Contact in the 16th Century Brad Loewen, Claude Chapdelaine, 2016-05-12 From Labrador to Lake Ontario the Gulf of Saint Lawrence to French Acadia and Huronia Wendaki to Tadoussac and from one chapter to the next this scholarly collection of archaeological findings focuses on 16th century European goods found in Native contexts and within greater networks forming a conceptual interplay of place and mobility The four initial chapters are set around the Gulf of Saint Lawrence where Euro Native contact was direct and the historical record is strongest Contact networks radiated northward into Inuit settings where European iron nails roofing tile fragments and ceramics are found Glass beads are scarce on Inuit sites as well as on Basque sites on the Gulf's north shore but they are numerous in French Acadia Ceramics on northern Basque sites are mostly from Spain An historical review discusses the partnership between Spanish Basques and Saint Lawrence Iroquoians c 1540 1580 The four chapters set in the Saint Lawrence valley show Tadoussac as a fork in inland networks Saint Lawrence Iroquoians obtained glass beads around Tadoussac before 1580 Algonquin from Lac Saint Jean began trading at Tadoussac after that They plied a northern route that linked to Huronia Wendaki via the Ottawa Valley and the Frontenac Uplands Finally four chapters set around Lake Ontario focus on contact between this region and the Saint Lawrence valley Huron Wendat sites around the Kawartha Lakes show an influx of Saint Lawrence trade in the 16th century followed by an immigration wave about 1580 Huron Wendat sites near Toronto show an unabated inflow of Native materials from the Saint Lawrence valley however neutral sites west of Lake Ontario show Native and European materials arriving from the south A review of glass bead evidence presented by various authors shows trends that cut across chapters and bring new impetus to the study of beads to discover 16th century networks among French and Basque fishers Inuit and Algonquian foragers and Iroquoian farmers With contributions from Sara Barreiro Meghan Burchell Claude Chapdelaine Martin S Cooper Amanda Crompton Vincent Delmas Sergio Escribano Ruiz William Fox Sarah Grant Francois Guindon Erik Langevin Brad Loewen Jean Francois Moreau Jean Luc Pilon Michel Plourde Peter Ramsden Lisa Rankin and Ronald F Williamson Published in English

Natives and Newcomers Bruce G. Trigger, 1986 According to conventional nineteenth century wisdom societies of European origin were naturally progressive native societies were static One consequence of this attitude was the almost universal separation of history and anthropology Today despite a growing interest in changes in Amerindian societies this dichotomy continues to distort the investigation of Canadian history and to assign native peoples only a marginal place in it Natives and Newcomers discredits that myth In a spirited and critical re examination of relations between the French and the Iroquoian speaking inhabitants of the St Lawrence lowlands from the incursions of Jacques Cartier through the explorations of Samuel de Champlain and the Jesuit missions into the early years of the royal regime Natives and Newcomers argues that native people have played a

significant role in shaping the development of Canada Trigger also shows that the largely ignored French traders and their employees established relations with native people that were indispensable for founding a viable European colony on the St Lawrence The brisk narrative of this period is complemented by a detailed survey of the stereotypes about native people that have influenced the development of Canadian history and anthropology and by candid discussions of how historical ethnographical and archaeological approaches can and cannot be combined to produce a more rounded and accurate understanding of the past

Twelve Thousand Years Bruce Bourque,2004-07-01 Documents the generations of Native peoples who for twelve millennia have moved through and eventually settled along the rocky coast rivers lakes valleys and mountains of a region now known as Maine

Bears Heather A. Lapham,Gregory A. Waselkov,2024-04-02 Although scholars have long recognized the mythic status of bears in indigenous North American societies of the past this is the first volume to synthesize the vast amount of archaeological and historical research on the topic Bears charts the special relationship between the American black bear and humans in eastern Native American cultures across thousands of years
