Rogues and Scholars James Stourton, 2025-02-04 A colorful and fast moving account

of how postwar London became the global center of the art market a story of Impressionist masterpieces dodgy dealers and ground breaking financial transactions On October 15 1958 Sotheby's of Bond Street staged an event sale of seven Impressionist paintings belonging to Erwin Goldschmidt three Manets two Cezannes one Van Gogh and a Renoir Kirk Douglas Anthony Quinn and Somerset Maugham were there as celebrity guests The seven lots went for 781 000 at the time the highest price for a single sale The event established London as the world center of the art market and Sotheby's as an international auction house It began a shift in power from the dealers to the auctioneers and paved the way for Impressionist paintings to dominate the market for the next forty years Sotheby's had pulled off a massive coup by capturing the Impressionist market from Paris and New York and now began its inexorable rise opening offices all over the world A huge expansion of the market followed accompanied by rocketing prices colorful scandals and legal dramas London transformed itself from a fusty place of old master painting sales to a revitalized center of contemporary art crowned by the opening of Tate Modern in 2000 The Tate Modern successfully united new and mostly foreign money in London with the art world offering its patrons a ready made sophisticated social milieu alongside dealers in contemporary art In a vibrant and briskly paced style James Stourton tells the story of the London art market from the immediate postwar period to the turn of the millennium While Sotheby's is the lynchpin of this story Stourton populates his narrative with a glorious rogue's gallery of eccentric scholars clever amateurs brilliant emigrants and stylish grandees with a flair for the deal *The Death of Hitler: The Full Story with New Evidence from Secret Russian Archives* Ada Petrova, Peter Watson, 2007-03-17 Revealing and well written A significant book Houston Chronicle It is one of the most enduring mysteries of the twentieth century how exactly Adolf Hitler died and what happened to his remains With access to the Russians Hitler Archive this book reveals not only what happened after the Russians captured Hitler's bunker but also why the Soviets felt the details of his death had to be suppressed *The Bosch Deception* Alex Connor, 2014-06-30 A TRUTH CONCEALED Brabant 1473 A clandestine brotherhood hides a secret that could bring down the Catholic Church Their chosen hiding place the art of Hieronymus Bosch A TERRIBLE CONSPIRACY London 2014 An excommunicated priest approaches both the Church and the art world claiming to possess an artefact that will destroy their reputations A TICKING CLOCK This man Nicholas Laverne is poised to end over 500 years of silence and injustice Yet unknown to Nicholas he has just summoned a killer intent on silencing him

Madeleine's War Peter Watson, 2016-07-12 When Colonel Matthew Hammond was posted to the European theater during World War II he sustained a serious injury on the front lines that cost him a lung Now he is back in England unable to fight but continuing to serve his country by training new resistance fighters in SC2 a specialist sabotage outfit One of the recruits under his tutelage is the spellbinding Madeleine Dirac an exotic French Canadian nurse Despite protocols discouraging romance they fall deeply in love Matthew is torn about putting Madeleine's life in danger he has mixed duty and pleasure before with tragic results his former lover Celestine was killed in an attempt to assassinate a Nazi doctor But the Allies are

mustering all their resources for crucial beach landings in Normandy and Matthew knows his unit will be needed to parachute its agents in behind Nazi lines Vivid and unforgettable Madeleine's War is a gripping tale of love in wartime and of men and women caught in the sweep of history *The Age of Atheists* Peter Watson, 2014-02-18 Examines atheism as a modern intellectual achievement that has motivated individuals to pursue invention and self reliance citing the accomplishments of secular philosophers scientists and artists who have worked in the absence of religious belief **The German Genius** Peter Watson, 2010-09-16 From the end of the Baroque age and the death of Bach in 1750 to the rise of Hitler in 1933 Germany was transformed from a poor relation among western nations into a dominant intellectual and cultural force more influential than France Britain Italy Holland and the United States In the early decades of the 20th century German artists writers philosophers scientists and engineers were leading their freshly unified country to new and undreamed of heights and by 1933 they had won more Nobel prizes than anyone else and more than the British and Americans combined But this genius was cut down in its prime with the rise and subsequent fall of Adolf Hitler and his fascist Third Reich a legacy of evil that has overshadowed the nation's contributions ever since Yet how did the Germans achieve their pre eminence beginning in the mid 18th century In this fascinating cultural history Peter Watson goes back through time to explore the origins of the German genius how it flourished and shaped our lives and most importantly to reveal how it continues to shape our world As he convincingly demonstrates while we may hold other European cultures in higher esteem it was German thinking from Bach to Nietzsche to Freud that actually shaped modern America and Britain in ways that resonate today **Murder at the National Gallery** Margaret Truman, 2014-09-17 Powerful Fascinating Truman absolutely amazes Atlanta Journal Constitution When the senior curator at Washington's famed National Gallery finds a missing painting by the Renaissance master Caravaggio he mounts a world class exhibition and plots a brilliant forgery scheme that will stun the art world A thrilling chase Publishers Weekly But an artful deception suddenly becomes a portrait of blackmail and murder as gallery owner and part time sleuth Annabel Reed Smith and her husband go searching for clues in the heady arena of international art and uncover a rare collection of unscrupulous characters that leads all the way to Italy Highly recommended One of Margaret Truman's best Booklist **Unearthing the Bones** Alex Connor, 2014-05-06 A human skull is discovered in Madrid A serial killer takes a life in London The race is on to own the most notorious relic of all time A scorching short story and an enticing prequel to Alex Connor's Memory of Bones *Best Sellers*, 1983 **Histories of Transnational Crime** Gerben Bruinsma, 2015-05-13 Histories of Transnational Crime provides a broad historical framework for understanding the developments in research of transnational crime over the centuries This volume provides examples of transnational crime and places them in a broad historical context which has so far been missing from this field of study The contributions to this comprehensive volume explore the causes and historical precursors of six main types of transnational crime piracy human smuggling arms trafficking drug trafficking art and antique trafficking corporate crime The historical

