Making EI Work Keith Banting, Jon Medow, 2013-04-08 Since the inception and design of Canada's Employment Insurance EI program the Canadian economy and labour market have undergone dramatic changes It is clear that EI has not kept pace with those changes and experts and advocates agree that the program is no longer effective or equitable Making EI Work is the result of a panel of distinguished scholars gathered by the Mowat Centre Employment Insurance Task Force to analyze the strengths weaknesses and future directions of EI The authors identify the strengths and weaknesses of the system and consider how it could be improved to better and more fairly support those in need They make suggestions for facilitating a more efficient Canadian labour market and meeting the human capital requirements of a dynamic economy for the present and the foreseeable future The chapters that comprise Making EI Work informed the task force's final recommendations and form an engaging dialogue that makes the case for and defines the parameters of a reformed support system for Canada's unemployed Contributors include Ken Battle Caledon Institute of Social Policy Robin Boadway Queen's University Allison Bramwell University of Toronto Sujit Choudhry New York University School of Law Kathleen M Day University of Ottawa Ross Finnie University of Ottawa Jean Denis Garon Queen's University David Gray University of Ottawa Morley Gunderson University of Toronto Ian Irvine Concordia University Stephen Jones McMaster University Thomas R Klassen York University Michael Mendelson Caledon Institute of Social Policy Alain No 1 Universit de Montr al Michael Pal University of Toronto Faculty of Law W Craig Riddell University of British Columbia William Scarth McMaster University Luc Turgeon University of Ottawa Leah F Vosko York University Stanley L Winer Carleton University Donna E Wood University of Victoria and Yan Zhang Statistics Canada

Redefining Global Strategy, with a New Preface Pankaj Ghemawat, 2018-04-10 New Tools

for Succeeding Globally Why do so many global strategies fail despite companies powerful brands and other border crossing advantages Because a one size fits all strategy no longer stands a chance When firms believe in the illusions of a flat world and the death of distance they charge across borders as if the globe were one seamless marketplace But cross border differences are larger than we assume Most economic activity including trade real and financial investment tourism and communication happens locally not internationally In this semiglobalized approach companies can cross borders more profitably by basing their strategies on the geopolitical differences that matter they must identify the barriers their strategies will have to overcome and they must build bridges to cross those barriers Based on rigorous research Pankaj Ghemawat shows how to create successful strategies and provides practical management tools so you can Assess the cultural administrative geographic and economic differences between regions at the industry level and decide which ones require attention Track the implications of the specific border crossing actions that will impact your company s ability to create value the most Generate superior performance through strategies that are optimized for the three A s adaptation adjusting to differences aggregation overcoming differences and arbitrage exploiting differences Using in depth examples Ghemawat reveals how companies such as Cemex Toyota Procter Gamble Tata Consultancy Services IBM and GE Healthcare are adroitly managing cross border differences He also shares examples of other well known companies that have failed at this challenge Crucial for any business competing across borders *Redefining Global Strategy* will help you make the most of our semiglobalized world

Rethinking Workplace Regulation Katherine V.W. Stone, Harry Arthurs, 2013-02-14 During the middle third of the 20th century workers in most industrialized countries secured a substantial measure of job security whether through legislation contract or social practice This standard employment contract as it was known became the foundation of an impressive array of rights and entitlements including social insurance and pensions protection against unsociable working conditions and the right to bargain collectively Recent changes in technology and the global economy however have dramatically eroded this traditional form of employment Employers now value flexibility over stability and increasingly hire employees for short term or temporary work Many countries have also repealed labor laws relaxed employee protections and reduced state provided benefits As the old system of worker protection declines how can labor regulation be improved to protect workers In Rethinking Workplace Regulation nineteen leading scholars from ten countries and half a dozen disciplines present a sweeping tour of the latest policy experiments across the world that attempt to balance worker security and the new flexible employment paradigm Edited by noted socio legal scholars Katherine V W Stone and Harry Arthurs Rethinking Workplace Regulation presents case studies on new forms of dispute resolution job training programs social insurance and collective representation that could serve as policy models in the contemporary industrialized world The volume leads with an intriguing set of essays on legal attempts to update the employment contract For example Bruno Caruso reports on efforts in the European Union to constitutionalize employment and other contracts to better preserve protective principles for workers and to extend their legal impact The volume then turns to the field of labor relations where promising regulatory strategies have emerged Sociologist Jelle Visser offers a fresh assessment of the Dutch version of the flexicurity model which attempts to balance the rise in nonstandard employment with improved social protection by indexing the minimum wage and

strengthening rights of access to health insurance pensions and training Sociologist Ida Regalia provides an engaging account of experimental local and regional pacts in Italy and France that allow several employers to share temporary workers thereby providing workers job security within the group rather than with an individual firm The volume also illustrates the power of governments to influence labor market institutions Legal scholars John Howe and Michael Rawling discuss Australia's innovative legislation on supply chains that holds companies at the top of the supply chain responsible for employment law violations of their subcontractors Contributors also analyze ways in which more general social policy is being renegotiated in light of the changing nature of work Kendra Strauss a geographer offers a wide ranging comparative analysis of pension systems and calls for a new model that offers flexible pensions for flexible workers With its ambitious scope and broad inquiry *Rethinking Workplace Regulation* illustrates the diverse innovations countries have developed to confront the policy challenges created by the changing nature of work The experiments evaluated in this volume will provide inspiration and instruction for policymakers and advocates seeking to improve workers' lives in this latest era of global capitalism

