The Broken Angel Myth And Method In Valéry:

The Broken Angel Ursula Franklin, 1984 *The Broken Angel* Ursula Franklin, 1984 *The Broken Angel* is the first book length examination of a mythopoetic configuration that pervades Valéry's entire textual universe. The Angel is linked to almost every one of its themes and informs all of its modes which in turn form and deform it. In delineating the textual traces of these transformations and the construction and destruction of the symbolic figure inherited from tradition, Franklin links its configurations to Valéry's method of composition: the weaving of anterior segments into texts many of which remain open ended and fragmentary. She shows how the broken form of Valéry's texts on the Angel is conditioned by the very tensions inherent in the theme. These tensions are disclosed by a reading that also reveals the existential situation and psychological predispositions of an Ego scriptor whose Broken Angel emerges from broken texts. **The Broken Angel** Ursula Franklin,

Angels George J. Marshall, 2015-08-13 In the 1990s alone more than 400 works on angels were published adding to an already burgeoning genre. Throughout the centuries angels have been featured in among others theological works on scripture studies in comparative religions works on art architecture and music philological studies philosophical sociological anthropological archeological and psychological works and even a psychoanalytical study of the implications that our understanding of angels has for our understanding of sexual differences. This bibliography lists 4 355 works alphabetically by author. Each entry contains a source for the reference often a Library of Congress call number followed by the name of a university that holds the work. More than 750 of the entries are annotated. Extensive indexes to names subjects and centuries provide further utility. **Celluloid Saviours** Emily Caston, 2020-05-22 In *Celluloid Saviours* the author analyses a corpus of US films dating from the silent era that she calls film blanc. In these fantasy films a guardian spirit with extraordinary powers suspends the ordinary known laws of time and space and a main character reforms himself or herself in life changing ways.

The author argues that the historical pattern of film blanc relates to the rise and fall of liberal and reform thought in US politics specifically to conceptions of human nature as a tabula rasa. This conception is evident both in the early feature films featuring angels such as Chaplin's *The Kid* and much later examples such as the 1980s box office hit *Trading Places*. She argues that this narrative tradition runs from Hollywood's beginnings to the present day and is foreshadowed in the English ghost stories of Charles Dickens. The classic era of film blanc is epitomised in the enduringly popular film *It's a Wonderful Life*. More recent examples of narrative form analysed by Caston include *The Truman Show* and *Eternal Sunshine of the Spotless Mind*. *Biographical Dictionary of North American and European Educationists* Richard Aldrich, Peter

Gordon, 2023-05-09 This is a guide to the lives and work of more than 500 Americans, Canadians and Europeans in the categories subsumed under the term educationists. Entries are almost entirely restricted to those with main careers in the 19th and 20th centuries; none of the subjects is still living. **Paul Valéry: Dichtung und Prosa** Paul Valéry, 2023-04-02

Exiles and Ironists Ursula Franklin, 1988 This study examines the literary and intellectual kinship between Heinrich Heine who wrote most of his mature work in France and Jules Laforgue who wrote most of his poetry and prose in Germany Both expatriate poets mark the end of literary traditions which they revolutionized Heine transformed German Romantic Laforgue French Symbolist poetry and their innovative voices were to have repercussions far beyond their own times and national traditions Since Laforgue himself repeatedly paid tribute to his German master the intertextual link between the poets has become a critical commonplace And though there are numerous books on Heine's influence on French poets and though most of Laforgue's commentators mention Heine there exists to date no documented comparative study on Heine and Laforgue These essays a first thorough comparative examination address themselves to filling the gap
