Post-choreography Shuntaro Yoshida, 2024-09-10 This book sheds light on the practice of French choreographer Jérôme Bel who is active in the fields of performing arts and contemporary art Shuntaro Yoshida examines a case study of collective creation involving the choreographer and a group of amateur workshop participants The focus is on Atelier Danse et Voix Dance and Voice Workshop 2014 and workshops held with local diverse participants in Brussels Venice and Munich after the cancellation of the Dance and Voice Workshop This study elucidates Bel's creative method by exploring the relationship between choreographer and participants in a situation where the typical framework of actors has been expanded The focus of the case study is not so much the choreographic methodology itself but the relationship between the method and the

participants and the ways in which the choreographer cedes creative decision making power to participants In order to investigate Bel s creative method this study makes use of participant observation field notes taken during a rehearsal Additional data sources include Bel s emailed materials performance programs and interviews with participants This book will be of great interest to students and scholars in theater performance and dance studies *The Routledge Companion to Art and Politics* Randy Martin,2015-02-11 The Routledge Companion to Art and Politics offers a thorough examination of the complex relationship between art and politics and the many forms and approaches the engagement between them can take The contributors a diverse assembly of artists activists scholars from around the world discuss and demonstrate ways of making art and politics legible and salient in the world As such the 32 chapters in this volume reflect on performing and visual arts music film and new media as well as covering social practice community based work conceptual interventionist and movement affiliated forms The Companion is divided into four distinct parts Conceptual Cartographies Institutional Materialities Modalities of Practice Making Publics Randy Martin has assembled a collection that ensures that readers will come away with a wider view of what can count as art and politics where they might find it and how it moves in the world The diversity of perspectives is at once challenging and fortifying to those who might dismiss political art on the one hand as not making sufficient difference and on the other to those embracing it but seeking a means to elaborate the significance that it can make in the world The Routledge Companion to Art and Politics brings together a range of issues and approaches and encourages critical and creative thinking about how art is produced perceived and received **Thinking Through Theatre and Performance** Maaïke Bleeker,Adrian Kear,Joe Kelleher,Heike Roms,2019-02-07 Thinking Through Theatre and Performance presents a bold and innovative approach to the study of theatre and performance Instead of topics genres histories or theories the book starts with the questions that theatre and performance are uniquely capable of asking How does theatre function as a place for seeing and hearing How do not only bodies and voices but also objects and media perform How do memories emotions and ideas continue to do their work when the performance is over And how can theatre and performance intervene in social political and environmental structures and frameworks Written by leading international scholars each chapter of this volume is built around a key performance example and detailed discussions introduce the methodologies and theories that help us understand how these performances are practices of enquiry into the world Thinking through Theatre and Performance is essential for those involved in making enjoying critiquing and studying theatre and will appeal to anyone who is interested in the questions that theatre and performance ask of themselves and of us **Collective Action and Exchange** William D.
