Australia, New Zealand, and the Pacific Donald S. Garden,2005-08-19 A fascinating study of the environmental history of Australia New Zealand and the islands of the Pacific from the time of the dinosaurs to the present day Of interest to students and academics alike this book provides a much needed synthesis of the recent literature on the environmental history of Australia and Oceania Part of ABC CLIO s Nature and Human Societies series this book maps out the key trends in the region s environmental history charting the creation of the Australian continent from the ancient land mass of Gondwanaland to the arrival of humans Especially fascinating are the chapters highlighting how successive waves of human migration created environmental havoc throughout the region leading to the collapse of the Easter Island civilization and the spread of nonindigenous flora and fauna From the controversies over the reasons why creatures such as the marsupial lion and the giant kangaroo became extinct to such contemporary problems as deforestation and global warming this book contains sobering lessons for us all

The Atlantic World D'Maris Coffman,Adrian Leonard,William O'Reilly,2014-12-05 As the meeting point between Europe colonial America and Africa the history of the Atlantic world is a constantly shifting arena but one which has been a focus of huge and vibrant debate for many years In over thirty chapters all written by experts in the field The Atlantic World takes up these debates and gathers together key original scholarship to provide an authoritative survey of this increasingly popular area of world history The book takes a thematic approach to topics including exploration migration and cultural encounters In the first chapters

scholars examine the interactions between groups which converged in the Atlantic world such as slaves European migrants and Native Americans The volume then considers questions such as finance money and commerce in the Atlantic world as well as warfare government and religion The collection closes with chapters examining how ideas circulated across and around the Atlantic and beyond It presents the Atlantic as a shared space in which commodities and ideas were exchanged and traded and examines the impact that these exchanges had on both people and places Including an introductory essay from the editors which defines the field and lavishly illustrated with paintings drawings and maps this accessible volume is invaluable reading for all students and scholars of this broad sweep of world history Variation Rolls the Dice Enoch O. Aboh, Cécile B. Vigouroux, 2021-10-15 Variation Rolls the Dice A worldwide collage in honour of Salikoko S Mufwene aims to celebrate Mufwene's ground breaking contribution to linguistics in the past four decades The title also encapsulates his approach to language as both systemic and socio cultural practices and the role of variation in determining particular evolutionary trajectories in specific linguistic ecologies The book therefore focuses on variation within and across languages within and across speakers and how this fundamental aspect of human behavior can affect language structure in time and space Mufwene has been instrumental in putting creole languages on the map of General Linguistics and connecting their analysis to issues of language acquisition multilingualism language contact language evolution and language typology Thanks to the diversity of topics and the wide ranging theoretical persuasions of the contributors this volume aims at a large readership including both scholars and advanced students interested in cutting edge research in the aforementioned domains

The Archaeology of Difference Anne Clarke, Robin Torrence, 2003-09-02 The Archaeology of Difference presents a new and radically different perspective on the archaeology of cross cultural contact and engagement The authors move away from acculturation or domination and resistance and concentrate on interaction and negotiation by using a wide variety of case studies which take a crucially indigenous rather than colonial standpoint **Anglo-American Imperialism and the Pacific** Michelle Keown, Andrew Taylor, Mandy Treagus, 2018-05-23 This interdisciplinary collection explores the confluence of American and British neo imperialism in the Pacific as represented in various forms of Pacific discourse including literature ethnography film painting autobiography journalism and environmental discourse It investigates the alliances and rivalries between these two colonial powers during the crucial transition period of the early to mid twentieth century also exploring indigenous Pacific responses to Anglo American imperialism during and beyond the decolonization period of the late twentieth century While the relationship between Britain and the US has been analyzed through prominent forms of economic and cultural exchange between Europe Africa and the Americas there is to date no sustained study of the relationship between British and US colonial expansion into the Pacific which became central to ideas of developing European modernity in the late eighteenth century and has played a pivotal in the history of Anglo American colonialism from the establishment of plantation economies and settler colonies in the nineteenth century to various forms of military

