Snack Two Tape Transcripts:

Snack William S. Burroughs,1975 *Wising Up the Marks* Timothy S. Murphy,1998-01-05 William S Burroughs is one of the twentieth century s most visible controversial and baffling literary figures In the first comprehensive study of the writer Timothy S Murphy places Burroughs in the company of the most significant intellectual minds of our time In doing so he gives us an immensely readable and convincing account of a man whose achievements continue to have a major influence on American art and culture Murphy draws on the work of such philosophers as Gilles Deleuze F lix Guattari Theodor Adorno and Jean Paul Sartre and also investigates the historical contexts from which Burroughs s writings arose From the paranoid isolationism of the Cold War through the countercultural activism of the sixties to the resurgence of corporate and state control in the eighties Burroughs s novels films and music hold a mirror to the American psyche Murphy coins the term amodernism as a way to describe Burroughs s contested relationship to the canon while acknowledging the writer s explicit desire for a destruction of such systems of classification Despite the popular mythology that surrounds Burroughs his work has been largely excluded from the academy of American letters Finally here is a book that presents a solid portrait of a major artistic innovator a writer who combines aesthetics and politics and who can perform as anthropologist social goad or media icon all with consummate skill **Snack ...
