So Many Crossroads:

The Evangelical Church at the Crossroads of Secular Culture and Change Dr. Arnold O. Thompson, 2025-03-28

This book lays out in clear biblical and specific ways how the kingdom of God can effectively intersect with the kingdom of this world. The author first laid out the dark forces in the church's engagement in the so-called cultural wars like storm force winds blowing at the doors of the church to influence its message, change its historical methods, corrupt its mission. It identifies the crises in all three areas. The author contends that by and large the so-called cultural wars waged by sections of the evangelical church have been lost in the real mission of the Christian church. The book does not linger long here but rigorously lays out the biblical mandate and methods for the church to regain its purpose and mission of Christ in the world. This is the goal of this book. From the start the author understood this was an extensive undertaking to stand like John on the island of Patmos looking at visions of the modern church and to write a manifesto as if to say for God I see you I see what a large and influential segment of the church is doing which I contend is hurting the cause of Christ and His Gospel today. But also to say that I see what is needed to again influence the culture to turn to Christ. To give as did John a clear voice to defy the confusions and uncertainties and communicate effectively the Gospel of Christ to a lost world. This goal would seem impossible to see a revival of the Gospel in secular culture like the great revivals of the past. Except the ancient prophets said as did Peter in the revival of Pentecost. In the last days God says I will pour out my Spirit on all people. Your sons and daughters will prophesy, your young men will see visions, your old men will dream dreams. Acts 2:17. This book is a dream path to the reality of a revival of the Gospel in our times.

Wynn,2012-07-02 This book presents a collection of essays on the debates about origins authenticity and identity in folk and blues music The essays had their origins in an international conference on the Transatlantic routes of American roots music out of which emerged common themes and questions of origins and authenticity in folk music black and white American and British The central theme is musical influences but issues of identity national local and racial are also recurring subjects The extent to which these identities were invented imagined or constructed by the performers or by those who recorded their work for posterity is also a prominent concern and questions of racial identity are particularly central The book features a new essay on the blues by Paul Oliver alongside an essay on Oliver s seminal blues scholarship There are also several essays on British blues and the links between performers and styles in the United States and Britain and new essays on critical figures such as Alan Lomax and Woody Guthrie This volume uniquely offers perspectives from both sides of the Atlantic on the connections and interplay of influences in roots music and the debates about these subjects drawing on the work of eminent established scholars and emerging young academics who are already making a contribution to the field Throughout
