

# Demographic Accounting Equations

- Equation used for evaluating population change on global and sub global levels.
- At the global level, the CBR and CDR are the only two factors in the equation of change.
- At the sub global level, **immigration and emigration** are taken into account.

## Global Population Accounting Equation

$P_0$  = Size of population at *start* of interval of measurement

$P_1$  = Size of population at *end* of interval of measurement

B = Number of births during interval of measurement

D = Number of deaths during interval of measurement

$$P_1 = P_0 + B - D$$

## Subglobal Population Accounting Equation

$P_0$  = size of population at *start* of interval of measurement

$P_1$  = Size of population at *end* of interval of measurement

B = Number of births during interval of measurement

D = Number of deaths during interval of measurement

I = Number of immigrants moving *into* region during interval of measurement

E = Number of emigrants *exiting* region during interval of measurement

$$P_1 = P_0 + B - D + I - E$$

## **Social And Demographic Accounting:**

**Social and Demographic Accounting** Geoffrey J. D. Hewings, Moss Madden, 2009-01-11 This book provides a state of the art account of developments and applications of social accounts a technique for modeling national and regional economies The contributors address issues of new formulation of social accounts of applications in economics and demography and of specification at both national and regional levels Relationships between social accounts models and computable general equilibrium models of national and regional economies are explored and interregional considerations are addressed

**Social Accounting Systems** F. Thomas Juster, Kenneth C Land, 2013-09-03 Social Accounting Systems Essays on the State of the Art contains essays prepared during a workshop aimed at the development and promulgation of objectives for future work on social accounting and the making of recommendations to achieve them by evaluating existing demographic and time based accounting models The essays describe and evaluate the state of the art of extant empirically based approaches to social accounting The book opens with an overview chapter that describes the organizations of the Workshop on Social Accounting Systems at which the essays were presented and discussed the nature of the tasks assigned to authors and the major themes of workshop discussions This is followed by separate chapters on time based social accounting systems and demographic accounting how subjective social indicators can be related to social accounting systems and general evaluations of the systems described in the previous chapters This book will be primarily of interest to social scientists and statisticians concerned with the development and integration of national data systems and with social indicator analyses They also will be germane to the interests of students of contemporary social change and the quality of life

**Methods of Interregional and Regional Analysis** Walter Isard, Iwan J. Azis, Matthew P. Drennan, Ronald E. Miller, Sidney Saltzman, Erik Thorbecke, 2017-07-05 This landmark textbook introduces students to the principles of regional science and focuses on the key methods used in regional analysis including regional and interregional input output analysis econometrics regional and spatial programming and industrial and urban complex analysis gravity and spatial interaction models SAM and social accounting welfare analysis and applied general interregional equilibrium models The coherent development of the materials contained in the set of chapters provides students with a comprehensive background and understanding of how to investigate key regional problems For the research scholar this publication constitutes an up to date source book of the basic elements of each major regional science technique More significant it points to new directions for future research and ways interregional and regional analytic approaches can be fused to realise much more probing attacks on regional and spatial problems a contribution far beyond what is available in the literature

**National Accounting and Economic Policy** Nancy D. Ruggles, Richard Ruggles, 1999-01-01 Richard Ruggles often assisted by Nancy Ruggles has been a major contributor to national income accounting and to the empirical study of microeconomics and macroeconomics using that and other data He has focused on the quantitative analysis of actual economic systems in a discipline increasingly

preoccupied with abstract pure conceptual models Like the work of Simon Kuznets and others Ruggles's analyses encompass an unusually wide range of variables Warren J Samuels Michigan State University US This volume reflects the pioneering contribution of Nancy and Richard Ruggles to the development of national accounts It provides a comprehensive overview of the evolution of national accounting systems over the last 50 years
