**The British Pacific Fleet Experience and Legacy, 1944-50** Dr Jon Robb-Webb, 2013-02-28 The British Pacific Fleet was formed in October 1944 and dispatched to fight alongside the USN in the Central Pacific under Admiral Nimitz Deploying previously unpublished documents this book reveals how relations between the UK and US forces developed from a starting point of barely repressed suspicion to one where both navies came to understand each other and eventually find a remarkable bond Born out of a shared experience of Kamikaze attacks extended operations against bitterly hostile shores the pooling of knowledge and experience the two navies underpinned the diplomatic moves in both Washington and London The book carries the legacy of this experience through to the next Anglo American participation in war Korea It illustrates and explains how and why certain lessons were incorporated into the composition behaviour and structure of the post war Navy It demonstrates the significance of what was learned from the USN by the RN and by USN from the RN As well as examining the background to the largest fleet the Royal Navy ever put to sea the book also charts its effects on Anglo American relations multinational operations alliance building and the ways naval forces are shaped by and in turn shape politics It addresses a period of rapid technological development that witnessed profound changes in the international system and which raised fundamental questions of what navies were for and how should they operate and organize themselves In so doing the study illustrates how the experience of a few long months at the end of the war in the Pacific would cast a long shadow over these issues in the very different circumstances of the post war world

**The Korean War in Britain** Grace Huxford, 2018-05-20 The Korean War in Britain explores the social and cultural impact of the Korean War 1950-53 on Britain Coming just five years after the ravages of the Second World War Korea was a deeply unsettling moment in post war British history From allegations about American use of germ warfare to anxiety over Communist use of brainwashing and treachery at home the Korean War precipitated a series of short lived panics in 1950s Britain But by the time of its uneasy ceasefire in 1953 the war was becoming increasingly forgotten Using Mass Observation surveys letters diaries and a wide range of under explored contemporary material this book charts the war's changing position in British popular imagination and asks how it became known as the Forgotten War It explores the war in a variety of viewpoints conscript POW protester and veteran and is essential reading for anyone interested in Britain's Cold War past

**United Nations Participants in the Korean War** Paul M. Edwards, 2013-09-10 When in 1950 the United Nations called upon its members to provide aid to South Korea more than forty nations responded Some of these sent troops which fought under the United Nations Command some sent commodities and medical supplies Some nations offered moral and political support but for a variety of reasons were not able to send aid This book looks at the nations involved what was behind their willingness to provide troops or aid or what prevented them from doing so The military contribution of the nations involved is discussed The combination of troops and their individual needs made the logistics of this enterprise difficult but in the end troops from 17 nations fought together to

defend the freedom of South Korea      The Korean War at Sixty Steven Casey, 2014-06-11 Korea used to be the forgotten war. Now however experts widely view it as a pivotal moment in the history of the Cold War while its legacy still scars contemporary East Asian politics. The sixtieth anniversary of the Korean War is a fitting time both to assess the current state of historiography on the conflict and to showcase new research on its different dimensions. This book contains six essays by leading experts in the field. These essays explore all aspects of the war from collective security and alliance relations to home front politics and historical memory. They are also international in scope focusing not just on the familiar Western belligerents but also on the actions of the two Koreas, China and the Soviet Union. These stimulating essays shed new light on various aspects of the Korean War experience as well as examining why the war remains so important to the politics of the region. This book was originally published as a special issue of *Journal of Strategic Studies*.

**A War of Patrols** William Johnston, 2011-11-01 The extended peace the world anticipated following the decisive Allied victory in the Second World War was abruptly shattered in June 1950 by the invasion of South Korea by communist North Korea. Responding to a United Nations call to assist the South Korean regime, Canada deployed an 8000 man brigade to the peninsula to fight as part of an American led UN force. This comprehensive account of the Canadian campaign in Korea provides the first detailed study of the training, leadership, operations and tactics of the brigade under each of its three wartime commanders as well as its relationship with American and Commonwealth allies. An impeccably researched analytical history, the book examines the uneven performance of the various Canadian units and argues that the soldiers of the Special Force initially sent to Korea were more thorough and professional in their operations than were the army's regular battalions that eventually replaced them at the front.

**The Imjin and Kapyong Battles** S.P. MacKenzie, 2013-03-12 An excellent history of a massive Communist offensive and the brigades that resisted it. H War. The sacrifice of the British regiment known as the Glorious Glosters in defense of the Imjin River line and the hilltop fights of Australian and Canadian battalions in the Kapyong Valley have achieved great renown. Using official and unofficial source material ranging from personal interviews to war diaries, this in depth study, the first of its kind, seeks to disentangle the mythology surrounding both battles and explain why events unfolded as they did. Based on thorough familiarity with all available sources, many not previously utilized, it sheds new light on fighting the forgotten war. In Korea, on the night of 22nd April 1951, communist forces unleashed what remains to this day their greatest offensive since Zhukov's storm on Berlin. In the desperate fighting that followed, the key flanks of free world forces were held by one British and one Commonwealth brigade. The former took on a Chinese army, the latter a Chinese division. Six decades later, an American historian has dismantled the barriers between Australian, British, Canadian and New Zealand accounts of those whirlwind days to compose the only comparative analysis of the tragedy on the Imjin and the stand at Kapyong.

