Emotions as Bio-cultural Processes Birgitt Röttger-Rössler, Hans Jürgen Markowitsch, 2009-06-12 Emotions have emerged as a topic of interest across the disciplines yet studies and findings on emotions tend to fall into two camps body versus brain nature versus nurture Emotions as Bio cultural Processes offers a unique collaboration across the biological social divide from psychology and neuroscience to cultural anthropology and sociology as 15 noted researchers develop a common language theoretical basis and methodology for examining this most sociocognitive aspect of our lives Starting with our evolutionary past and continuing into our modern world of social classes and norms these multidisciplinary perspectives reveal the complex interplay of biological social cultural and personal factors at work in emotions with particular emphasis on the nuances involved in pride and shame A sampling of the topics 1 The roles of the brain in emotional processing 2 Emotional development milestones in childhood 3 Social feeling rules and the experience of loss 4 Emotions as commodities The management of feelings and the self help industry 5 Honor and dishonor societal and gender manifestations of pride and shame 6 Emotion regulation and youth culture 7 Pride and shame in the classroom A volume of such wide and integrative scope as Emotions as Bio cultural Processes should attract a large cohort of readers on both sides of the debate among them emotion researchers social and developmental psychologists sociologists social anthropologists and others who analyze the links between humans that on the one hand differentiate us as individuals but on the other hand tie us to our socio cultural worlds

The Anthropology of Childhood David F. Lancy, 2014-12-18 How are children raised in different cultures What is the role of children in society How are families and communities structured around them Now available in a revised edition this book sets out to answer these questions and argues that our common understandings about children are narrowly culture bound Enriched with anecdotes from ethnography and the daily media the book examines family structure reproduction profiles of children s caretakers within the family or community their treatment at different ages their play work schooling and transition to adulthood The result is a nuanced and credible picture of childhood in different cultures past and present Organised developmentally moving from infancy through to adolescence and early adulthood this new edition reviews and catalogues the findings of over 100 years of anthropological scholarship dealing with childhood and adolescence drawing on over 750 newly added sources and engaging with newly emerging issues relevant to the world of childhood today

The Politics of Immunity Mark Neocleous, 2022-04-05 The violence and

destruction hiding behind the obsession with immunity Our contemporary political condition is obsessed with immunity The immunity of bodies and the body politic personal immunity and herd immunity how to immunize the social system against breakdown The obsession intensifies with every new crisis and the mobilization of yet more powers of war and police from quarantine to border closures and from vaccination certificates to immunological surveillance Engaging four key concepts with enormous cultural weight Cell Self System and Sovereignty Politics of Immunity moves from philosophical biology to intellectual history and from critical theory to psychoanalysis to expose the politics underpinning the way immunity is imagined At the heart of this imagination is the way security has come to dominate the whole realm of human experience From biological cell to political subject and from physiological system to the social body immunity folds into security just as security folds into immunity The book thus opens into a critique of the violence of security and spells out immunity's tendency towards self destruction and death immunity like security can turn its aggression inwards into the autoimmune disorder Wide ranging and polemical Politics of Immunity lays down a major challenge to the ways in which the immunity of the self and the social are imagined **The Handbook of Food and Anthropology** Jakob A. Klein, James L.

Watson, 2016-08-25 Winner of the CHOICE Outstanding Academic Title of the Year Award 2017 Interest in the anthropology of food has grown significantly in recent years This is the first handbook to provide a detailed overview of all major areas of the field 20 original essays by leading figures in the discipline examine traditional areas of research as well as cutting edge areas of inquiry Divided into three parts Food Self and Others Food Security Nutrition and Food Safety Food as Craft Industry and Ethics the book covers topics such as identity commensality locality migration ethical consumption artisanal foods and children's food Each chapter features rich ethnography alongside wider analysis of the subject Internationally renowned scholars offer insights into their core areas of specialty Examples include Michael Herzfeld on culinary stereotypes David Sutton on how to conduct an anthropology of cooking Johan Pottier on food insecurity and Melissa Caldwell on practicing food anthropology The book also features exceptional geographic and cultural diversity with chapters on South Asia South Africa the United States of America post socialist societies Maoist China and Muslim and Jewish foodways Invaluable as a reference as well as for teaching The Handbook of Food and Anthropology serves to define this increasingly important field An essential resource for researchers and students in anthropology and food studies *Biosocial*

Measuring Stress in Humans Gillian H. Ice, Gary D. James, 2006-12-21 The purpose of this 2006 book is to present non invasive methods of measuring the biological responses to psychosocial stress in humans in non laboratory field settings Following the pathways of Seyle's General Adaptation Syndrome the text first describes how to assess the psychosocial stressors of everyday life and then outlines how to measure the psychological behavioral neurohumeral physiological and immunological responses to them The book concludes with practical information on assessing special populations analyzing the often complicated data that are collected in field stress studies and the ethical treatment of human subjects in stress studies It is intended to be a practical guide for developing and conducting psychophysiological stress research in human biology This book will assist students and professionals in designing field studies of stress

Social And Cultural Lives Of Immune Systems: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Social And Cultural Lives Of Immune Systems : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