Trade-Offs Mark S. Bonham, 2019-03-01 Trade Offs The History of Canada U S Trade Negotiations was the subject of the Canadian Business History Association's annual conference held in November 2018 The conference discussed the history of Canada's efforts in negotiating past trade agreements with the United States including the Reciprocity Agreement of 1854 the AutoPact 1965 the Free Trade Agreement 1987 the North American Free Trade Agreement 1994 and the most recent United States Mexico Canada Agreement 2018 A critical assessment is provided through twelve presentations which are intended to be the basis of broad guidelines around future trade negotiation efforts [Social and Labour Market Aspects of North American Linkages](#), 2002 [Dependent America?](#) Stephen Clarkson, Matto Mildenberger, 2011-09-30 Following the acclaimed *Uncle Sam and Us* and the influential *Does North America Exist* Stephen Clarkson the preeminent analyst of North America's political economy and Matto Mildenberger turn continental scholarship on its head by showing how Canada and Mexico contribute to the United States wealth security and global power This provocative work documents how Canada and Mexico offer the United States open markets for its investments and exports massive flows of skilled and unskilled labour and vast resource inputs all of which boost its size and competitiveness more than does any other US partner They are also Uncle Sam's most important allies in supporting its anti terrorist and anti narcotics security Clarkson and Mildenberger explain the paradox of these two countries simultaneous importance and powerlessness by showing how the US government has systematically neutralized their potential influence Detailing the dynamics of North America's power relations *Dependent America* is a fitting conclusion to Clarkson's celebrated trilogy on the contradictory qualities of its regionalism asymmetrical economic integration thickened borders and emasculated governance **2004**, 2004 This report emphasises the development of human capital to respond to future labour market needs in APEC and contributes to collective understanding of the synergies between human capital and innovation in fuelling growth performance In the paper *International Mobility of*

Highly Qualified People in APEC the study argues that highly qualified people HQP are indispensable to an innovative economy A more innovative economy requires that the labour force include the right number and types of HQPs However for some segments of HQPs the job market is now international with the industrialized economies in APEC competing to attract individuals with the most in demand skills and experience This means that if APEC economies are to adjust to new skill requirements in order to support a more innovative economy they must formulate policies to retain domestic talent and attract HQPs from abroad On the other hand the mobility of HQPs is a necessary condition for knowledge dissemination and absorption in the new global economy The second paper The Development of Industrial Clusters Towards a Knowledge based Economy drawing on the empirical evidence from the Hsinchu Science based Industrial Park HSIP finds that human resources are indispensable to the build up of innovation capability As an economy develops it may even attract skilled labor from overseas However human resources that are repatriated or attracted from abroad are always insufficient to support the operations of an industrial cluster and they have to be complemented by indigenous skills

Working and Poor Rebecca M. Blank, Sheldon Danziger, Robert F. Schoeni, 2007-01-09 Over the last three decades large scale economic developments such as technological change the decline in unionization and changing skill requirements have exacted their biggest toll on low wage workers These workers often possess few marketable skills and few resources with which to support themselves during periods of economic transition In *Working and Poor* a distinguished group of economists and policy experts headlined by editors Rebecca Blank Sheldon Danziger and Robert Schoeni examine how economic and policy changes over the last twenty five years have affected the well being of low wage workers and their families *Working and Poor* examines every facet of the economic well being of less skilled workers from employment and earnings opportunities to consumption behavior and social assistance policies Rebecca Blank and Heidi Schierholz document the different trends in work and wages among less skilled women and men Between 1979 and 2003 labor force participation rose rapidly for these women along with more modest increases in wages while among the men both employment and wages fell David Card and John DiNardo review the evidence on how technological changes have affected less skilled workers and conclude that the effect has been smaller than many observers claim Philip Levine examines the effectiveness of the Unemployment Insurance program during recessions He finds that the program s eligibility rules which deny benefits to workers who have not met minimum earnings requirements exclude the very people who require help most and should be adjusted to provide for those with the highest need On the other hand Therese J McGuire and David F Merriman show that government help remains a valuable source of support during economic downturns They find that during the most recent recession in 2001 when state budgets were stretched thin legislatures resisted political pressure to cut spending for the poor *Working and Poor* provides a valuable analysis of the role that public policy changes can play in improving the plight of the working poor A comprehensive analysis of trends over the last twenty five years this book provides an invaluable reference for the public discussion of work and poverty in America A

Volume in the National Poverty Center Series on Poverty and Public Policy **Handbook on Globalisation and Labour Standards** Elliott, Kimberly A.,2022-03-15 This comprehensive Handbook explores the complex and volatile debate over globalisation and labour standards It offers key insights into the impact of globalisation on workers the obligations of corporations and international legal bodies in protecting workers rights and maximising the opportunities offered by international trade and investment **NAFTA@10** John M. Curtis,Aaron Sydor,Canada. Department of Foreign Affairs and International Trade,2006 This is a volume of research conducted by government and outside researchers relating to the impact of the Canada U S and NAFTA agreements as well as research assessing the potential impact of proposals for deeper North American economic integration from a Canadian perspective *Analyse de Politiques* ,2007 **Journal of Economic Literature** ,2006-12