Andrew Salmon, author of *Scorched Earth*, *Black Snow*, *Britain and Australia in the Korean War 1950*      The British Part in the Korean War Anthony Farrar-Hockley, 1995-01-01 How the United Kingdom became involved in the conflict

in Korea in 1950 and its efforts to unite a country torn apart is discussed in this two volume set Volume I describes Britain's reluctant partnership with the United States while Volume 2 details the battles and England's eventual withdrawal

**Allies in Air Power** Steven Paget, 2021-01-04 In the past century multinational military operations have become the norm but while contributions from different nations provide many benefits from expanded capability to political credibility they also present a number of challenges Issues such as command and control communications equipment standardization intelligence logistics planning tactics and training all require consideration Cultural factors present challenges as well particularly when language barriers are involved In **Allies in Air Power** experts from around the world survey these operations from the birth of aviation to the present day Chapters cover conflicts including World War I multiple theaters of World War II the Korean War the Vietnam War the Gulf War Kosovo the Iraq War and various United Nations peacekeeping missions Contributors also analyze the role of organizations such as the UN NATO and so called coalitions of the willing in laying the groundwork for multinational air operations While multinational military action has become commonplace there have been few detailed studies of air power cooperation over a prolonged period or across multiple conflicts The case studies in this volume not only assess the effectiveness of multinational operations over time but also provide vital insights into how they may be improved in the future

Spies a unique and essential addition to the history of the Cold War and the unrolling conflict between the United States and China that will dominate the 21st century      **War and Cold War in American Foreign Policy, 1942-62** D. Carter,R. Clifton,2001-12-04 Making use of newly researched archival material this collection of original essays on wartime and postwar US foreign policy re evaluates well known crises and documents many less familiar aspects of the nation s mid twentieth century conflicts Leading diplomatic historians address familiar subjects from new angles They offer new evidence about the risks run and the costs incurred in the prosecution of the Cold War from Korea to the Caribbean And they provide up to date accounting of mid twentieth century American diplomacy s global purposes and consequences      **The War for Korea, 1950-1951** Allan R. Millett,2021-09-07 In The War for Korea 1945 1950 A House Burning one of our most distinguished military historians argued that the conflict on the Korean peninsula in the middle of the twentieth century was first and foremost a war between Koreans that began in 1948 In the second volume of a monumental trilogy Allan R Millett now shifts his focus to the twelve month period from North Korea s invasion of South Korea on June 25 1950 through the end of June 1951 the most active phase of the internationalized Korean War Moving deftly between the battlefield and the halls of power Millett weaves together military operations and tactics without losing sight of Cold War geopolitics strategy and civil military relations Filled with new insights on the conflict his book is the first to give combined arms its due looking at the contributions and challenges of integrating naval and air power with the ground forces of United Nations Command and showing the importance of Korean support services He also provides the most complete and sympathetic account of the role of South Korea s armed forces drawing heavily on ROK and Korea Military Advisory Group sources Millett integrates non American perspectives into the narrative especially those of Mao Zedong Chinese military commander Peng Dehuai Josef Stalin Kim Il sung and Syngman Rhee And he portrays Walton Walker and Matthew Ridgway as the heroes of Korea both of whom had a more profound understanding of the situation than Douglas MacArthur whose greatest flaw was not his politics but his strategic and operational incompetence Researched in South Korean Chinese and Soviet as well as American and UN sources Millett has exploited previously ignored or neglected oral history collections including interviews with American and South Korean officers and has made extensive use of reports based on interrogations of North Korean and Chinese POWs The end result is masterful work that provides both a gripping narrative and a greater understanding of this key conflict in international and American history      **The US, the UN and the Korean War** Robert Barnes,2014-02-28 Military social and economic historians have long appreciated the significance of the conflict in Korea in shaping the post war world The policy of containment was formed China was established as an important military power and the US increased its military expenditure fourfold as a result of a conflict which killed over 33 000 Americans What has been less appreciated is the role played by the United Nations and the British Commonwealth in influencing US strategy at this time of crisis the Truman administration invested time and effort into gaining UN approval for the conflict in Korea and the course of the war was

adapted to keep UN allies often holding crucial strategic positions in other Cold War theatres in tow Robert Barnes develops a fresh perspective on these fluctuating relationships the tensions between Washington and its British Commonwealth allies and their impact on the direction of the conflict in order to challenge the common view that the United States was able to use its dominant position within the UN to pursue its Cold War ambitions with impunity This important new interpretation is supported by evidence from a wealth of sources from official government records to private papers and memoirs written by the most important American and Commonwealth personalities directly involved in shaping the UN's response to the conflict This study presents a thorough deconstruction of the decision making process behind US handling of the Korean War from the outbreak of conflict in 1950 to the Geneva Conference of 1954 This will be essential reading for students of International Relations Cold War Studies and modern History

**The Korean War in History** James Cotton, Ian Neary, 1989 Rolling the Iron Dice Scot Macdonald, 2000-07-30 Does history provide lessons for foreign policy makers today Macdonald combines cognitive psychology theories about analogical reasoning international relations theories about military intervention and original archival research to analyze the role of historical information in foreign policy decision making He looks at the role of historical analogies in Anglo American decision making during foreign policy crises involving the possible use of force in regional contingencies during a crucial period in the 1950s when the West faced an emerging Soviet threat This study analyzes the influence of situational and individual variables in a comparison of more than ten leaders from two nations facing four different crises Rolling the Iron Dice describes the often significant effect of historical analogies on perceptions of the adversary and of allies time constraints policy options and risks as well as the justification of policy in four crises the 1950 Korean invasion the 1951-53 Iranian oil nationalization incident the 1956 Suez crisis and the 1958 crisis in Lebanon and Jordan Contrary to both the slippery slope and the escalation models of military intervention Macdonald argues that leaders decide extremely early in a crisis often on the basis of an historical analogy but also based on perceptions of the rationality of an adversary whether to use military force Their decision does not change unless the adversary capitulates to every demand
