History and Classical Mediterranean Archaeology as well as historians and archaeologists looking to update their knowledge of Greek or Roman urbanism      **Augustine and the Art of Ruling in the Carolingian Imperial Period** Sophia Moesch, 2019-06-26 The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9781351116022> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 licence DOI: <https://doi.org/10.4324/9781351116022> Published with the support of the Swiss National Science Foundation This volume is an investigation of how Augustine was received in the Carolingian period and the elements of his thought which had an impact on Carolingian ideas of state rulership and ethics It focuses on Alcuin of York and Hincmar of Rheims authors and political advisers to Charlemagne and to Charles the Bald respectively It examines how they used Augustinian political thought and ethics as manifested in the *De civitate Dei* to give more weight to their advice A comparative approach sheds light on the differences between Charlemagne's reign and that of his grandson It scrutinizes Alcuin's and Hincmar's discussions of empire rulership and the moral conduct of political agents during which both drew on the *De civitate Dei* although each came away with a different understanding By means of a philological historical approach the book offers a deeper reading and treats the Latin texts as political discourses defined by content and language      *The Shadow of Unfairness* Jeffrey Edward Green, 2016-06-01 In this sequel to his prize winning book *The Eyes of the People* Jeffrey Edward Green draws on philosophy history social science and literature to ask what democracy can mean in a world where it is understood that socioeconomic status to some degree will always determine opportunities for civic engagement and career advancement Under this shadow of unfairness Green argues that the most advantaged class are rightly subjected to compulsory public burdens And just as provocatively he urges ordinary citizens living in polities permanently darkened by plutocracy to acknowledge their second class status and the uncomfortable civic ethics that come with it specifically an ethics whereby the pursuit of egalitarianism is informed at least in part by indignation envy uncivil modes of discourse and even the occasional suspension of political care Deeply engaged in the history of political thought *The Shadow of Unfairness* is still first and foremost an effort to illuminate present day politics With the plebeians of ancient Rome as his muse Green develops a plebeian conception of contemporary liberal democracy at once disenchanted yet idealistic in its insistence that the Few/Many distinction might be enlisted for progressive purpose Green's analysis is likely to unsettle all sides of the political spectrum but its focus looks beyond narrow partisan concerns and aims instead to understand what the ongoing quest for free and equal citizenship might require once it is accepted that our political and educational systems will always be tainted by socioeconomic inequality      *War and Peace in the Ancient World* Kurt A. Raaflaub, 2008-04-15 This book is the first to focus on war and peace in the ancient world from a global perspective The first book to focus on war and peace in the ancient world Takes a global perspective covering a large number of early civilizations from China India and West Asia through the Mediterranean to the Americas Features contributions from nineteen distinguished scholars all of whom are

experts in their fields Offers remarkable insights into the different ways in which ancient societies dealt with a common human challenge Requires no prior historical knowledge making it suitable for non specialists **The Crown and the Courts** David C. Flatto,2020-11-10 The idea of the separation of powers a bedrock of modern constitutionalism has a deeper history David Flatto uncovers striking antecedents in the writings of Jewish scholars and rabbis of antiquity Under foreign rule they constructed a vision of earthly separation of powers that made law and the courts not the crown supreme **The Oxford Handbook of the History of Ethics** Roger Crisp,2013-01-31 This original and comprehensive volume explores the history of philosophical ethics in the western tradition from Homer until the present day Leading experts in the field use their expertise and specialist knowledge to illuminate key subjects and ideas in contemporary ethics and survey the history of the discipline **Cultural Contact and Appropriation in the Axial-Age Mediterranean World** Baruch Halpern,Kenneth Sacks,2016-10-18 Karl Jaspers dubbed the period 800 400 BCE the Axial Age Axial it was for out of it emerged the idea of Greek culture with its influence on Roman and later empires Jaspers Axial Age was the chrysalis of culturally meaningful modernity Trade expands intellectual horizons The economic and political effects permeate such social domains as technology language and worldview In the last category many issues take on an emotional freight the birth of science monotheism philosophy even theory itself Cultural Contact and Appropriation in the Axial Age Mediterranean World A Periplos explores adaptation resistance and reciprocity in Axial Age Mediterranean exchange ca 800 300 BCE Some essayists expand on an international discussion about myth to which even the Church Fathers contributed Others explore questions of how vocabulary is reapplied or how the alphabet is reapplied in a new environment Detailed cases ground participants capacity to illustrate both the variety of the disciplinary integuments in which we now speak one with the other across disciplines and the sheer complexity of constructing a workable programme for true collaboration *Humanism and Empire* Alexander Lee,2018-02-02 For more than a century scholars have believed that Italian humanism was predominantly civic in outlook Often serving in communal government fourteenth century humanists like Albertino Mussato and Coluccio Salutati are said to have derived from their reading of the Latin classics a rhetoric of republican liberty that was opposed to the tyranny of neighbouring signori and of the German emperors In this ground breaking study Alexander Lee challenges this long held belief From the death of Frederick II in 1250 to the failure of Rupert of the Palatinate s ill fated expedition in 1402 Lee argues the humanists nurtured a consistent and powerful affection for the Holy Roman Empire Though this was articulated in a variety of different ways it was nevertheless driven more by political conviction than by cultural concerns Surrounded by endless conflict both within and between city states the humanists eagerly embraced the Empire as the surest guarantee of peace and liberty and lost no opportunity to invoke its protection Indeed as Lee shows the most ardent appeals to imperial authority were made not by signorial humanists but by humanists in the service of communal regimes The first comprehensive synoptic study of humanistic ideas of Empire in the period c 1250 1402 this volume offers a radically new

