Hermann Goering in the First World War Blaine Taylor , 2017-05-17 When modern readers think of Hermann Goering what probably comes to mind is the overweight drug addict and convicted war criminal who cheated the hangman's noose at Nuremberg by committing suicide just hours before he was due to die Or perhaps there is the image of his powerful German air force in the Second World War the Luftwaffe bombing defenceless European cities and towns in the early part of the war until it was defeated by the Royal Air Force in the epic Battle of Britain Perhaps the reader might think of Goering the debauched art collector who pirated captured collections all over Nazi Europe during the Occupation years All of these images are correct but here we see another Hermann Goering the slim dashing fighter pilot and combat ace of an earlier struggle the Great War of 1914-18 which he began as an infantry officer fighting the French Army in the 1914 Battle of the Frontiers During a hospitalization his friend Bruno Lorzer convinced him to become an aerial observer photographer photographing the mighty French fortress of Verdun He did and began these never before seen personal photo albums of men and aircraft at war up close This remarkable book the first of an intimate series of photographic diaries is a unique photographic record of the early years of this notorious figure Illustrations 348 black and white photographs

The Second World War in the Twenty-First-Century Museum Stephan Jaeger, 2020-02-24 The Second World War is omnipresent in contemporary memory debates As the war fades from living memory this study is the first to systematically analyze how Second World War museums allow prototypical visitors to comprehend and experience the past It analyzes twelve permanent exhibitions in Europe and North America including the Bundeswehr Military History Museum in Dresden the Museum of the Second World War in Gdańsk the House of European History in Brussels the Imperial War Museums in London and Manchester and the

National WWII Museum in New Orleans in order to show how museums reflect and shape cultural memory as well as their cognitive ethical emotional and aesthetic potential and effects This includes a discussion of representations of events such as the Holocaust and air warfare In relation to narrative memory and experience the study develops the concept of experientiality on a sliding scale between mimetic and structural forms which provides a new textual spatial method for reading exhibitions and understanding the experiences of historical individuals and collectives It is supplemented by concepts like transnational memory empathy and encouraging critical thinking through difficult knowledge

The Official Index to The Times ,1914 *Violence against Prisoners of War in the First World War* Heather Jones,2011-06-02 In this groundbreaking study Heather Jones provides the first in depth and comparative examination of violence against First World War prisoners She shows how the war radicalised captivity treatment in Britain France and Germany dramatically undermined international law protecting prisoners of war and led to new forms of forced prisoner labour and reprisals which fuelled wartime propaganda that was often based on accurate prisoner testimony This book reveals how during the conflict increasing numbers of captives were not sent to home front camps but retained in western front working units to labour directly for the British French and German armies in the German case by 1918 prisoners working for the German army endured widespread malnutrition and constant beatings Dr Jones examines the significance of these new violent trends and their later legacy arguing that the Great War marked a key turning point in the twentieth century evolution of the prison camp

Country Life, 1989 War Stories III Oliver North, 2012-03-28 It was the Greatest Generation's greatest moment when heroes at home and abroad united in common purpose as soldiers sailors airmen and Marines under the leadership of generals like Patton Eisenhower Marshall and Bradley rescued Europe from the tyranny and genocide of Adolf Hitler *In War Stories III The Heroes Who Defeated Hitler* Marine combat veteran Lt Col Oliver North gives you a chance to revisit the front lines Using dramatic first person testimony North reveals The reality of combat how it felt to live through the Battle of Britain as a citizen and a pilot on the ground and in the air The stories of Yanks in the RAF how Americans fought Hitler before Pearl Harbor America's first taste of battle in North Africa against the Germans and the French A date with destiny men and women who joined up together to fight for liberty The saga of war on the home front how women faced enormous challenges in America Russia and Britain and helped win the war Featuring extended interviews with veterans that cover the war in Europe from beginning to end *War Stories III The Heroes Who Defeated Hitler* is a testament to the courage and sacrifice of the World War II generation a remembrance of the bravery and honor of these heroes **Air and Sea**

Power in World War I Maryam Philpott, 2013-05-30 The Great War tore the fabric of Europe apart killing over 35 million men and challenging the notion of heroism in war *Air and Sea Power in World War I* focuses on the experience of World War I from the perspective of British pilots and sailors themselves to demonstrate that the army centric view of war studies has been too limited The Royal Flying Corps created in 1912 adapted quickly to the needs of modern warfare driven by the enthusiasm of its men In contrast the lack of modernisation in the Royal Navy despite the unveiling of HMS Dreadnought in 1906 undermined Britain's dominance of the seas By considering five key aspects of the war experience this book analyses

how motivation was created and sustained What training did men receive and how effectively did this prepare them for roles that were predominantly non combative How was motivation affected by their individual relationship with weaponry development and how different was defensive service on the Home Front when in close proximity to ordinary civilian life Finally Air and Sea Power in World War I looks at the changing reputation of the services during and after the conflict and the extent to which these notions were created by the memoirs of pilots and sailors Featuring new primary source material including the journals of service men themselves this book will be essential reading for students and scholars of World War I and of Naval Aviation and Military History **Air Power in the Age of Total War** John Buckley,2006-05-09 Warfare in the first half of the 20th century was fundamentally and irrevocably altered by the birth and subsequent development of air power This work assesses the role of air power in changing the face of battle on land and sea Utilizing late 1990s research the author demonstrates that the phenomenon of air power was both a cause and a crucial accelerating factor contributing to the theory and practice of total war For instance the expansion of warfare to the homefront was a direct result of bombing and indirectly due to the extent of national economic mobilization required to support first rate air power status In addition the move away from the principle of total war with the onset of the Cold War and the replacement of air power by ICBMs is thoroughly examined This work should provide students of international history war studies defence and strategic studies with an insight into 20th century warfare **Soldiers' Stories of the War** Walter Wood,1915 *Books* ,1989
