The Evolving Physiology of Government O. P. Dwivedi, Tim A. Mau, Byron M. Sheldrick, 2009-06-20 Canadian public administration has provided a rich ground for examining the changing nature of the state Currents of political change have rippled through the administration of the public sector often producing significant alterations in our understanding of how best to organize and administer public services This volume brings together some of the leading Canadian and international scholars of public administration to reflect on these changes and their significance Providing a historical perspective on public administration in Canada the volume examines the shift from a traditional model of administration to newer forms such as new public management and governance and explores current debates and the place of Canadian public administration within a broader comparative perspective Published in English

The Canadian Department of Justice and the Completion of Confederation 1867-78 Jonathan Swainger, 2000 The federal Department of Justice was established by John A Macdonald as part of the Conservative party's program for reform of the parliamentary system following Confederation Among other things it was charged with establishing national institutions such as the Supreme Court and the North West Mounted Police and with centralizing the penitentiary system In the process the department took on a position of primary importance in post Confederation politics This was particularly so up to 1878 when Confederation was completed Jonathan Swainger considers the growth and development of the ostensibly apolitical Department of Justice in the eleven years after the union of 1867 Drawing on legal records and other archival documents he details the complex interactions between law and politics exploring how expectations both inside and outside the legal system created an environment in which the department acted as an advisor to the government He concludes by considering the post 1878 legacy of the department's approach to governance wherein any problem legal or otherwise was made amenable to politicized solutions Unfortunately for the department and the federal government this left them ill prepared for the constitutional battles to come One crucial task was to establish responsibilities within the federal government rather than just duplicate offices which had existed prior to union Others were the establishment of national or quasi national institutions such as the Supreme Court 1875 and the North West Mounted Police 1873 the redrafting of the Governor General's instructions which was done between 1875 and 1877 and centralization of the penitentiary system completed by 1875 The Department benefited from a deeply rooted expectation that law was both apolitical and necessary This ideology functioned in a variety of ways it gave the Department considerable latitude for setting policy and solving problems but rationalized the appearance of politicized legal decisions It also legitimized Department officials claim that it was especially suited to review all legislation advise on the royal prerogative of mercy administer national penitentiaries and appoint judges to the bench Ultimately the fictional notion of law as apolitical and necessary placed the Department of Justice squarely in the midst of the completion of Confederation The Canadian Department of Justice and the Completion of Confederation will be of particular interest to students and scholars of

Canadian legal and political history      **Understanding Canadian Public Administration** Gregory J. Inwood, 2025-03-07

Understanding Canadian Public Administration introduces students to both the theory and the practice of public administration in Canada. It surveys the basic elements of the field in a historical context but with close attention to contemporary issues and developments to emphasize the real day to day impacts of public administration. The text provides an overview of the field in the context of democratic government including a comparison of the roles of the private and public sectors. The real world of government is examined with a focus on how theoretical ideas are translated into practice. This fifth edition features updates on topical issues and new developments in the field including the impact of the Covid 19 pandemic on governmental policy and action as well as new and updated sections on Aboriginal self government, human resources, accountability, financial management and intergovernmental administrative relations. Understanding Canadian Public Administration invites students to examine the issues of public administration from their own viewpoints and through their own experiences, bringing the field to life and making it immediately relevant to their current context.      Canada's

Department of External Affairs, Volume 1 John Hilliker, 1990-01-01. After an introductory chapter dealing with the conduct of external relations before 1909, the book examines three distinct phases of the department's development. Although the department had modest beginnings under the first under secretary Sir Joseph Pope, in 1909-1925 it was seen by his successor O. D. Skelton as an important instrument for the assertion of Canadian autonomy. Skelton presided over the establishment of the first Canadian diplomatic missions abroad and was responsible for the creation of a foreign service to staff them. With the outbreak of the war in 1939, both the responsibilities and the size of the department underwent substantial organizational change under Norman Robertson, who became under secretary after Skelton's death in 1941. Taken together, the criteria for recruitment introduced by Skelton and the reorganization which took place under Robertson gave the department many of the features which have characterized it as a branch of the Canadian government. The further development of the institution will be examined in a second volume covering the years 1946-1968. Since the prime minister was secretary of state for External Affairs during much of the period covered by volume I, the book contributes to an understanding of the operation of the Canadian government as a whole as well as of a single department. It also examines the policy making process and therefore will be of interest to students of international relations as well as of public administration.      *Minority Men in a Majority Setting* Christopher Beattie, 1975-01-01      **The Guardian** Patrice Dutil, 2011-06-18. Finance departments have often been portrayed as guardians of the public purse. In *The Guardian*, a multidisciplinary group of contributors examines the Ministry of Finance of Ontario since the Second World War. During the last sixty years, the Ministry was transformed from a relatively small Treasury to a sophisticated policy machine. What started as a modest bookkeeping operation evolved into a key bureaucratic and policy agency as the government of Ontario assumed a leadership position in developing the province. These essays reveal Ontario's finance as a dynamic policy issue shaped by the personalities of premiers and ministers. The

