

THE CROWNING EPIC OF GORGIK THE LIBERATOR

Warrior, statesman, lover, his bold crusades and daring visions banish slavery throughout the ancient empire of Neveryon. Legends of his might and mystery reach the fabled Bridge of Lost Desire—as broken dreams and cherished hope rule those still chained to their own desires....

Grand master Samuel Delany at last reveals the full story of Gorgik, hero of a time long ago—yet a time not so far removed from our own.

"Delany is a master...these new "Neveryon" stories continue to reveal the power of fantasy to express truths of the mind and heart." —*Locus*

"An intricate meditation on the nature of freedom and slavery, of the beguiling differences between love and lust...polished by wit and intellect that fairly gleams." —*San Francisco Chronicle*

Queer Experimental Literature Teagan Bradway, 2017-05-09 This volume argues that postwar writers queer the affective relations of reading through experiments with literary form Tyler Bradway conceptualizes bad reading as an affective politics that stimulates queer relations of erotic and political belonging in the event of reading These incipiently social relations press back against legal economic and discursive forces that reduce queerness into a mode of individuality Each chapter traces the affective politics of bad reading against moments when queer relationality is prohibited obstructed or destroyed from the pre Stonewall literary obscenity debates through the AIDS crisis to the emergence of neoliberal homonormativity and the gentrification of the queer avant garde Bradway contests the common narrative that experimental writing is too formalist to engender a mode of social imagination Instead he illuminates how queer experimental literature uses form to redraw the affective and social relations that structure the heteronormative public sphere Through close readings informed by affect theory Queer Experimental Literature offers new perspectives on writers such as William S Burroughs Samuel R Delany Kathy Acker Jeanette Winterson Eve Kosofsky Sedgwick Alison Bechdel and Chuck Palahniuk Queer Experimental Literature ultimately reveals that the recent turn to affective reading in literary studies is underwritten by a para academic history of bad reading that offers new idioms for understanding the affective agencies of queer aesthetics

Gender, Race, and American Science Fiction Jason Haslam, 2015-05-08 This book focuses on the interplay of gender race and their representation in American science fiction from the nineteenth century through to the twenty first and across a number of forms including literature and film Haslam explores the reasons why SF provides such a rich medium for both the preservation of and challenges to dominant mythologies of gender and race Defining SF linguistically and culturally the study argues that this mode is not only able to illuminate the cultural and social histories of gender and race but so too can it intervene in those histories and highlight the ruptures present within them The volume moves between material history and the linguistic nature of SF fantasies from the specifics of race and gender at different points in American history to larger analyses of the socio cultural functions of such identity categories SF has already become central to discussions of humanity in the global capitalist age and is increasingly the focus of feminist and critical race studies in combining these earlier approaches this book goes further to demonstrate why SF must become central to our discussions of identity writ large of the possibilities and failings of the human past present and future Focusing

on the interplay of whiteness and its various others in relation to competing gender constructs chapters analyze works by Nathaniel Hawthorne Mary E Bradley Lane Edgar Rice Burroughs Philip Francis Nowlan George S Schuyler and the Wachowskis Frank Herbert William Gibson and Octavia Butler Academics and students interested in the study of Science Fiction American literature and culture and Whiteness Studies as well as those engaged in critical gender and race studies will find this volume invaluable

The A to Z of Fantasy Literature Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites
