The British Prices And Incomes Board:

Managing the British Economy Richard Bailey, 2023-05-31 First published in 1968 *Managing the British Economy* attempts to trace the development of what has passed for economic planning in Britain in the 1960s and at the same time to observe the activities of those engaged in the operation and the effect of their actions on business and industry. In writing this book the author has had in mind the difficulties of businessmen in keeping track of who does what in the Economy. Experience in industry and in the field of management education has shown him that managers often have difficulties in placing their own operations in the national context and he attempts here to help the reader understand how the system works in practice. How do the new arrangements tie in with the old? How does any government influence the running of the economy? What kind of system are we moving towards? This is a must read for scholars and researchers of British economy and economic history of Britain. The British Prices and Incomes Board Allan Fels, 1972 *Industrial Pricing in the United Kingdom* K. J. Coutts, Kenneth Coutts, Wynne Godley, William Nordhaus, 1978-05-25 **State Intervention in British Industry, 1964-68** Frank Edward Broadway, 1970 The first comprehensive research based attempt to determine what has in fact been achieved by the measures and policies adopted and to forecast their continuing effects. *The Growth of Public Expenditure in the United Kingdom from 1870 to 2005* Clive Lee, 2011-12-13 Public expenditure has increased considerably in the UK from around ten per cent of GDP in the 1870s to forty per cent and above in the 21st century. Clive Lee explores the fluctuations in state spending highlighting the ongoing political conflict over the size and extent of welfare provision. A Bibliography of Industrial Relations G. S. From Dreams to Disillusionment Glen O'Hara, 2006-11-14 From Dreams to Disillusionment is the first book to cover the planning experiment of the 1960s in full historical detail Other countries planners made the approach seem successful however the experiment eventually failed doomed to disappoint given unrealistic expectations lack of time and an overburdened government Britain's Economy Aubrey Jones, 1985-11-21 It has long been recognised that Britain has declined relatively to other countries although there are differences of view both on the beginning of the decline and its causes The author pinpoints two causes first a technological inferiority which has resulted in the country's exporting goods of poorer quality and importing goods of higher quality secondly the tendency for an upward pressure on incomes from a society of political equals where each individual has expectations of a level of income reasonably comparable with others The claims of different groups are easily accommodated in a semi monopolistic industrial structure and are passed on in higher prices Keynes recognised the latter problem of cost push but his intellectual revolution was not accompanied by a change of institutions which continued to act in accordance with an earlier tradition The present Government has reached a false diagnosis in ascribing the country's problems to too much money It has therefore worsened the situation and weakened such hopes as there were of improvement British Railways 1948-73 T. R. Gourvish, N. Blake, 1986 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board's extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948-2 Railway Executive 1948-53 and British Railways Board 1963-73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948-73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war **Wage Controls in Canada, 1975-78** Allan M. Maslove, Gene Swimmer, 1980 Industrial Conflict in Britain S.W. Managing the Economy, Managing the People Jim Tomlinson, 2017 This study offers a distinctive new account of British economic life since the Second World War focussing upon the ways in which successive governments in seeking to manage the economy have sought simultaneously to manage the people to try and manage popular understanding of economic issues In doing so governments have sought not only to shape expectations for electoral purposes but to construct broader narratives about how the economy should be understood The starting point of this work is to ask why these goals have been focussed upon and differentially over time how they have been constructed to appeal to the population and insofar as this can be assessed how far the population has accepted these narratives The first half of the book analyses the development of the major narratives from the 1940s onwards addressing the notion of austerity and its particular meaning in the 1940s the rise of a narrative of economic decline from the late 1950s and the subsequent attempts to modernize the economy the attempts to roll back the state from the 1970s the impact of ideas of globalization in the 1990s and finally the way the crisis of 2008 9 onward was constructed as a problem of debts and deficits The second part of the book focuses on four key issues in attempts to manage the people productivity the balance of payments inflation and unemployment It shows how in each case governments sought to get the populace to understand these issues in a particular light and shaped strategies to that end