contributions demonstrate that transnational crime is not a novel phenomenon of recent globalization and that beyond organized crime groups powerful individuals governments and business corporations have been heavily involved Through a systematic historical and contextual analysis of these types of transnational crime the contributions to this volume provide a fundamental understanding of why and how various forms of transnational crime are still present in the contemporary world In the past two decades the study of transnational crime has developed from a subset of the study of organized crime to its own recognized field of study covering distinct societal threats and requiring a particular approach Shared Intelligence Barbara Buhler Lynes,Jonathan Weinberg,Georgia O'Keeffe Museum,2011-03-09 Catalog of an exhibition opening at the Georgia O Keeffe Museum on Feb 4 2011 and traveling to the Columbus Museum of Art and the Pennsylvania Academy of the Fine Arts The British Imagination Peter Watson,2025-05-22 Before the 16th century Britain was a small out of the way backwater lagging far behind other global powers in terms of power and innovation This all changed when Queen Elizabeth I was crowned During her reign creative and intellectual life flourished as never before and Britain became one of the leading nations of the West It has remained a major power ever since What happened in the last five hundred years to bring about this change and to maintain it And what can it tell us about the unique nature of British identity and exceptionalism today The British Imagination is a masterful journey through 500 years of history from Shakespeare to Woolf the Royal Society to the industrial revolution and from the first New World colonies to the empire that by the 1920s had colonised a quarter of the world The key tenets of British history Peter Watson argues are religion empirical science commerce and empire Breathtaking in scope covering everything from astronomy to geology philosophy to literature The British Imagination is a spellbinding tour of the most influential ideas and the extraordinary people who made Britain what it is today Isle of the Dead Alex Connor,2014-04-15 Fifteenth century Venice is a dangerous time to be alive A permanent winter has rolled in over the canals and bodies keep washing up on the banks of the city Each victim has been skinned In the present day a famous portrait by Titian has been discovered Its subject the Fifteenth century suspected murderer Angelico Vespucci known as The Skin Hunter Leading New York dealer Triumph Jones encourages the rumor that when the portrait arises so will the man And when flayed bodies start turning up in Tokyo London and Venice it begins to look like more than just a superstition Previously a location finder for the film industry Nino Bergstrom has just recovered from a serious illness As a favor to the friend who helped him the dealer Gasser Reni he investigates the murder and flaying of Seraphina Morgan In Venice he comes across Seraphina s louche husband and the flamboyant Johnny Ravenscourt moving onto Tokyo where he encounters the Japanese dealer of the macabre Jobo Kido As the dealers vie to get their hands on the Titian portrait some for its beauty others for its notoriety as being the first portrait of a serial killer each becomes a suspect And then Nino makes the connection between the Fifteenth century murderer and his Twenty first century imitator Each of the contemporary century victims had something in common with their Fifteenth century counterpart Further investigations lead Nino deeper into the depraved

world of Angelico Vespucci the original Skin Hunter Then after the deaths and mutilation of three women on the anniversaries of Vespucci s crimes Nino realizes that the date for the fourth killing is due He has to find the last victim and save her And he has only ten days to do it **The ^AFaustian Bargain** Jonathan Petropoulos,2000-03-30 Nazi art looting has been the subject of enormous international attention in recent years and the topic of two history bestsellers Hector Feliciano s The Lost Museum and Lynn Nicholas s The Rape of Europa But such books leave us wondering What made thoughtful educated artistic men and women decide to put their talents in the service of a brutal and inhuman regime This question is the starting point for The Faustian Bargain Jonathan Petropoulos s study of the key figures in the art world of Nazi Germany Petropoulos follows the careers of these prominent individuals who like Faust that German archetype chose to pursue artistic ends through collaboration with diabolical forces Readers meet Ernst Buchner the distinguished museum director and expert on Old Master paintings who repatriated the Van Eyck brother s Ghent altarpiece to Germany and Karl Haberstock an art dealer who filled German museums with works bought virtually at gunpoint from Jewish collectors Robert Scholz the leading art critic in the Third Reich became an officer in the chief art looting unit in France and Kajetan Muhlmann a leading art historian was probably the single most prolific art plunderer in the war and arguably in history Finally there is Arno Breker a gifted artist who exchanged his modernist style for monumental realism and became Hitler s favorite sculptor If it is striking that these educated men became part of the Nazi machine it is more remarkable that most of them rehabilitated their careers and lived comfortably after the war Petropoulos has discovered a network of these rehabilitated experts that flourished in the postwar period and he argues that this is a key to the tens of thousands of looted artworks that are still missing today Based on previously unreleased information and recently declassified documents The Faustian Bargain is a gripping read about the art world during this period and a fascinating examination of the intense relationship between culture and politics in the Third Reich **Convergence** Peter Watson,2017-02-21 Originally published in Great Britain in 2016 with different subtitle Convergence the deepest idea in the universe
