## **The Burden Of The Past And The English Poet:**

The Burden of the Past and the English Poet Walter Jackson Bate, 1970 In this reissue of a classic work in modern literary criticism W Jackson Bate presents a thoughtful and informed investigation of the responses of English writers to the perennial dilemma of modern literature concentrating especially on the period between 1660 and 1830 **The Burden of the Past And the English Poet** Walter Jackson Bate, 1970 *Loving in Verse* Stephen Guy-Bray, 2006-01-01 The current critical tendency in the study of Renaissance literature is to regard the relationship between a poet and his predecessor as either familial or antagonistic Stephen Guy Bray argues that neither of these models can be applied to all poetic relationships and that in fact the romantic and even sexual nature of some relationships must be considered *Loving in Verse* examines how three poets present their relationship to their most important predecessors beginning with Dante's use of Virgil and Statius in the *Divine Comedy* moving on to Spenser's use of medieval English poets in the *Faerie Queene* and finally addressing Hart Crane's use of Whitman in *The Bridge* In each case Guy Bray shows how the younger poet presents himself and the older poet as part of a male couple He goes on to demonstrate how male couples are in fact found throughout these poems and while some are indeed familial or hostile many are romantic or sexual Using concepts from queer theory and close readings of images and allusions in these texts *Loving in Verse* demonstrates the importance of homoeroticism to an examination of poetic influence A discussion of the theories of poetic influence from four twentieth century writers T S Eliot Harold Bloom Roland Barthes and Frank O'Hara concludes Guy Bray's analysis Influence and Intertextuality in Literary History Jay Clayton, Eric Rothstein, 1991 This important collection explores and clarifies two of the most contested ideas in literary theory today influence and intertextuality The study of influence tends to center on major authors and canonical works identifying prior documents as sources or contexts for a given author Intertextuality on the other hand is a concept unconcerned with authors as individuals it treats all texts as part of a network of discourse that includes culture history and social practices as well as other literary works In thirteen essays drawing on the entire spectrum of English and American literary history this volume considers the relationship between these two terms their rivalry their kinship their range of uses Debates about these two concepts have been crucial to the new historicism and the resurgence of interest in literary history The essays in this volume employ a refreshing array of examples from that history poetry of the Renaissance and the twentieth century novels of the eighteenth through twentieth centuries Old English texts and postmodernist productions that have served as recurrent intertexts for contemporary theory The contributors treat such currently vital questions as the role of the author canon formation gender causality and the social dimension of texts They illuminate old assumptions and new ideas about agency that lie behind notions of influence and they examine models of an anonymous textual field that lie behind notions of intertextuality The volume takes much of its character from its own intertextual origin as a group project of the English faculty at the University of Wisconsin Madison Though diverse in their academic interests concerns and experience the

contributors participated in an ongoing intellectual exchange that is a model of how new scholarship can arise from dialogue

*Tropes, Parables, and Performatives* J. Hillis Miller, 1991-12-06 Tropes Parables Performatives collects J Hillis Miller's essays on seven major twentieth century authors Lawrence Kafka Stevens Williams Woolf Hardy and Conrad For all their evident differences these essays from early to late explore a single intuition about literature which may be framed by three words trope parable and performative Throughout these essays Miller is fascinated with the tropological dimension of literary language with the way figures of speech turn aside the telling of a story or the presentation of a literary theme The exploration of this turning leads to the recognition that all works of literature are parabolic thrown beside their real meaning They tell one story but call forth something else Miller further agrees that all parables are fundamentally performative They do not merely name something or give knowledge but rather use words to make something happen to get the reader from here to there Each essay here attempts to formulate what in a given case the reader performatively enters by way of parabolic trope

Madness and the Romantic Poet James Whitehead,2017-07-21 Madness and the Romantic Poet examines the longstanding and enduringly popular idea that poetry is connected to madness and mental illness The idea goes back to classical antiquity but it was given new life at the turn of the nineteenth century The book offers a new and much more complete history of its development than has previously been attempted alongside important associated ideas about individual genius creativity the emotions rationality and the mind in extreme states or disorder ideas that have been pervasive in modern popular culture More specifically the book tells the story of the initial growth and wider dissemination of the idea of the Romantic mad poet in the nineteenth century how and why this idea became so popular and how it interacted with the very different fortunes in reception and reputation of Romantic poets their poetry and attacks on or defences of

Romanticism as a cultural trend generally again leaving a popular legacy that endured into the twentieth century Material covered includes nineteenth century journalism early literary criticism biography medical and psychiatric literature and poetry A wide range of scientific and pseudoscientific thinkers are discussed alongside major Romantic authors including Wordsworth Coleridge Blake Hazlitt Lamb Percy Bysshe Shelley Keats Byron and John Clare Using this array of sources and figures the book asks was the Romantic mad genius just a sentimental stereotype or a romantic myth Or does its long popularity tell us something serious about Romanticism and the role it has played or has been given in modern culture

Romanticism and the Uses of Genre David Duff, 2009-11-12 This wide ranging book explores the generic innovations that drive the Romantic revolution in literature but also the fascination with archaic forms such as the ballad sonnet epic and romance whose revival and transformation make Romanticism a retro as well as a revolutionary movement Alan Hollinghurst and the Vitality of Influence Allan Johnson, 2014-04-09 Alan Hollinghurst and the Vitality of Influence proposes a striking approach for reading the influences that interlace twentieth century gay British writers Focusing on the role of the textual image in literary influence this book moves toward a new understanding of the interpenetration of literary and visual culture in the twentieth century **Politeness and Poetry in the Age of Pope** Thomas M. Woodman, 1989 Interest in politeness in the eighteenth century is shown to reflect anxiety about social change and indicate a search for guidelines in a newly commercialized society Evident is the dilemma of poets such as Parnell Prior Swift Gay and Pope **The Indian Imagination** NA NA, 2016-04-30 The Indian Imagination focuses on literary developments in English both in the colonial and postcolonial periods of Indian history Six divergent writers Aurobindo Ghose Sri Aurobindo Mulk Raj Anand Balachandra Rajan Nissim Ezekiel Anita Desai and Arun Joshi represent a consciousness that has emerged from the confrontation between tradition and modernity The colonial fantasy of British India was finally dissolved in the first half of this century only to be succeeded by another fantasy that of the reinstituted sovereign nation state This study argues that the two phases of history like the two phases of Indian writing in English together represent the sociohistorical process of colonization and decolonization and the affirmation of identity **The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century** George Alexander Kennedy, 1989 This comprehensive 1997 account of eighteenth century literary criticism is now available in paperback *The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century* H.
