Doulas and Intimate Labour: Boundaries, Bodies and Birth Angela N. Casaneda, 2015-12-01 Scholars turn to reproduction for its ability to illuminate the practices involved with negotiating personhood for the unborn the newborn and the already existing family members community members and the nation The scholarship in this volume draws attention to doula work as intimate and relational while highlighting the way boundaries are created maintained challenged and transformed Intimate labour as a theoretical construct provides a way to think about the kind of care doulas offer women across the reproductive spectrum Doulas negotiate boundaries and often blur the divisions between communities and across public and private spheres in their practice of intimate labour This book weaves together three main threads doulas and mothers doulas and their community and finally doulas and institutions The lived experience of doulas illustrates the interlacing relationships among all three of these threads The essays in this collection offer a unique perspective on doulas by bringing together voices that represent the full spectrum of doula work including the viewpoints of birth postpartum abortion community based adoption prison and radical doulas We privilege this broad representation of doula experiences to emphasize the importance of a multi vocal framing of the doula experience As doulas move between worlds and learn to live in liminal spaces they occupy space that allows them to generate new cultural narratives about birthing bodies

Men and Maternity Rosemary Mander, 2004-08-02 Since the development of modern medicine men have become increasingly involved

in childbearing as obstetricians and more recently as fathers This book argues that the beneficial contribution of men has been taken for granted Certain changes to childbearing practice have resulted which together with men s involvement have been encouraged without any reference to evidence and without adequate opportunity for reflection Considering the findings of recent research and wider literature and using qualitative research with mothers the text examines how men became increasingly involved in childbearing the medicalisation of childbirth the difficulties men experience with childbirth as fathers challenging situations such as fathers grief the taken for granted assumptions that men s increased contribution to childbearing is beneficial This text will be of great interest to academics and postgraduate students of midwifery obstetrics medicine and health studies as well as practising midwives and obstetricians health visitors childbirth educators and labor and delivery room nurses

Caesarean Rosemary Mander,2007-05-21 This book critically analyzes the place of caesarean in childbearing at the beginning of the twenty first century It questions the changes that are taking place in childbirth and in particular the effects and implications of an increase in caesarean births This controversial work by a practising midwife and researcher includes discussion of the context of the operation and description of it health systems around the world and their caesarean incidence rates decision making and cultural medical constraints the short and long term implications of caesarean for baby and mother Using up to date research Rosemary Mander bases her argument on a firm evidence base and argues that the rapidly rising caesarean section rate may not be for the benefit of either the woman giving birth or her baby Rather the beneficiaries may actually be those professionals whose investment is in extending the range of their influence and thus increasing the medicalization of normal life

Community-based Maternity Care Geoffrey Marsh,Mary Renfrew,1998-10-22 This important book makes the case for placing maternity care in the community It has been written by a multidisciplinary group The first section considers the role and function of the participants in community based maternity care the woman the midwife and the GP The second section discusses four major contemporary issues the radically changing social background the economics of care audit and education of the carers Next the major clinical challenges in maternity care are tackled how to reduce the differences in morbidity and mortality which are associated with differences in age social class and ethnicity the care of disadvantaged groups prematurity and low birth weight and their prevention technology used in childbirth and the fetal origins of adult disease Finally all aspects of the clinical care carried out by Gps and midwives are covered The editors hope that after reading this book midwives Gps and obstetricians should find the theory underpinning their work has been sharply defined and that their work will be more effective and evidence based The editors a GP and a midwife anticipate the resolution of the current tensions between midwife GP and obstetrician and look forward to a responsive effective and sensitive service for mothers and babies in the next millennium

