Drugs & Doping in Sports John O'Leary, 2013-03-04

Doping is undoubtedly one of the most controversial issues within sport. Doping scandals wreck the careers of sportsmen and women; they can bankrupt governing bodies; infringe personal liberties; threaten livelihoods; tarnish images; galvanise the European Union; undermine the Olympic Movement; and invoke invective from politicians. In recent years, sports law has developed into one of the most exciting and challenging legal disciplines, and the importance of the law in doping matters has been heightened by the influx of money into sport and the development of sport as a global economy. *Drugs and Doping in Sport* brings together work from leading academics, practitioners, and administrators; analyses contemporary socio-legal and political themes related to doping in sport; It provides a challenging and often controversial view of doping issues and confronts political and legal orthodoxy, supplying the reader with a unique insight into this fascinating area of academic study.

Seven Clues to the Origin of Life Alexander Graham Cairns-Smith, 1990-09-13 The mysteries surrounding the origins of life on earth are written in detective story fashion by a world famous scientist in this popular version of *Genetic Takeover* originally published in 1982

Athletes Pressing Charges Jörg Krieger, 2022-06-09 *Athletes Pressing Charges* explores the athlete led protest movement in the Olympic sport of modern pentathlon. The athlete activists protest against the removal of the horse riding discipline from the sport and blame the sport's governing body, the International Modern Pentathlon Union, for violating good governance principles and mismanagement. By taking the existing power imbalance between sport organizations and athletes as a starting point, this book argues that providing a voice to independent athletes affected by

policy changes is crucial to understand the ongoing issues in the sport The protest movement is contextualized against the backdrop of increasingly stronger attempts by athletes from semi professional Olympic sports to make their voices heard in decision making processes Therefore this study has broader significance for the ongoing challenges by athletes and athletes led organizations on powerful sport organizations