imperialism during and beyond the twentieth century The wide range of discursive and expressive modes explored in this collection makes for a rich and multifaceted analysis of representations of and responses to Anglo American imperialism and is in keeping with the current interdisciplinary turn in postcolonial studies British Imperial Strategies in the Pacific, 1750-1900 Jane Samson, 2021-02-28 The focus of this volume is Britain's trans Pacific empire This began with haphazard challenges to Spanish dominion but by the end of the 18th century the British had established a colony in Australia and had gone to the brink of war with Spain to establish trading rights in the north Pacific These rights led to formal colonies in Vancouver Island and British Columbia when Britain sought to maintain a north Pacific presence despite American expansionism In the later 19th century the international scramble for the Pacific resulted in new British colonies and protectorates in the Pacific islands The result was a complex imperial presence created from a variety of motives and circumstances The essays selected here take account of the wide range of economic political and cultural factors which prompted British expansion creating tension in Britain's imperial identity in the Pacific and leaving Pacific peoples with a complicated and challenging legacy Along with the important new introduction they provide a basis for the reassessment of British imperialism in the Pacific region *Strangers in the South Seas* Richard Lansdown, 2006-01-01 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisaic islands at the far ends of the earth such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences after Darwin's momentous visit to the Galapagos Islands The Pacific produced other challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe As the century wore on the region presented opportunities and dilemmas for the imperial powers a process was accelerated by the Pacific War between 1941 and 1945 *Strangers in the South Seas* recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance South Sea Maidens Michael Sturma, 2002-03-30 From the first European contact with Tahiti in 1767 the myth of the South Sea maiden has endured through many incarnations Although the maiden frequently provided an idealized antidote to Western women's self assertion the South Pacific also afforded a space where boundaries between the sexes could be relaxed and transgressed From James Cook and Captain Bligh to James Michener and Margaret Mead the Island girl has occupied a special place in the erotic imagination of the West In a sweeping study that embraces history literature visual arts anthropology and film this study gives fresh insight into the myths and reality of a Western icon While women from far off lands have always been presented

as exotic and alluring the South Sea maiden has come to symbolize feminine sexuality as an integral part of the adventure sensuality and romance of the South Pacific Everyone from early explorers to 19th century writers and artists to latter day anthropologists film makers and tourism promoters have extolled their virtues and their bodies Sturma looks behind the popular cliché to reveal how the myth making process reflected not only Western desires but the cut and thrust of changing sexual politics The result is an intriguing look at both South Sea image makers and the women whom they found so seductive

The Greater Second World War Andrew N. Buchanan, Ruth Lawlor, 2025-04-15 The Greater Second World War challenges the traditional temporal and geographic frameworks of World War II expanding the timeline to include a series of regional conflicts and revolutions that began in 1931 and continued into the mid 1950s These conflicts bookended a central paroxysm defined by the intervention of the United States into every theater of the war rendering it genuinely global The essays within this volume bring top level accounts of US European and Axis strategic maneuvering into conversation with social histories of bottom up agency in ways that destabilize conventional narratives Working with novel and overlapping scales of time and space and attuned to ongoing and lively debates about the place of the nation state in global history after 1945 the scholars featured in The Greater Second World War seek to not only describe the war's beginnings in Asia and Africa rather than in Europe but also trace its ends to the shatter zones of the Soviet frontier the struggles for sovereignty in contested spaces and the long reaches of US imperialism well into the late twentieth century Together their contributions reveal how the cascading imperial and economic crises of the mid twentieth century triggered a series of discrete local and regional struggles that took on the character of a singular unified world war after the entry of the United States into every theater and almost every corner of the world Contributors Marco Maria Aterrano Th W Bottelier Pablo del Hierro Alexandre Fortes Kelly A Hammond Ashley Jackson Naina Manjrekar David Motadel Tejasvi Nagaraja Martin Thomas **Public Health in Asia and the Pacific** Milton J. Lewis, Kerrie L. MacPherson, 2007-10-19 The Asia Pacific region has not only the greatest concentration of population but is arguably the future economic centre of the world Epidemiological transition in the region is occurring much faster than it did in the West and many countries face the emerging problem of chronic diseases at the same time as they continue to grapple with communicable diseases This book explores how disease patterns and health problems in Asia and the Pacific and collective responses to them have been shaped over time by cultural economic social demographic environmental and political factors With fourteen chapters each devoted to a country in the region the authors take a comparative and historical approach to the evolution of public health and preventive medicine and offer a broader understanding of the links in a globalizing world between health on the one hand and culture economy polity and society on the other Public Health in Asia and the Pacific presents the importance of the non medical context in the history of human disease as well as the significance of disease in the larger histories of the region It will appeal to scholars and policy makers in the fields of public health the history of medicine and those with a wider interest in the Asia Pacific region Gender,

