will be invaluable to anyone interested in the history and politics of post-war Britain, from students and teachers to party activists and lovers of reader-friendly reference books.

**The Rise and Fall of the British Welfare State** Pat Thane, 2024-09-19

For the past decade, at least 25% of the UK population and 30% of children have been in poverty, by internationally accepted measures, and the numbers keep rising. In *The Rise and Fall of the British Welfare State*, Pat Thane analyses the history of state welfare in Britain from 1900 and sheds light on its aims, achievements, and failings. Beginning with the poverty surveys of Booth and Rowntree and the

implementation of early welfare measures such as free school meals Thane offers a vivid snapshot of social welfare in Britain c1900 and the growing demands for improved welfare provisions Taking readers through the significant social reforms of the First and Second World Wars the making of the modern welfare state 1945 51 and its subsequent shifts due to rapidly evolving social policies Thane ends with austerity and the COVID 19 pandemic bringing the scholarship up to the present day and drawing striking parallels with Britain c1900 By placing a major current issue within its historical context Thane explores the shifting administration of the welfare state and adjusts misconceptions about the implementation of social policy particularly during the 1970s and 1980s Thane offers readers a comprehensive study of British social measures during the 20th and 21st centuries highlighting how and why poverty rates are rising once more and examining how the future of social policy could enact greater change

**The Reinvention of Britain 1960-2016** Scott Newton, 2017-08-25 The Reinvention of Britain 1960 2016 explores the transformation of contemporary Britain tracing its evolution from the welfare state of the post 1945 era to social democracy in the 1960s and 1970s and the liberal market society of 1979 onwards Focusing primarily on political and economic change it aims to identify which elements of State policy led to the crucial strategy changes that shaped British history over the past six decades This book argues that since 1960 there have been two reinventions of the political economy of the United Kingdom a social democratic shift initiated by the Conservative government of Harold Macmillan and developed by Labour under Harold Wilson and a subsequent change of direction towards a free market model attempted by the Conservatives under Margaret Thatcher Structured around these two key policy reinventions of the late twentieth century chapters are organized chronologically from the development of social democracy in the early 1960s to the coalition government of the early 2010s the Conservative election win that followed and the Brexit referendum of 2016 Providing a comprehensive yet accessible introduction to the political and economic history of this period The Reinvention of Britain 1960 2016 is essential reading for all students of contemporary British history [The British National Bibliography](#)

Arthur James Wells, 2003

**Money and the End of Empire** G. Krozewski, 2001-07-18 This book presents a penetrating new analysis of the end of the empire located at the intersection of politics economy and society in Britain and the colonies In the late 1940s and early 1950s when political control was feasible discriminatory management of the colonies sustained Britain's postwar recovery But synergy turned into conflict as Britain moved towards economic liberalization and financial cosmopolitanism and found it increasingly difficult to reconcile established relations with emerging priorities Based on a wide range of archival and other sources this study relates political and economic developments in Britain and the colonies in original ways to overcome the gulf between peripheralist and Euro centric explanations of postwar British imperial relations and helps redress the neglect of the empire in modern international history Money and the End of Empire will nourish debates in British and international economic and political history and is essential reading for historians of Britain and the empire

*Mod Brit: An Econ & Soc Hist* John Irwin, 2008-01-28 First published in 1995 Routledge is an imprint of Taylor

Francis and Taylor company      **An Economic and Social History of Western Europe since 1945** Anthony  
Sutcliffe, 2014-09-19 This is the ideal companion text to A Political History of Western Europe Since 1945 It is an introductory  
survey which explains how western Europe built up its postwar prosperity and is moving towards continental integration  
Themes treated include the origins of the EC consumerism youth culture and protest immigration the oil crisis and its  
aftermath and the contrasting experience and expectations of the Nordic world and the Mediterranean south The book ends  
with the consequences of Soviet collapse Designed for general history students it assumes no formal knowledge of economics  
and is notably accessible and user friendly in its approach
