Alderton, Seafarers International Research Centre, International Labour Office, 2004 This volume offers a systematic account of the effects of globalization on the shipping industry and seafarers lives The seafarers labor market is changing rapidly and this study discusses the challenges encountered in recruitment practices trade unions and collective bargaining as well as training certification and fraudulent certification Wages contracts and tours of duty are also investigated and the book includes in depth treatment of seafarer safety and hazard exposure Innovations such as automated engine rooms and the global maritime distress and safety system the internationalization of ship registrations multinational crewing and reductions in crewing levels and the rise in ship management companies have had a profound effect on seafarers living and working conditions This perceptive book examines these and future issues for regulation and enforcement *The British Seafarer Discovered* Michael Mason, Basil Greenhill, Robin Craig, 1980 Imperial Heartland David Holland, 2023-08-17 Working class Britons played a crucial role in the pioneering settlement and integration of South Asians in imperial Britain Using a host of new and neglected sources Imperial Heartland revises the history of early South Asian immigration to Britain focusing on the northern English city of Sheffield Rather than viewing immigration through the lens of inevitable conflict this study takes an alternative approach situating mixed marriages and inter racial social networks centrally within the South Asian settlement of modern Britain Whilst acknowledging the episodic racial conflict of the early inter war period David Holland challenges assumptions that insurmountable barriers of race religion and culture existed between the British working classes and non white newcomers Imperial Heartland closely examines the reactions of working class natives to these young South Asian men and overturns our pre conceptions that hostility to perceived racial or national difference was an overriding pre occupation of working class people during this period Imperial Heartland therefore offers a fresh and inspiring new perspective on the

social and cultural history of modern Britain **Maritime Labour** Richard Gorski, 2007 This is a collection of soundings into various aspects of the history of maritime labor from the close of the Middle Ages to the present The spatial emphasis of the essays is north European and Atlantic since they deal with the countries around the North Sea and Baltic with some coverage of North America Indeed from time to time the authors leave the sea behind in order to examine broader issues such as labor markets the regulation and institutions of seafaring and industrial relations on the waterfront But at all points there is a common theme of sea related labor and a common objective of better understanding what have often been perceived as difficult and elusive groups of people *Maritime Insurance, Risk, and Seafarer Security* Jessica Kate Simonds, 2025-05-23 This book explores the complex interplay between maritime insurance and piracy in the Indian Ocean a crucial global trade route Drawing on rich oral histories this work delves into the lives of seafarers and insurance experts who confront the harsh realities of Somali piracy Through a series of compelling case studies including the notorious Maersk Alabama hijacking the book sheds light on the evolving role of maritime insurers as they navigate the precarious waters of risk management It highlights how these companies not only provide financial protection but also shape maritime security practices transforming the sea into a managed space of governance Spanning a geographical range from the Horn of Africa to global maritime hubs the book emphasises the human cost of piracy and the often overlooked experiences of those at sea Bridging between historical cases and contemporary challenges the book advocates a deeper understanding of the maritime landscape Furthermore by exploring the perspectives of seafarers the book provides a unique insight into the emerging challenges faced at sea and the importance of safety in moments of maritime insecurity This book will be of much interest to students of maritime security naval policy the history of insurance and international relations **Shipping Lords and Coolie Stokers** Ravi Ahuja, 2024-12-31 A TRAGIC SHIPPING ACCIDENT OPENS A WINDOW ON RACIALIZED LABOUR MANAGEMENT IN AN AGE OF IMPERIALISM When eighty seven passengers and crew died in the shipwreck of the Royal Mail ship Egypt in 1922 the accident gave rise to a racist international press campaign against the employment of Indian seafarers such as those who made up most of the ship's crew This was not unusual at a time when a fifth of the British mercantile marine's workforce was recruited from the subcontinent Ravi Ahuja explains the business logic behind a labour regime steeped in racist irrationalism and examines the scope for solidarity among a divided workforce in an age of imperialism an issue that is no less relevant in our own time *The Maritime and Coastguard Agency's Response to Growth in the UK Merchant Fleet* Great Britain. National Audit Office, 2009 This report focuses on how the Maritime and Coastguard Agency has responded to growth in the UK registered merchant shipping fleet The Agency is responsible for maintaining the safety security and environmental standards of commercial vessels flying the UK flag In 2000 the Government introduced tonnage tax as part of package of measures designed to reverse the long term decline in the UK registered merchant shipping fleet Tonnage tax allows a company operating a vessel controlled from the UK to opt to pay tax on the basis of its tonnage rather than the profit

on the vessel s trading activities Since then the number of merchant vessels joining the UK Ship Register has increased from 1 050 vessels in 2000 to 1 518 by the end of 2007 The Agency responded with measures such as delegating to classification societies more of the survey work on vessel structure and equipment It retains the survey work related to safety management systems and all the inspection work Since 2000 it has met or exceeded most of its targets for this work with fewer marine surveyors than during the 1990s In 2007 08 for the first time the Agency missed some of its targets for inspections of UK vessels The risk is that vessels not complying with UK and international regulations will operate without detection The Agency faces challenges as its capacity to meet ship inspection targets is stretched international competition for skilled mariners intensifies and competing flags improve their performance eroding the UK s quality advantage The report concludes that despite these challenges the Agency s achievement in supporting the growth of the merchant fleet without significant extra resources has been an efficient use of taxpayer s money