interpretation of fourteenth century political thought and raises wide ranging questions about the foundations of modern constitutional ideas As such it is essential reading not just for students of Renaissance Italy and the history of political thought but for all those interested in understanding the origins of liberty     *The Oxford encyclopedia of ancient Greece and Rome*. - Vol. 1 - 7 Michael Gagarin,2010     A Companion to Aristotle Georgios Anagnostopoulos,2013-03-05 The Blackwell Companion to Aristotle provides in depth studies of the main themes of Aristotle s thought from art to zoology The most comprehensive single volume survey of the life and work of Aristotle Comprised of 40 newly commissioned essays from leading experts Coves the full range of Aristotle s work from his theoretical inquiries into metaphysics physics psychology and biology to the practical and productive sciences such as ethics politics rhetoric and art     *The Secret Revelation of John* Karen L. King,2009-02-28 Karen L King offers an illuminating reading of this ancient text said to be Christ s revelation to his disciple John In her analysis the Revelation becomes a comprehensible religious vision and a window on the religious culture of the Roman Empire A translation of the complete Secret Revelation of John is included     **Defining Citizenship in Archaic Greece** Alain Duplouy,Roger W. Brock,2018-03-15 Citizenship is a major feature of contemporary national and international politics but rather than being a modern phenomenon it is in fact a legacy of ancient Greece The concept of membership of a community and participation in its social and political life first appeared some three millennia ago but only towards the end of the fourth century BC did Aristotle offer the first explicit statement about it Though long accepted this definition remains deeply rooted in the philosophical and political thought of the classical period and probably fails to account accurately for either the preceding centuries or the dynamics of emergent cities as such historians are now challenging the application of the Aristotelian model to all Greek cities regardless of chronology and are looking instead for alternative ways of conceiving citizenship and community Focusing on archaic Greece this volume brings together an array of renowned international scholars with the aim of exploring new routes to archaic Greek citizenship and constructing a new image of archaic cities which are no longer to be considered as primitive or incomplete classical poleis The essays collected here have not been tailored to endorse any specific view with each contributor bringing his or her own approach and methodology to bear across a range of specific fields of enquiry from law cults and military obligations to athletics commensality and descent The volume as a whole exemplifies the living diversity of approaches to archaic Greece and to the Greek city combining both breadth and depth of insight with an opportunity to venture off the beaten track     **Social Institutions and the Politics of Recognition** Tony Burns,2020-08-19 The first of three volumes this definitive study explores the politics of social institutions from the time of the ancient Greeks to the Reformation in the sixteenth century Tony Burns focuses on those civil society institutions occupying the intermediate social space which exists between the family or household on the one hand and what Hegel refers to as the strictly political state on the other Arguing that the internal affairs of social institutions are a legitimate concern for students of politics he focuses on the notion of authority

together with that of an individual's station and its duties Burns discusses the work of such key thinkers as Plato Aristotle Cicero Seneca Epictetus Marcus Aurelius St Paul St Augustine St Thomas Aquinas Marsilius of Padua Nicholas of Cusa Jean Bodin Charles Loyseau John Calvin Martin Luther and Gerrard Winstanley He considers what they have said about the relationship that exists between superiors in positions of authority and their subordinates within hierarchical social institutions

**Aristotle on Prescription** Francesca Alesse, 2018-10-22 The focus of Aristotle on Prescription is Aristotle's reflections on rule making It is widely believed that Aristotle was only concerned with decision making understood as a deliberative process enabling a person to arrive at particular contingent decisions However rule making is fundamental to Aristotle's ethical texts Establishing rules means indicating patterns for action that are sufficiently specific to meet situational difficulties and sufficiently constant in time to provide us with a code of behaviour to be used in similar situations When we prescribe rules we demonstrate the ability to direct not only our own life but also other people's lives Alesse's book explores Aristotle's deep reflections on the nature and functions of prescription and on the relationship between rules and individual decisions

Christ the Gift and the Giver Enoch O. Okode, 2022-01-28 This book provides a close look at how Paul uses the Greco-Roman royal benefaction system in Romans 5:1-11 as well as 5:12-8:39 to accomplish his theological purpose of portraying Jesus Christ as the supreme royal benefactor so that the Roman believers might faithfully respond to his reign now even as they anticipate glorification This study makes at least three significant contributions First at the lexical level it provides a reading that accounts for the benefaction motifs that permeate Romans 5:1-11 and Romans 5:12-8:39 Second it looks at the relationship between as used in Romans 5:2 and the Messiah's sacrifice as described in Romans 5:6-10 even as it asserts that Paul portrays Christ as a royal benefactor in ways that surprise the Greco-Roman notion of brokerage and the expectation that a beneficiary would be willing to die for the sake of his benefactor Third the study demonstrates that the Messiah's supreme benefaction demands appropriate reciprocity or fitting response

Barclay, 2006-12-01 This is the first English commentary on Josephus Against Apion his apologetic treatise which rebuts Egyptian and Hellenistic slurs on the Judean people Accompanied by a new translation the commentary provides full analysis of the historical literary and rhetorical features of the treatise and analyses its engagement with the cultural politics of the ancient world
