Daily Life of Women in the Progressive Era Kirstin Olsen, 2019-06-24 This book illustrates the social change that took place in the lives of women during the Progressive Era The political and social change of the Progressive Era brought conflicts over labor women's rights consumerism religion sexuality and many other aspects of American life As Americans argued and fought over suffrage and

political reform vast changes were also taking place in women's professional, material, personal, recreational and intellectual lives. In this installment of Greenwood's Daily Life through History series, award-winning author Kirstin Olsen brings to life the everyday experiences, priorities and challenges of women in America's Progressive Era, ca. 1890-1920. From the barnstorming bloomer girls who showed America that women could play baseball to film star tycoon and co-founder of the Academy of Motion Pictures Mary Pickford, and from the highly skilled Hello Girls telephone operators who helped win World War I to the remarkable journalist and civil rights activist Ida Wells Barnett, women led both famous and ordinary lives that were shaped by and helped to drive the dramatic social change taking place during the Progressive Era. All of this and more is described in this book through topical sections as well as stories and profiles that reveal to readers the daily lives of America's women who lived during the Progressive Era. Readers will benefit from Olsen's characteristically sharp eye for detail, power of description and breadth of historical knowledge.

Scaling-Up Equitable Nutritional Care for Girls and Women in South Asia Vani Sethi, Manisha Nair, Neena Bhatia, Zivai Murira, Charu Arora, Divya Tripathi, 2025-04-29. South Asia contributes to 40 per cent of the annual global low birth weight burden with an estimated 10 million children born with low birth weight. Poor women's nutrition and gender inequalities are the main causes for stagnantly high prevalence of low birth in South Asia. In South Asia, most women enter pregnancy with one or more nutrition risks: 22% of women are too thin, 49% women are anaemic, 20% suffer from obesity, 10% are adolescents and 35% are too short for their age. The low diversity of diets of women is worrisome, particularly in fragile countries; for example, 26% of adolescent girls and women access a minimally diverse diet in Afghanistan. Data also shows that 90% of women in India, Bangladesh and Pakistan are affected with at least one of the three micronutrient deficiencies: iron, zinc and folate.

TEXTBOOK OF ANIMAL BEHAVIOUR FATIK BARAN MANDAL, 2012-01-17. This well accepted book now stands in its second edition; it is a time honoured revision and extension of the previous edition. Beginning with an introduction to the study of animal behaviour, the book explains the various aspects of behavioural biology, incorporating a wealth of information from molecular biology, neurobiology and socio biology with a new approach. It describes different kinds of innate and learned behaviours, animal communications, defensive behaviours such as camouflage and mimicry, with suitable illustrations. The book incorporates the introductory concepts of biomimicry in an attractive manner. Further, it discusses biorhythms, migration in fish and birds, in addition to evolution and physiological basis of migration. The text also presents the important aspects of socio biology and social behaviours such as feeding, adaptation, prey defence, territoriality, aggression, altruism, sexuality and parental care. Finally, it provides discussions on behavioural ecology in the context of conservation biology and human behaviour. The book presents the basic principles of animal behaviour with the aid of carefully selected examples from both the recent and classic literature, along with an emphasis on readability. In the present edition, topics like eusociality and behavioural theories have been incorporated. This edition also includes as many as 11 published articles by the author on

different topics related to the subject matter in box format to further strengthen the text The book is primarily intended for the students of B Sc M Sc Zoology Life Science for their courses It would be useful for the researchers in the field of animal behaviour and conservation biologists It would also attract readership studying Sociology and Anthropology **KEY FEATURES** Presents a well balanced view of ethology Discusses the current development in the field Includes a glossary of important terms Offers end of chapter questions to check the students understanding of the concepts
