This book is devoted to the study of the bilingual parallel poems of Ludwig Strauss Aachen 1892 Jerusalem 1953 created between 1934 and 1952 in Palestine Israel and which exist in two variants: a Hebrew and a German version, one of which is the original and the other a self-translation. The aim of this study is to compare the versions and their interpretation based on Strauss's theoretical essays on poetry and translation, his political writings, and works of literary criticism. Special attention is paid to Strauss's concept linked with the idea of messianic redemption of poetry as a foreimage of a future true community of men and as the earthly expression of the Absolute directed at interpreting divine revelation and its translation into human language. In examining Strauss's experiments with self-translation by which he aimed at establishing a dialogue between languages and between people and nations, this study considers the two processes of translation: from divine speech into human language and from one human language into another.

3D Game Textures Luke Ahearn, 2014-08-01

A broadly enhanced new edition of Luke Ahearn's cornerstone game art book *3D Game Textures* is here. When digital art software was in its infancy, most digital art, especially vector art, was textureless. With the advance in software, it is now possible to incorporate texture into most types of digital art. However, if the artists cannot build their own textures, they are limited to using commercial textures. In this enhanced 3rd edition of Luke Ahearn's gem of a book, not only does Luke teach you how to create your own unique textures, he also teaches how to create shaders, the visual effects, reflections, refractions, opacity, that make textures come to life, and materials, collections of shaders that fill well together to map to a particular scene or environment. You can now expand your skill set immeasurably and create more compelling, varied art work from scratch. Unlike anything on the market, this book provides an in-depth guide to game textures, shaders, and materials with hundreds of high-quality examples. The companion website includes demo versions of relevant software, resource images, all images from the book.

Murm'ring of the Heart Olivia Villa-Real,2015-11-18 In this fast paced world of science and technology we have set ourselves to a never ending race with time Weve lost our capacity to enjoy the simple pleasures in life We have dulled our senses from appreciating the wild flowers along our way that flaunt their beauty and waft their fragrance on the breeze We cast our vision hurriedly past the inviting pathways into the deep woods that eagerly entice us to take a moments rest Lest we become robots devoid of feeling machineries unable to experience bliss we must elevate ourselves from the mundane to such loftiness of spirit as will enable us to experience and enjoy the true essence of life This book offers us a sanctuary to rest our weary body and spirit and its poetry allows us to feel the realities within ourselvestoo often missed yet are far richer than the physical realities around us that are too commonplace and barren to appreciate The poems tug at the root of our being awakening the treasures lurking within us little gems too inspiring to miss and too beautiful to forget This book is a window into my soul the anima within me that gives me life It is the true reality of my existence more than the reality of my physical being It is beyond what my intellect can reach and what my emotions can inspire My poetry which includes my songs is the fresh breath of my soul it is the raw expression of what is at my core borne in the spur of the moment and perfected by inspiration It is therefore in a spirit of love and absolute trust that I welcome you into this sanctuary of my soul since I render myself bare naked and vulnerable as I put you in touch with my true reality which is devoid of fear pretenses inhibitions as well as self serving needs or purpose Report on Light-house Construction and Illumination F.
