Nepal EXCERPT The Vall e Blanche forms the backbone of this area and it can be accessed quickly from the Aiguille du Midi the starting point for routes on the G ant Glacier the Tacul and the P riades Unlike the routes in the previous chapter most of the tours here can be done in a day and the height gains are not excessive maximum of 900m Also in this part of the Massif there is a broad range of routes and you will find steep slopes and classic tours next door to each other For all these reasons this is a very popular area There are lots of people on the easy routes by the Aiguilles Marbr es and the Col d Entr ves while the Br che Puiseux area is less popular but also more and more amateur extreme skiers are trying routes on the Tour Ronde and the big couloirs on the Tacul Diable Gervasutti Jager However these figures pale into insignificance compared with the hordes of skiers and boarders who can be found on the world famous Vall e Blanche from the beginning of the winter right through to the end of May Indeed you feel the contrast most strikingly once with skins on your skis you start climbing up towards the less accessible routes