energies of public servants at all levels and a critical dialogue between political and administrative worlds Drawing on different methodologies this collection profiles a ministry as policy entrepreneur spender revenue generator capacity builder budget director program manager and intergovernmental agent The Guardian fills a significant gap in public administration literature and in so doing describes how Ontario's Ministry of Finance defined its role as guardian

**Prime Ministerial Power in Canada** Patrice Dutil, 2017-06-09 Many Canadians lament that prime ministerial power has become too concentrated since the 1970s This book contradicts this view by demonstrating how prime ministerial power was centralized from the very beginning of Confederation and that the first three important prime ministers Macdonald Laurier and Borden channelled that centralizing impulse to adapt to the circumstances they faced Using a variety of innovative approaches Patrice Dutil focuses on the managerial philosophies of each of the prime ministers as well as their rapport with senior public servants resistance to genuine public sector reform and use of orders in council to further their aims He then compares their managerial habits during times of crisis to those during ordinary times This is the first book to examine the administrative habits of these three prime ministers In it Dutil offers revealing insights into the evolution of prime ministerial power He also shows how this centralizing grip of these early first ministers inevitably shaped the administrations they headed as well as those that followed

**Whatever Happened to the Music Teacher?** Donald J. Savoie, 2013-03-01 Thirty years ago Anglo American politicians set out to make the public sector look like the private sector These reforms continue today ultimately seeking to empower elected officials to shape policies and pushing public servants to manage operations in the same manner as their private sector counterparts In *Whatever Happened to the Music Teacher* Donald Savoie provides a nuanced account of how the Canadian federal government makes decisions Savoie argues that the traditional role of public servants advising governments on policy has been turned on its head and that evidence based policy making is no longer valued as it once was Policy making has become a matter of opinion Google searches focus groups and public opinion surveys where a well connected lobbyist can provide any answers politicians wish to hear As a result public servants have lost their way and are uncertain about how they should assess management performance how they should generate policy advice how they should work with their political leaders and how they should speak truth to political power even within their own departments Savoie demonstrates how recent management reforms in government have caused a steep rise in the overhead cost of government as well as how the notion that public administration could be made to operate

like the private sector has been misguided and costly to taxpayers Abandoning textbook discussions of government and public service Whatever Happened to the Music Teacher Is a realistic portrayal of how policy decisions are made and how actors and institutions interact with one another and exposes the complexities contradictions present in Canadian politics and governance *Canada's Century* C.E.S. **Breaking the Bargain** Donald Savoie,2003-12-15 Canada s machinery of government is out of joint In Breaking the Bargain Donald J Savoie reveals how the traditional deal struck between politicians and career officials that underpins the workings of our national political and administrative process is today being challenged He argues that the role of bureaucracy within the Canadian political machine has never been properly defined that the relationship between elected and permanent government officials is increasingly problematic and that the public service cannot function if it is expected to be both independent of and subordinate to elected officials While the public service attempts to define its own political sphere the House of Commons is also in flux the prime minister and his close advisors wield ever more power and cabinet no longer occupies the policy ground to which it is entitled Ministers who have traditionally been able to develop their own roles have increasingly lost their autonomy Federal departmental structures are crumbling giving way to a new model that eschews boundaries in favour of sharing policy and program space with outsiders The implications of this functional shift are profound having a deep impact on how public policies are struck how government operates and ultimately the capacity for accountability

*Taking the Air* Paul Kopas,2007-12-01 Natural resource management is a major area of Canadian policy as recent literature reveals Yet analysts have devoted little attention to the management of parks and protected areas In Taking the Air Paul Kopas takes a comprehensive approach to this aspect of policy debate He scrutinizes the policy making process for national parks since the mid 1950s and interrogates the rationale and policies that have governed their administration Kopas argues that national parks and park policy reflect not only environmental concerns

but also the political and social attitudes of bureaucrats citizens interest groups Aboriginal peoples and legal authorities He explores how the goals of each group have been shaped by the historical context of park policy influencing the shape and weight of their contributions      **Studies in Public Employment and Compensation in Canada** M.