Place and Professional Practice Gavin J. Andrews,Emma Rowland,Elizabeth Peter,2021-01-04 This book presents the first single comprehensive analysis of the scope of geographical realities and relevance in health care work Conceptually the book conveys how space

place and geographical ideas matter to clinical practice from the historical beginnings of professional roles and responsibilities in medicine to the present day In 8 chapters the book covers healthcare work across a range of job types including physician nurse and multiple technical and therapeutic roles in multiple specialties and across a range of scales focusing on global issues and trends national and regional particularities urban and rural issues institutional environments and various community settings This book is intended for students teachers and researchers in geography social science and various health sciences Chapter 1 examines how geographical ideas have been central to practitioners thinking and practice over time Chapter 2 reviews the scope of contemporary geographical study of health care work Chapter 3 presents an empirical case study of the geographies in hospital based ward work Chapter 4 presents an empirical case study of the geographies in ambulance rapid response work Chapter 5 presents a case study of the geographies associated with a high profile case of criminality and neglect in practice Chapter 6 considers concepts and the geographies in person centred care Chapter 7 considers concepts and the geographies in skills attainment

Adoption and Healing, 1997 *Becoming a Mother* Mari Gallagher, 2018-12-28 *Becoming a Mother* is the first book published in Ireland exploring the complexity of adoption from the perspective of an adoptive parent It draws on a combination of seminal and modern texts and personal memoir to present a unique view of what it means to be an adoptive parent in Ireland today The book has a particular focus on intercountry adoptive parenting and also looks at adoption from the viewpoints of the adopted person and birth parent A dearth of literature exploring adoption exists on Irish bookshelves *Becoming a Mother* seeks to fill that void by exploring issues around the topic of adoption the secrecy and silence that still pervades adoption the primal desire to parent that drives adoptive parenting the tumultuousness of search and reunion and more It includes shared experiences and tips on bonding with the adopted child as well as a look at parenthood for the adopted person *Becoming a Mother* will be of interest to the estimated 10 per cent of the Irish population connected to adoption in some way including the 5 000 children who were adopted from abroad The book has been included as essential reading on preparatory courses for prospective adoptive parents and also on Barnardos post adoptive service reading list

Beating the Adoption Odds Cynthia D. Martin, Dru Martin Groves, 1998 Comprehensive authoritative and proactive *Beating the Adoption Odds* is the indispensable manual for both those considering adoption and those working in the adoption field

Myles Textbook for Midwives Diane Fraser, Margaret A. Cooper, 2003 The new edition of this market leading textbook builds on the strengths of the previous edition Completely updated and revised it provides the most up to date perspectives and research on a complete range of the theoretical practical and background concepts with which modern midwives should be familiar In addition it offers numerous summary boxes and flowcharts and provides clear guidance on how to critically appraise valuable research

Midwifery Practice Jo Alexander, Valerie Levy, Carolyn Roth, 1999-11-11 The latest volume in this series revisits topics particularly pertinent to the postnatal period It makes a timely contribution to the literature in the context of recent developments in the

organisation of midwifery care the emphasis on woman centred care and empowerment and the reclaiming by midwives of the normal birth and puerperium **Midwives** ,1996 Corporealities Body Project,2004 **American Book Publishing Record** ,1996 *The Psychology of Adoption* David M. Brodzinsky Associate Professor of Developmental and Clinical Psychology Rutgers University, Marshall D. Schechter Professor of Child and Adolescent Psychiatry University of Pennsylvania School of Medicine (Emeritus),1990-04-12 In this volume David Brodzinsky who has conducted one of the nation s largest studies of adopted children and Marshall Schechter a noted child psychiatrist who has been involved with adoption related issues for over forty years have brought together a group of leading researchers from various disciplines to explore the complex interdisciplinary subject of adoption While recent empirical work has shown that adopted children are more vulnerable to a host of psychological and school related problems compared to their nonadopted peers and that the rate of referral of adopted children to mental health facilities is far above what would be expected given their representation in the general population our understanding of the basis for these problems remains unclear In this book theoretical empirical clinical and social policy issues offer new insights into the problems facing parents of adopted children and especially the children themselves A comprehensive study *The Psychology of Adoption* will be of interest to child psychiatrists developmental and clinical psychologists social workers social service providers and adoptive parents *The Emotional Experience of Adoption* Debbie Hindle, Graham Shulman,2008-04-10 This book demonstrates how psychoanalytic understanding and treatment can contribute to thinking about and working with adopted children and their families It illustrates how psychoanalytic psychotherapy can help both as a treatment and as a distinctive source of understanding for children who are either in the process of being adopted or already adopted
