The Cardboard Crown:

The Cardboard Crown Martin Boyd, 1952 **The Cardboard Crown** Clyde Robert Bulla, 1984 The life of an eleven year old farm boy is changed when he meets an enchanting young stranger from the city the princess with the cardboard crown The Cardboard Crown. (Revised Edition.), 1964 **The Cardboard Crown**, 1972 **The Cardboard Crown: Text Classics** Martin Boyd, 2012-10-24 Set in Australia and England in the late nineteenth and early twentieth century The Cardboard Crown presents an unforgettable portrait of an upper middle class family who love both countries but are not quite at home in either Martin Boyd is a deeply humane novelist a writer of family sagas without peer *The Cardboard Crown by Martin Boyd* Maria Grazia Boksich, 1973 *The Cardboard Crown by Martin Boyd [book Review]* Gillian Dooley, 2004 **Martin Boyd** Brenda Niall, 2004-06-15 Martin Boyd was one of the generation whose lives were changed by World War I He served in a British regiment survived the trenches in 1916 17 and joined the Royal Flying Corps The pacifist beliefs which emerged from that war experience are central to his fiction as they were to his life Boyd s was a complex personality witty generous sociable yet deeply reserved He looked for his home of the spirit in many places an Anglican monastery London s West End clubland a Cambridge village and an old family house in Harkaway Victoria and among English expatriates in Rome In a fine study of a man and his work Brenda Niall re creates the Melbourne in which Boyd grew up just before World War I and traces his development as a writer during his restless expatriate years **Bruno Latour** Gerard de Vries, 2018-02-12 Bruno Latour is among the most important figures in contemporary philosophy and social science His ethnographic studies have revolutionized our understanding of areas as diverse as science law politics and religion To facilitate a more realistic understanding of the world Latour has introduced a radically fresh philosophical terminology and a new approach to social science Actor Network Theory In seminal works such as *Laboratory Life We Have Never Been Modern* and *An Inquiry into Modes of Existence* Latour has outlined an alternative to the foundational categories of modern western thought particularly its distinction between society and nature that has major consequences for our understanding of the ecological crisis and of the role of science in democratic societies Latour s empirical philosophy has evolved considerably over the past four decades In this lucid and compelling book Gerard de Vries provides one of the first overviews of Latour s work He guides readers through Latour s main publications from his early ethnographies to his more recent philosophical works showing with considerable skill how Latour s ideas have developed This book will be of great value to students and scholars attempting to come to terms with the immense challenge posed by Latour s thought It will be of interest to those studying philosophy anthropology sociology science and technology studies and almost all other branches of the social sciences and humanities *Memoirs of A Revolutionist* Peter Kropotkin, 2020-09-28 When the first edition of this book was brought out at the end of 1899 it was evident to those who had followed the development of affairs in Russia that owing to the obstinacy of its rulers in refusing to make the necessary concessions in the way of political freedom the country was

rapidly drifting towards a violent revolution But everything seemed to be so calm on the surface that when a few of us expressed this idea we were generally told that we merely took our desires for realities At the present moment Russia is in full revolution The old system is falling to pieces and amidst its ruins the new one is painfully making its way Meanwhile the defenders of the past are waging a war of extermination against the country a war which may prolong their rule for a few additional months but which raises at the same time the passions of the people to a pitch that is full of menaces and danger Looked upon in the light of present events the early movements for freedom which are related in this book acquire a new meaning They appear as the preparatory phases of the great breakdown of a whole obsolete world a breakdown which is sure to give a new life to nearly one hundred and fifty million people and to exercise at the same time a deep and favourable influence upon the march of progress in all Europe and Asia It seems necessary therefore to complete the record of events given in this book by a rapid review of those which have taken place during the last seven years and were the immediate cause of the present revolution The thirteen years of the reign of Alexander III 1881 1894 were perhaps the gloomiest portion in the nineteenth century history of Russia Reaction had been growing worse and worse during the last few years of the reign of his father with the result that a terrible war had been waged against autocracy by the Executive Committee which had inscribed on its banner political freedom After the tragic death of Alexander II his son considered it his duty to make no concessions whatever to the general demand of representative government and a few weeks after his advent to the throne he solemnly declared his intention of remaining an autocratic ruler of his Empire And then began a heavy silent crushing reaction against all the great inspiring ideas of Liberty which our generation had lived through at the time of the liberation of the serfs a reaction perhaps the more terrible on account of its not being accompanied by striking and revolting acts of violence but slowly crushing down all the progressive reforms of Alexander II and the very spirit that bred these reforms and turning everything including education into tools of a general reaction Sheer despair got hold of the generation of the Russian intellectuals who had to live through that period The few survivors of the Executive Committee laid down their arms and there spread in Russian intellectual society that helpless despair that loss of faith in the forces of the intellectual that general invasion of common place vulgarity which Tch khoff has pictured with such a depressing sadness in his novels
