Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA's mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill **Ethnography, Linguistics, Narrative Inequality** Dell

Hymes,2003-09-02 This collection of work addresses the contribution that ethnography and linguistics make to education and the contribution that research in education makes to anthropology and linguistics The first section of the book pinpoints characteristics of anthropology that most make a difference to research in education The second section describes the perspective that is needed if the study of language is to contribute adequately to problems of education and inequality Finally the third section takes up discoveries about narrative which show that young people's narratives may have a depth of form and skill that has gone largely unrecognized *World Englishes* Kingsley Bolton,Braj B.