Power and Sexual Abuse in the Pacific Emily J. Manktelow, 2018-07-26 In 1843 on the island of Tahiti the evangelical missionary Rev Alexander Simpson was accused of sexually assaulting three of the female students under his care and of taking improper liberties with at least three more The events did not come out in public for at least a decade while Simpson's power in the local community only grew and rumblings relating to his wrong doings were ruthlessly crushed By exploring the case of Rev Simpson Emily Manktelow gives us key insights into the gender power and racial dynamics of a particular case of sexual abuse on the frontiers of European colonialism She explores the social and sexual context of clerical abuse considers the hierarchies of gender and power that determined how the case was handled and investigates the nature of colonialism gender and abuse in the 19th century The uncomfortably timely content of *Gender Power and Sexual Abuse in the Pacific* allows us to interrogate the way we deal with and represent issues of abuse authority and childhood It aims to give voice to those whom the archive has silenced and to listen to what they have to tell us about gender sexuality and abuse in the modern world

Peoples of the Pacific Paul D'Arcy, 2017-05-15 Presenting the history of the inhabitants of the Pacific Islands from first colonization until the spread of European colonial rule in the later 19th century this volume focuses specifically on Pacific Islander European interactions from the perspective of Pacific Islanders themselves A number of recorded traditions are reproduced as well as articles by Pacific Island scholars working within the academy The nature of Pacific History as a sub discipline is presented through a sample of key articles from the 1890s until the present that represent the historical evolution of the field and its multidisciplinary nature The volume reflects on how the indigenous inhabitants of the Pacific Islands have a history as dynamic and complex as that of literate societies and one that is more retrievable through multidisciplinary approaches than often realized

Robson, 2005-10-18 The South Seas as this region used to be called conjured up images of adventure belles and savages romance and fabulous fortunes but the long voyages of discovery and exploration of the vast Pacific Ocean were really an exercise in amazing logistics navigation hard grit shipwreck and pure luck The motivations were scientific and geographic but at the same time nationalistic and materialistic A series on global exploration and discovery would not be complete without this book by Quanchi and Robson It is ambitious and informative and includes the familiar names of Laperouse Bougainville Cook and Dampier as well as the intriguing stories of the Bounty Mutiny scurvy and the mysterious Northwest Passage Terra Australis Ignatia and Davis Land There are entries on first contacts ships navigational instruments mapping and botany The scene is carefully set in the introduction the chronology spans several centuries and the extensive bibliography offers a guide to further reading There are more than just dry facts in this book It has a whiff of salt air the clash of empires cross cultural beach encounters and personal adventure *The People of the Sea* Paul D'Arcy, 2006-01-01

Countering the dominant paradigms of recent Pacific Islands historiography which tend to limit understanding of the sea's importance this volume emphasizes the flux in the maritime environment and how it instilled an expectation and openness toward outside influences and the rapidity with which cultural change could occur in relations between various Islander groups Students and scholars of Pacific history and environmental and cultural studies will welcome this re evaluation of the sea's influence in Oceanic history **BOOK JACKET** **The World's Oceans** Rainer F.
